LOCAL DEPARTMENT.

(From Saturday Morning's Daily.

Quite Sick. Mrs. T. C. Shaw, wife of Sheriff Shaw has cen laving quite low for some time with typhoid fever. The disease has reached such a crisis that for the past few days she has been considered in a critical condition

The Transurer of Linn county, Jas. Shields, visited our city Friday and called on State Treasurer Brown with whom he left the sum of \$25,322 48, being the amount of tax due from

Dr. Hall has been promoted to Medicine Chief in the Order of Ditche Stines, and on the occasion delivered a very pleasing address in the Chinoek language. The Medicine Chief a great linguist.

We learn from B. H. Roach, Esq., of Junetion City, that the school at that place is in a very prosperous condition. Prof. J. C. Balon, teacher, gave an exhibition last Saturday which was the best ever had in that place. Junction is a thriving plac, its citizens read the Brares MAN and pay for it.

Tumbled.

Our friend Henry H. Gilfry while enjoying himself at the rink Friday afternoon, to use a street phrase, found a soft plank and took a "tumble to himself." Henry ares took a look at the indenture made in the floor found his speculation busted took himself up in his and and departed for home. He returned in the evening, but had no desire to try the skates,

Henvy Shipment.

Some 6,080 bushels of wheat was shipped from the Farmers Warehouse in this city, Friday, and 4,000 bushels are now awaiting shipment. A great deal of activity prevails in that cality at the present time in sacking, shipping, etc., and at this rate we are led to believe that it will not be long ere the establishment is eleared.

The Portland Bee of the 28d inst., says: "Mr. Hiram Smith, of Harrisburg, is in the city and reports Willie Reynard—the boy convie of larceny, sentenced to the Penitentiary and ed by the Governor—as d.ing well. ous, anxious to please, and the making of a noble man. Work on the Capitol.

What work, under contract at the Capitol building, is being pushed rapidly forward. The gas and water pipes are all laid so that the fathers and plasterers can proceed with their work; but a wast amount of labor is yet to be one on the plambing. The contractor, Mr. Thawl, is in San Francisco purchasing material for the completion of his job, and a part of it we months for fitting up the sinks, closets, etc. The State Tressurer's office, and the committee rooms adjoining the Senate Chamber, have recleved the first coat of plastering, and the lathers are at present engaged in the celling of the Senate Chamber, which is nameled and is a very entricate job, but promises to be very hand-some when finished. Vast beds of mortar are being prepared on the ground floor, huge piles of flooring lumber are scattered around, and everything seems to betoken a rapid completion

A QUESTION OF CHEEK

ALBANY, Feb., 1876.
En. STATESMAN:—We have an individual in Albany who seems principally composed of nose, and I nesure to notify the public that he is saling under false colors, because he is nearly all "enests," He apasts and when about the article of "Grapal Rage Bellie" as if he was smiller with there, when it is well known that he is "berred" from such society. His massi protaberance is being constantly inserted where it does not belong and be attempts to give an irr of respectability to a "bosing carease, if you will allow the expression, when in fact he knows and sees but hittle. His check would be an ammense fortune it if could be put in the shape of anvils or something requiring hard notal. Rappectfully. Myra. calling under false colors, because he is nearly

do not fully catch your idea; but modestly anggest that you put your bed-room howifzers in position, and by united action drive the midnight observer from your various places of abode. Truly, Albany is a wicked cliy.

The straight-up-and-lown bonnet worn by New York fashionables, belind the head instead of on it, give the wearer the appearance, wher, toproachinf from a distance of having a light cance strapped to her back.

The Alka Society, at the Willamotte University, discussed the question of "Women's Rights," Friday evening last. Good argument was put forth on both sides, but the Freeident decided in favor of the sufferers.

The Sheriff of Jackson county, J. W. Man-Clafford, whom he put in the charge of Dr Hawthorne and is now on his return home.

"Rube" at the Rink.

A young gentleman from the rural districts came in town Saturday to attend the skating rink, and in the evening put in an appearance. What was the surprise of all present to see him pull from his overcoat pocket a pair of old fashioned steel skates and say, "Dang it; these yer things is no go-wish I was home."

Officers Elected.

At a regular meeting of the Hesperian Society, of the Willamette University, last Friday evening, the following officers were elected for the ensuing term: President, Pierce Mays; Ju-Vice President, Wiley B. Allen; Secretary, R. city. D. Allen; Treasurer, Jasper Coovert; Librarian, Vanison Gesner; Censor, D. P. Stouffer.

A name appeared in the passenger list of the neoming steamer from San Francisco, which number of citizens have taken for that of Bliss D. Rickey, son of Col. T. B. Rickey, of this city. We enquired of the Colonel yesterday in regard to it and learned from him that it was not Bliss, but an uncle or cousin of his. but which he was not certain.

Pleasant Sociable.

Ten or twelve comples of college students called on the Misse Ford on Priday night and had a pleasant time of it, judging from a description given us by one present. Innocent amusements of various kinds were indulged in. and a splendid suppor "discussed;" and, at a late hour the company dispersed, feeling that it was good to have been there.

The STATESMAN has accommodated the Wotkinds Mercury with as much as three columns of reading matter, set in type, at one time, taken against defendant. Cause referred to without credit. We did not desire the credit, H. Hurley, Esq., to take and report testimony because that concern has not sufficient circulation to make it any object to us. Cheek is one thing , and gratitude and idiocy another. We forgive you, for you know not what you do.

CHALLENGE FOR DEBATE.

BUENA VENTA ITEMS.

The enterprising citizens of this place now propose to turn the water of the Luckimute, by means of a race, and make for their interesting town, a fine water power for mills and factories. Independence, Dallas and Jefferson have the same purpose under advisement. When all these, and other points, get the canals and mills this seen already shipped. ACCIDENT - SERIOUS.

F.o. Starssaus.—Here in the neighborhood of Portland a low days ago, a prominent Democrat, while looking through a lumber making establishment, was accidentally caught on a belt and carried into contact with a buzz saw. It happened that he met the buzzing steel with his cheek and raised the saw but came of sound. I communicate this news item without charge.

New case, but not strange.

THE LAW.

Ro. Statusman: Accidentally passing, I witnessed a coet fight, vesterday at a sectuded point in South Salem. A little dispute arose on the subject of fair play, between two young men who were betting on the contest, and to my great surprise each one exhibited a silver mounted derringer drawn from a pocket in the pants situated untilly just below the small of the back and, had no one interfered it is probable some one would have been hurt. Now what I desire to know, is, has the great city of Salem no law prohibiting "carrying concealed weapons." Most cities of churches and peacable communities will not allow desperadors or strippling boys to sport dangerous wapons. strippling boys to sport dangerous weapons. How is it in Salem? ABEARSAS.

We have no copy of city ordinances before us ever been published. Beceiving your communication late in the day we had no time to look after the matter, but believe, of course, that such laws as you refer to are on record. If then, it is only a matter of enforceing them, enforcing such a law would greatly reduce the price of pistols and bowle-knives on this coast.

The Oregon Children's Aid Speicty. Among the celebrated organizations of which

have come into existence during the last few years, in our young State, none of them have a worthter object than the Children's Aid Society. When death has forever stilled the kind voice of mother and has placed beyond the resime of earthly life the guiding hand of father, the bereft little ones become the wards of a public not always too generous. Too often they are left to grow to man's or woman's estate without that guidance which would make them useful members of society. These early impressions which are ineffaceable and which give a coloring to all their after life are too-often of an improp or er kind and only fit them for a useless and unhappy existence.

It is a noble thing to take charge of these and in fact do not know that such volume has poor unfortunates, find homes for them where love and charity have an abiding place, and where, through the influence of these heavenly attributes, they may be trained up for usefulness in life. Such an organization is our Children's Aid Soceity. Born in the minds of some of our generous-hearted ladies, it has under their judicial management, already done a world of good, and has yet much to achieve in the future. In the Eastern part of our beautiful city is the Orphan's Bome, erected by this Society, surthat Gregor is a small State in point of pepula-tion, but other figures show that it takes no situated in the midat of grounds which bear the secondary position in other matters. With one hundred thousand people we carry off the pairs and large the demand large the demands. It is a monument and have the clampion shorer of the United States.
