

## Meetings at Madras.

Jack Patterson, a Prineville painter, was in town yesterday.

Mrs. W. H. Hess is visiting relatives at Pendleton, having left for that place the first of the week.

Max Wilson arrived from Prineville yesterday and is engaged in painting the new Pioneer office.

Mrs. Lina B. Wood returned yesterday morning from Portland, after an absence of several months.

The D. I. & P. Co. will carry water across the old river bed in an inverted siphon, for the purpose of irrigating that portion of its segregation which lies around Pinell Bures. The stave pipe for the siphon was purchased from an Olympia company at a cost of \$79,209. It will be 1612 feet long.

Mr. and Mrs. Amos Root, who have been visiting at the home of W. H. Miller near Opal Springs, left Monday for their home at Kalispell, Montana. They were greatly pleased with this section and believe that it has a great future ahead of it, when fully developed. Mr. Root contemplates making some investments here. Mr. and Mrs. Root are old-time friends of the family of Mr. Miller, having lived for 15 years as neighbors in Nebraska, and their visit here was a pleasant reunion for all of them.

### FARMERS SIGN PRICE AGREEMENT

#### EDITOR PIONEER:

A meeting of the citizens of Agency Plains was held at the schoolhouse on the 16th inst., and after a discussion of the different markets and the wheat values of each they concluded that they would be governed by the price being paid for grain of all kinds at Shaniko and Prineville at the time they wished to sell. They thought they could sell sufficient at these points to pay off their creditors and buy their supplies for Winter, and if they had any left they would hold it until their supplies needed replenishing.

They drew up an obligation binding everyone who signed it not to sell any wheat, barley or oats to any person for a less price than is being paid for the same kind of grain at Shaniko or Prineville at the time of sale.

There was no talk of any pool or any combination in restraint of trade, or any fixed price, or any effort to force values in any way. All they asked for was the best prices being paid in the markets mentioned for their grain. The meeting was attended by twenty-five farmers and every man present signed the obligation, and quite a number have signed it since.

Opinions differ as to whether there is a surplus of wheat in this county or not, and it really makes no difference if there is, in fact, the more the better, as we know that there is an outlet for any surplus we may have at Shaniko.

This is not intended as an answer to an article that appeared in your issue of last week, but is to fully inform you as near as I can, of the proceedings held at the meeting.

CITIZEN.
