Terrible Tragedy. MERIDEN, Miss., April 30.—An old feud culminated in a terrible tragedy yesterday at DeKalb, Kemper county, Miss. On Thursday last John W. Gully, a prominent Democratic citizen, was waylaid and assassinated. From affidavits of two negroes several alleged conspirators in an assassination were arrested yesterday afternoon. A large party of men fired upon the prisoners killing J. P. Gilmer, A. McLellan, John Chisholm and David Rosser, and mortally wounding Wm. M. Chisholm, all white Republicans except Rosser, who was a Democrat.

Further Details of the Mississippi Tragedy. JACKSON, May 1.—On Thursday evening John W. Gully, a prominent citizen of Emporia, was assassinated by an unknown party. The excitement is intense and every means is taken to discover the murderer. On Saturday two negroes made an affidavit that Judge Chisholm, Republican candidate for Congress from the third district, his son, Gilmer and Rosenbaum instigated the crime. Chisholm and son were arrested and, with the women of the family, who wished to share the imprisonment, were put in jail. On Sunday Gilmer came to the jail to see the Chisholms. A warrant was ready for him, but when he was at jail a mob set upon and killed him, overpowered jailer, attacked Chisholm, mortally wounding him and killing his son. Mrs. Chisholm was shot and killed, and Dr. Rosser and Mrs. Chisholm were severely wounded. A son of Gully, who was assassinated, was also severely wounded. Rosenbaum and Hopper, another alleged conspirator, were carried to the woods by the mob to extort from them the whereabouts of Rush, the alleged assassin of Gully.

Coinage of Gold. About \$40,000,000 worth of gold has been coined in the mints of the United States since the 1st of July. Adding to this the amount of silver coinage during the same period, the aggregate will be greater than the amount of coinage ever done in the United States mints in the same length of time. The only years during which the amount of work was nearly as great were the two or three immediately succeeding the discovery of gold in California and Australia, and even in those years the number of pieces actually made was much smaller than during the present. The greater portion of gold then found was converted into eagles, while during the present year an immense quantity of silver coins have been turned out. In the few short months of the present

ent fiscal year our importation of gold and silver exceeded the exportation by about \$4,000,000. From indications it would not be surprising if the amount of gold and silver accumulated in this country during the present year from production and export should amount to fully fifty million or more than the amount sent out of the country during 1862 on the suspension of specie payment.

The Agincourt and Shannon, ironclads, and Hydra and Cyclops, double turret ships, can be made ready to go into commission in 24 hours. Nearly a dozen gunboats are also preparing for commission, and all can be ready for sea within a fortnight.

Gladstone and English Policy. LONDON, April 30.—In the House of Commons Gladstone gave notice that he should introduce five resolutions in effect that England has just cause of complaint of the conduct of the Porte. Reference is made to Lord Derby's dispatch of last September, relating to Bulgarian massacres, and the resolution proceeded to declare that until there is change of conduct and guarantees to be given, the Porte has no moral or material claim to the aid of the British crown; that in the midst of complications and with war actually begun, the House earnestly desires that the influence of England in the councils of Europe be employed for the effectual development of liberty and local self government in the disturbed provinces and harmonious action among European powers, with a view of exacting such measures of government from Turkey as are necessary for the purpose of humanity and justice, for effectual defence against intrigue and for security of the peace of the world. Gladstone stated that the resolutions would be submitted solely on his own responsibility. Sir Stratford Northcote appointed Monday next for debate on resolutions.

Russian Troops Moving. LONDON, April 30.—A dispatch from Bucharest dated Monday, says the Russian army advancing very slowly. The

LONDON, May 1.—The Standard publishes a note in official form on English military preparations. It says the slightly increased activity in our dock yards and arsenals have attracted some notice, and exaggerated rumors are beginning to spread. As a fact some orders have been given which might encourage the belief that England is preparing to actively participate in the war, but the government's intentions to maintain neutrality are already known, and the so-called preparations is for embarkation. Every arrangement for speedy transport, and other measures are taken, so that should the necessity arise every man would be in the right place at a moment's notice.

After some victories the Czar would therefore be inclined to yield to the powers.

Fight at Kars. The Standard's correspondent at Paris says it is reported that in the fight before Kars the Turks were driven back.

A Vienna correspondent confirms the news received from Erzerum that on both the 29th and 30th of April battles were fought before Kars with strong detachments. Russian loss unknown.

Murder and Robbery. SANTA CRUZ, April 30.—Saturday, between 8 and 9 p. m., Henry DeForest, aged 32 years, a carpenter working at the powder mills, was murdered and robbed back of the old Mission place. He was shot in the right shoulder, the ball passing through the body. The shot was heard by different parties.
