Let us look at this: Mr. Me erstarted the Granger as a private sherprise, TO BE FC H. D. In order to preserve the paper as a local advocate of agricultural interests, some of the leading farmers of Linn county (where there are many company so organized. This change has end led Mesers. Brown & Stewart to become by purchase the virtual, if not absolute, owners of the paper. O ALSO BOOKS, STATIONERY, TOYS, thing to say, but of Mr. Brown, as the as such, a devoted political partisan, I think it is not too much to say that he will find means to give a partisan bias to the columns of the Callivator; indeed I think I can see a very dec NEPTUNE BATHS coloring of that kind in this the first

number of the Cultivator; and permit me to say, I don't find fault with you or the publishers if this be so-you depending on the Democrat in large measure for your political news, could hardly avoid such a result. But, while, as a patron as well as a citizen, I will watch the course of the paper intently, I do not care to be its servant, much less its subject. And here permit me a few remark upon the words I have italicised in your ircular- I read a crack of the between the lines there, to which I, and the generality of old Oregonians, are unused. Putting the best construction upon your language, I do not think the measure of my devotion to the agricultural interests, to which I have de

Oregon, is to be gauged by the alacrity I may show to co-operate with you in support of the business interests of Messrs. Brown & Stewart. Another reason why I decline: The WILLAMETTE FARMER, the resent organ of our Order, was nursed nate existence by the agricultural in-terests of Oregon as represented by our State Agricultural Society, and liberaly subsidized by it during its first years, nder the stipulation that the Society, brough its Board of Managers, should have the selection of its editor. Through the partiality of the Board of Managers, and other prominent memhers of the Society, I was selected for that position, without any other single

qualification then my devotion to the interests of agriculture as believed in by my brother farmers. My relations as editor, and an intimate connection I have since maintained with the conductors of the paper, lead me to deplore the fact that you, Brother, have to lead on the attack against a paper established as I have outlined, and which has been so conducted as to retain the confidence not only of our Order, but of our State Ag-

ricultural Society as well.

In the number before me, you give Smith's Block, Commercial St., Salem. the specific objects of our Order, among which, is to develope a better and higher manhood and womanhood. Do you think it conducive to that end that the brothers and sisters of this jursdiction should co-operate with you in your endeavors to carry the business interests of Messrs. Brown and Stewart within the gates of the Order, rather han that you should cooperate them in what they deem for the in

terests of the Order. You know-none better—that there are thousands of men resorting to all manner of means to get within our gates; that, in consequence of this, it behooves us to be circumspect and careout with what we co-operate and in whom we place confidence. In such times at d under such circumstances, Goslo and keep in the middle of the road, are words of wise counsel. Fraternally yours,
