NEW FANNING MILL

AND GRAIN SEPARATOR.

THE SWIFT AND STANDISH IS THE most perfect machine in the market. It separates wheat, oats, barley, rye and clover seed, from chaff and other seeds. As a chaffer it has no equal. The SWIFT AND STANDISH perfectly prepares the grain for seed and market, thereby increasing its value and enabling the farmer to retain the seed and chaff which he has formerly paid the merchant a margin for taking, and also enables him to save much which he has formerly given to the Miller. The SWIFT & STANDISH Grain Separator is durable, simple, easily managed and a rapid worker. Its price is within the reach of the small as well as the large farmer. All orders promptly filled by G. E. B. WIN, Jefferson, or CUNNINGHAM & CO., Salem, Dec 24 '76

Pacific Mutual

LIFE INSURANCE COMPANY,

Of California. LELAND STANFORD, President. J. H. CARROLL, Vice President. A. C. VALLIANT, Secretary. BENJ. D. KENNEDY, Actuary.

Assets, \$1,300,000.

Death Claims Paid in 1875, FIFTY, amounting to \$124,000. Income on Interest Bearing Assets, 14 per cent.

THE PACIFIC MUTUAL has all its funds on this coast. It has perfected a new plan of insurance called the Mutual Investment Plan. It guarantees a definite rate of dividend and defers the Cash Surrender Value. Each applicant elects his own terms and is not compelled to pay for insurance any longer than he needs it.

It is a plain contract, easily understood and possesses every element of safety, security and satisfaction. It shows not alone how to get into insurance, and how to get out pleased and satisfied. Unlike the old time policy, it does not bind the insured to an interminable contract, but the holder may realize his cash value at any time, and THAT CASH VALUE IS EXPRESSED ON THE POLICY IN FIGURES, it being the 10th condition of the policy.

To cover a mortgage, secure a debt, protect a family, to guard against withdrawal of business capital by a partner's death, or to provide for old age, it is a prudent and successful plan.

"A Life Insurance is the cheapest and best mode of making a certain provision for one's family."—Franklin

HOW STRANGE that men should be careful to insure their ships, goods and houses, which may or may not sink, burn or be destroyed, and refuse to insure their lives, which are CERTAIN to cease.

In an Ordinary Lifetime, possibly to-day, and refuse, too, when they know that the comfort of their families and the safety of their estate depends on their personal ability and management, which hangs on the slender thread of their existence.

At these times of money stringency everywhere it would be well to

in our battle of life to consider the possibilities and contingencies that surround nearly every kind of business, and consequently the happiness of those who are dependent on our labor for their support.

No provision for our dependents is adequate which is not immediate, for death may be immediate.

Our estates, under our management, may be worth thousands, to our heirs hundreds.
