Machinery of Law At Work Against Men Who Ruled Land Office To Rob Nation.

Salt Lake, Nov. 29 .- The grip of the government and of justice is tightening it is alleged, have for years, with the connivance of the Land department, by robbed the public domain of coal, mineral and timber land valued at many shown, it is said, that by means of millions of dollars. In the end, it is stated, every member of these gangs, whether he be a plain citizen of the United States or occupies high official position, will be made to answer in the criminal courts for his complicity in is alleged that both of these coal comthe most gigantic frauds said ever to have been perpetrated on the United States government.

Every agency of the government, including the Interstate Commerce commission, the secret service, the Federal grand jury and the court of equity, has been set in motion to accomplish the end desired. While the Interstate Commerce commission is taking testimony here tending to show that the Stolypin Starts Vigorous Inquiry Into Rio Grande railroad and its allied companies, the Utah Fuel company and the Pleasant Valley Coal company, have been securing by fraudulent means all of the coal land in the state of Utah and consequently building up their monopoly in this line, the Federal grand jury here is awaiting the outcome of the hearing with a view to gathering all of the guilty ones into its net.

The peculations of which the government complains have been perpetrated in Wyoming, Utah, Colorado, Montana, New Mexico, Calfiornia, Oregon and possibly in other states. The robberies of the public domain have been almost as extensive, it is charged, in timber land as in mineral land.

That such enormous frauds, extending through a long period of years, could not have been perpetrated without the complicity of the Land department is said to be a patent fact.

During the hearing here yesterday a glimpse of the real power behind the throne was given when it was stated by government land agents that they had been compelled to see Senator Francis E. Warren regarding official business of the Land department. Senator Warren is charged with having ruled the land office for a number of years. It was his influence and that of Senator Clark which secured the appointment, during President McKinley's administration, of Willis Vandevanter to be assistant attorney general for the Inter- Fragments of Gospel and Many Other ior department. Vandevanter was the legal conscience of the Land department. and Vandevanter had been attorney for the companies charged with stealing the land. It was Warren who made Congressman Frank W. Modell commissioner, and who succeeded him by present Commissioner Richards. It is Warren, it is claimed, who still controls the land offices from Nebraska and the Dakotas to California and Alaska.
