Protested by Excessive Heat.

OMAHA, July 8.—Captain Nickerson, of Gen. Crook's staff, who went out with the expedition, returned to Omaha yesterday.

Gen. Crook has heard from the forts of Tongue river, 190 miles from Fort Fetterman, and 95 miles from the railroad.

The command is awaiting the arrival of supplies and reinforcements. The latter, consisting of five companies, left Fort Belknap July 29th, and expected to reach Crook about the 12th.

THIS FILIAL BAND.

ART. SEVEN—OBJECT OF THE BAND.

The object of the Filial Band is to cultivate the habit of honor to parents, to make more plain its workings in society; to teach the young the way of filial duty and to bind parents and children more closely together in their happiness, hopes and appreciation.

The meetings should be so frequent as that they may not lose the interest inspired in them.

The presiding officers should be large-hearted, genial in temperament, sympathetic with youth and age, direct in conversation, ready to acknowledge the claims of each member of the band.

The members should be considerate of the welfare of the community, especially of the younger members who should be encouraged and allowed to join the Band, although their parents may not be willing to join themselves.

Let American ideas of government be taught, and all branches of science be in turn discussed; let poetry, art, morals, temperance, household arts, gardening, books, discoveries, every thing which makes people wise and home happy, be discussed there.

Let the pledge ever be prominent, and its aims be pressed at every meeting; let the young men have incentives to active diligence, virtue, temperance, every grade of character which goes to form a good citizen.

Part of the early honors connected with this Society shall be awarded, or rolls of honor, in acceptable style, having neat symbols, appropriate mottoes, and desirable for possession, which shall be awarded for attendance, improvement, behavior toward parents, amiability at home, veneration for age or extraordinary honorable deeds.

ART. SIX—SELF RESPECT.

The love of approbation is one of the earliest motives which influences the mind and from this standpoint we can easily start a series which produce self-respect.

But self respect is the foundation of true honor and nobility of character, and no one can respect him who has no self-respect.

The riot at Hamburg terminated disastrously this morning between 2 and three o'clock.

COMMUNICATED.

WASHINGTON, July 8.—I suppose an Eastern man ought not to say anything about the way the people of Salem celebrate the 4th of July.

ED. STATESMAN—The Centennial has passed in Salem, the thought suggests itself, "Why this apathy?"

While every village and hamlet in this great nation lifts up the voice of rejoicing, halting this glorious Nat'l Morn, our fair city sits solitary—not even the ringing of a bell.

ED. STATESMAN—It is very true that the Centennial has passed in Salem, the thought suggests itself, "Why this apathy?"
