Workmen in Russian Capital Responding to Call.

GENERAL STRIKE ON

SIGNS POINT TO A DICTATORSHIP

Grand Duke Nicholas to Lead Fight on Reds - Disturbances and Mutinien Continue.

St. Petersburg, Aug. 4 .- St. Petersburg is in darkness tonight. The employes of the electric lighting plants, always the earliest barometric record of political conditions, ceased work during the afternoon in obedience to the call for a general strike. This call already has been obeyed by 20,000 factory hands in the capital. It will be impossible, however, to predict the success of this universal political strike until Monday, as the workmen in St. Petersburg and the provinces have two holidays-Saturday, which is the fete day of the dowager empress and a great religious feast, and their regular holiday of Sunday. The pickets of cavalry and infantry

were the most conspicuous features on the streets of St. Petersburg last night. Business houses generally have boarded up their windows as they did in the days of the great October strike. Practically all of the street cars in the city have stopped running, and the cab drivers are threatening to cease work.

In the meantime the fate of the Stolypin cabinet sways in the balance and Russia is upon the verge of disorders which may lead to the reign of either the military or the proletariat. It can be stated definitely that the steps toward a dictatorship may be taken Sunday or Monday by the nomination of Grand Duke Nicholas to the chief command of all the troops in Russia. This would virtually place him in control of all the disturbed districts of the empire where martial law has been proclaimed.

Artillery in Open Revolt.

Warsaw, Poland, Aug. 4 .- A portion of the troops in the Summer Rembertoff, near here, mutinied yesterday and are in open revolt today. The artil-lerymen have driven their officers out of their quarters. A squadron of Cossacks sent to overpower the mutineers was received with grapeshot. Details are lacking, as extraordinary precautions are being taken to prevent the facts becoming public.

Rebels Fire Big Woodyards.

Harkov, Aug. 4-Fire broke out in several large woodyards in the vicinity of the prison today. This evidently was a device on the part of revolution-ists, who hoped to free political leaders

New Mutinies Break Out as Fast as Others Are Suppressed.

St. Peteraburg, Aug. 3 .- Nearly 3,-000 sappers, sailors, pioneers and miners at Cronstadt mutinied about 11 o'clock last night. St. Petersburg, Aug. 3 .- The crew of the Russian cruiser Asia, which was cent to Abo, has hoisted the red flag. The vessel has left in the direction of Sveaborg.

St. Petersburg, Aug. 3 .- On the heels of the other bad news comes the startling statement that the emperor has flatly refused to accept the conditions to which Premier Stolypin aggreed in his negotiations with Count Heydon, Alexander Guchkoff, Prince Nicholas Lvoff, Paul Vinogradoff and Senator Koni for the reorganization of the cabinet.

There is an increasing apprehension that the emperor purposes to take the final step of turning the country over to the military dictatorship of Grand Dake Nicholas.

FOR EQUITABLE TAX.

of Present Law.

Salem-With a view to securing more equitable assessment of property in this state, the Oregon Tax commission has recommended a revision of the law governing the equalization of assessments by the county board. In this connection, the commission gives its flat disapproval to the plan often agitated of having the assessment rolls published in the newspapers in the ocality in which the property assessed is located.

The proposed revision of the law relating to equalization of the assess ment is largely based upon inconsistencies in the present law, but also upon a laxity in the law by which wealthy property owners have been able to coerce county ourts into allowing an inequitable assessment to stand. The commission proposes a law which seems to have "teeth in it," and which will be effective if county officers are disposed to do their duty.

The inconsistency in the present law lies in the fact that the county board property that is exempt. In some and of equalization is required to meet on the last Monday in August, while the assessor is given until the first Monday in September to file his roll, or until the first Monday in October if the county court makes an order to that effect. At the same time there is no authority of law for an extension of the time of meeting of the county board of equalization.

Assessors usually take the full time to prepare their rolls, and very frequently ask for and are granted the extension of time. Commenting upon this condition of the laws, the commis-St. Petersburg, Aug. 3 .- Although sion says that "the board of equalizathe mutinies at Sveaborg have been tion is thus required to meet perhaps others are being arranged. The county board of equalization continues in session one week, and if it does not complete its work within the week, the county court, at its next regular session, completes the examination and correction of the roll.

be exporting rice." The publication of these reports has caused a controversy. The local shippers contend that the decrease of importations is a result of the poverty of the people, who, it is alleged, are not buying rice, but are living on yams and other food. The shippers declare that the Philippines will never export rice.
