DEATH OF THE CZAR! Accession of Alexander II.

BATTLE OF EUPATORIA.

Policy of the Late Emperor to be Carried out.

GENERAL NEWS.

The Steamship Goliah, Capt. W. II Fauntleroy, arrived at Gardiner on the morning of the 29th ult, having or board several passengers and about 80 tons of freight for this place, and for enerchants in the interior. She also had on board freight for Crescent City, which she was unable to land at that place, as it is almost impossible to discharge freight there at any time. After passing Creacent City the Goliah experienced stormy weather; she had no difficulty, however, in entering the Umpqua dariog the gale,

We are indebted to Capt. Fauntleroy and to purser Bonney for San Francisco papers to the 24th of April, and for New York dates to the 27th of March, from which we take the followlog late and interesting news:

The Emperor Nicholas died on the 2d of March. His death was caused by pulmonary apoplexy, after a severe attack of influenza. The event created great excitement throughout Europe. The Emperor Alexander, II., eldest

son of Nicholas, has succeeded peace-

ably to the Russian throne. The new Emperor has issued a manifesto stating that he will adhere to the policy of his father. Constantine and his other brothers and officers of the Empire have taken ouths of allegiance

to the new Emperor. Alexander has confirmed, as diplomatist at the peace conference, Gorchakoff, whose previous instructions ere also fully confirmed, and the first Conference has been held at Vienna.

Alexander has appointed Gen. Rudger Minister of War. The ailies have ordered their General to press forward the war with the uttoost vigor.

There has been more fighting in the Crimes. The French stormed a re-doubt which had been skillfully erected during the night, and several hun-dred of the Russians were killed. A large force of Russians were

threatening Balaklava.

The blockade of the Danube has been raised.

Previous to the death of the late Emperor, he had recalled General Mench-thoff, and had appointed General Gorchakoff to the command of Osten Sackon, and General Luders to the command of Bessarabia. Brecouses has been destroyed with

most of its inhabitants by an earth-

A speck of disagreement had arisen between the Emperor Napoleon and the English Government, Napoleon is said to have declared that the allied armies should not act together if Mr. Roebuck's committe proceeded with their investigations.

There are serious difficulties in portions of Switzerland.

BATTLE OF EUPATORIA .- On the 17th of February Eupatoria was attaked by 25,000 Russians, under General Osten Sacken, who, after a combat of five hours' duration, were vigorously repuls-by the Turks. The Russians lost five ndred men killed and wounded in proportion, while the Turks had 88 killed and 250 wounded. The latter lost seventy horses. Of the French who were engaged in the battle, eigh-teen were killed. Six steamers of the allied fleet were sent to Eupatoria to assist in its defence.

GREAT BRITAIN.-The Earl of Car lisle has been definitely appointed Lord Lieutenant of Ireland. With this exception, there has been no change in Ministry since the departure of the Pa-

The Duke of Newcastle has been summoned to give his evidence before the Roebuck committee of investigation Into the delay in the prosecution of the war. The investigation was being vigorougly prosecuted.

Meetings deprecating the war, were on the increase throughout the country. The Earl of Lucan publishes a con-vincing letter to Lord Raglan, exoner-ating himself from all blame in the mat-

ter of the cavalry charge at Balaklava. FRANCE.-Nothing further is known respecting the Emperor's proposed visit to the Crimea. He was, at the latest date, at the camp of St. Omar.

There were rumors of important arrests, for political causes, having been made in Paris. Persons of high dis-

tinction are implicated.

ITALY.—The Chambers have voted the supression of monasteries.

MISCELLANEOUS .- The news by the Pacific is quite interesting. The Palmerston ministry, within ten days from its formation, had fallen to pieces, the Chancellor of the Exchequer, the Home formation, and the Chief Lord of the before navigation opens.

Admiralty having resigned. The ostensible cause of their resignation was the success of Roebuck's motion for a committee to inquire into the mismanagement of the war. Charles G. C. Lewis has been appointed Chacellor of the Exchequer, Sir George Grey Home Secretary, and Sir Charles Wood Chief

Lord of the Admiralty.

It is noticeable that in the Parlia mentary explanations the members of Government express hopes-confident hopes—that the pending negotaitions will lead to an honorable peace. Nev. ertheless, none of the nations relax in their war netivity.

Lord Ragian is said to have resigned to avoid recall. The Earl of Lucan and some other officers have been invited to resign.

Joseph Hume is dead,-much re spected and regretted.

Very inclement weather had caused great suffering among the poor in Eugland, and riots had occurred at London and Liverpool. A change for the bet ter was apparent within the past few

OUR DIFFERENCES WITH SPAIN AD susrep .- We have recived authentic and entirely reliable intelligence of the dispatches from the Spanish Government by the last steamer, in which every demand made by the President upon the Spanish Government, growing out of the Black Warrior difficulty, has been accoded to. MANCHESTER, N. H., March 21. A large number of factory hands are on a strike in this city, owing to a change of the hours of labor in the mills. A procession, with music, passed through the streets last evening. The motto of the operatives is the "Ten Hours System," though they manifest a willingness to work eleven hours.

In New Hampshire the Know-Nothng State ticket was elected. The K. N. candidate for Governor had 4,000 majority over the democratic candidate.

CINCINNATI, March 24, 1855. The Democrats of this city have nominated James J. Farran for Mayor. The Convention passed resolutions de-nunciatory of the Know Nothings. All the candidates for nomination were required to give assurances that they were not Know Nothings. The contest be-tween the knownothings and the old line Democrats is getting decidedly

PHILADELPHIA, March 24. The old line Whigs who seceded from the Whig and Know-Nothing Couvention, met this afternoon, and adopted resolutions denouncing secret political organizations, and recommendng the entire separation of Whig party, from the Order which has already succeeded in corrupting political action.

James F. Babcock, editor of the Palladium, is the whig nominee for State Senator from the district of New Haven, Ct. Frederick Croswell, Esq., is the democratic nominee.

The Democratic State Convention met at Frankfort, Ky., on the 15th March, and nominated Beverly L. Clark or Governor, and Beriah Magoffin for The King of Denmark is reported Lieutenant Governor. The Convention passed resolutions strongly denouncing the knownothings.

A fire had occurred at Western, Mo., destroying two entire blocks in business part of the town.

BEANS FOR SOUP .- The use of beans as an article of food, is not so considerable as it should be. Beans are the most nutritious of all kinds of food used by man. Chemical analysis, and the experience of those who make exteusive use of them, demonstrate this. To make good bean soup, take one quart of white beans and a shank beef one and boil altogether for two hours, then add salt and pepper for seasoning. The use of bones is not so much esteemed as they should be in food. By boiling them in soup some of the phosphate of lime, which goes to form our bones, is taken ud and we thus get a supply of a necessary element for our bodies which cannot be obtained so fully from roasted or fried meat.

WEATHER .- Buffalo, March 20 .-The weather has been quite here today although a snow storm has been prevailing. The Lake is filled with ice as far as the eye can reach, and in is the opinion of the oldest marinert that it will be quite late in the reason

From Hayna. TRIAL OF THE STATE PRISONERS.

Havana, March 16 .- Since my advice ov direct steamer, the military law proceedings in the case of the State prisoners, Pinto, Cadalzo and Pineto, save assumed more favorable colors for their lives. When the proceedings and sentences were brought to the Auditor of War for confirmation, without which in conformity with law the extreme penalty cannot pass upon any person, but by the assumption of extraordinary power, such as might justify, when the State was in imminent danger by foce without and faction within, he dissented from the voice of the Judges, on account of the testimony, which was not such as the laws of the land require for such grave conviction-without stain as to moral character-but derived from a condemned man of notoriously bad reputation in Spain and Cuba. The consequence was the creation of a Court of Errors to avoid the difficulty, and if possible to shake off responsibility without being defeated in purpose. This revising Court decided that Ramon Pinto should be condemned to 14 years' prison and labor-Juan Cadalzo to 8 ears, and Nicolas Pineto to 6 years' basishment to Spain. There is no getting back from the grave, but for the rest there will be no long abscence to noure from families and friends. Mr. punished a misdemeanor. T. F. Thompson, acting Commercial Agent of the United States at Sagua la grande, has been brought here a prisoner, for having suspended in his office the arms of the United States, which, when ordered to take down, be remonstrated against, and declined, until he could hear from Mr. McLean, Consul of the United States at Trinklad, He was brought here on the 14th, being treated with the same dignity as if he had been the vilest culprit in the land except the cords, which were not put upon his arms, because he paid his conductors tor the privilege of having them free. General Concha released him from the charge of the soldiers, upon his word to remain in the city until called for trial.

"Old Jo will probably manage to fall off his horse again, as he did two years ago, when he tumbled from his pony against a tree, burt his shoulder, and put his arm in a sling and pretended that he had been "shot!"—Dryer, at the Corvallis Convention.

When the Rogue River war broke out, Gen. Lane, at a moment's warning, hurried to the scene of action, and was foremost and in the thickest fight. In the savage engagement in which ol. Alden fell, as was supposed, mortally wounded, Gen. Lane received a rifle ball in his right arm, the same that was wounded in Mexico in the act of maintaining his country's bonor and his country's flag. And at the knownothing whig convention which nomi-nated Gaines to oppose him, the above cowardly, base, and low-flung falsebood was received with applause !-What think of this, citizens of the Rogue River valley, whose hearths and homes Gen. Lane volunteered to defend against savage fury ! What think the stordy men who went with Geo, Lane to battle, and who heard him cheering on his men regardless of his bleeding wound? Will you-a single man of you-endorse this cowerdly lusinustion; and vote for Guines, the nominee of men who cheer such baseness? What think the hardy pioneers and the people of Oregon! Is there not a universal feeling of disgust, and of pity and contempt for the craven wretch who could utter it, and for scarcely less base who could cheer !-- Statesman.

Powell, for ten years a letter carrier, was arrested on suspicion and held to bail in \$2,000 for further examination. the grounds of suspicion are very light.

WASHINGTON, March 26 .- The Star says in relation to the the deafaleation of Gov. Price, that the balance of \$100,000 has been in dispute since Price resigned the pursership of the California station. Price alleges the money was paid over to Van Ostrand, his successor, and took receipts therefor. Van Ostrand, hower, al-leges that the receipts were given with-

out a consideration. . We understand that a new paper has been started at Oregon City. It is called the "Oregon Argus." We have not been favored with a copy.

Every parion being interested in the amended ac of the 3d of March, 1855, in regard to postages, a synopsis of its provisions will not be unneceptable:
