We to-day record three more attempts at barglary, which, owing to the rigilance of house-owners, and the accidental passing of belated neighbors were happily foiled. About 11 o'clock Monday night a neighbor in passing

Saw a man at a front window endeavoring to effect an entrance. The burglar fied on hearing the "approach of the neighbor, and the latter proceeded to arouse the peace-fully slumbering Sheriff-he is not a candidate for re-election-and inform him of the circumstance. A little later, the same night, as a young man who boards with the family of

D. A. MILLER, South Salem, was returning home and had reached the gate he saw some one emerge from the back part of the house and get away on the double quick. A few hour after this occurrence, a young lady who was spending the night at the residence of Rev. L. T. Woodward, Bast Salein, heard som une at the kitchen door. Mr. Woodward washaway and Dr. Charley Hall, at the re queit of the family, had come over to sleep in the house, bringing a pistol with him. The young lady called to him, and he got up immediately and went down stairs in the dark. As he did so the noise at the back loor ceased, and he heard the footsteps several persons, apparently, who were passing around the house toward the front paning the front door he stepped quietly out upon the porch, which was screened by lambering vines, and waited for them Two men soon appeared around the corne of the house, and the Doctor immediately

need apply.

LUDICROUS SITUATION .- The burglas soare which at present pervades this religions city has been fruitful in ludiorous in cident as an extreme and undignified scare of any kind is apt to be. We have just heard of an instance which illustrates the nervous condition of our inhabitants : Mr - who is away from town on business has a family consisting of a wife and several children, among whom are two amiable girls. Mrs. M ---- attended the Tea Meet. ing the other evening leaving these daugh ters in charge of the house. She had not fillment of the fears of the girls, some one was heard at the front door, failing to open which he begun to climb one of the ornamontal pillars of the porch. The girls rushed up stairs, lamp in hand, and took possession of one of the bed rooms, piling trucks and every available article against the door. In the flight up stairs the lamp exploded but fortunately the oil did not take fire. As the enemy was heard to adwance upon their extemporized barricade, the girls escaped through a window upon the roof of the wood-shed. The window came down with a crash and when, having regained courage, they attempted to raise it found that it was fixed. They were by this mishap compelled to remain upon the root of the shed for over two hours-until thei mother returned-and were of course near ly frozen. It is laughable now, but was secious enough at the time. MYSTERIOUS .- While strolling around th city yesterday we ran across the following notice posted in a conspicuous place : " B T. B. B. K. meet this evening at ----Skids, President ; Bugs, Sec'y. Now what does this mean? It certainly looks mysterious and should be inquired into. Who knows but it may mean " Rearing Terrific Blue-Bearded Kaklux," and they are con templating some hideous outrage. Or per haps it means " Royal Tiger Base Bal Klub" and they intend challenging the Marions to play a match game. Or it may stand for Robbing Treacherous Beastly Butchery Klub, or some other equally ter rible thing. We call upon all peaceably disposed citizens to rise on masse and find out " why is this thus " and suppress or en courage as the case demands.
