MOVE CROP IN 60 DAYS

Officials of the Harriman lines in Oregon announce that at the present rate of hauling it to Portland, all of the immense wheat crop of the interior tapped by Harriman lines will be delivered at Portland by those lines in 60 days. Recently General Manager O'Brien promised to shippers at Portland that he would immediately put in service 1000 cars, in hauling the wheat of the Inland Empire to Portland, and not only was the promise kept, but about 1200 cars are engaged in this service, and will be kept there until the entire crop is moved. It is said that from 125 to 150 cars are being hauled into Portland daily over the O. R. & N. The magnitude of the job of moving the wheat crop of the Northwest to tide-water may be better understood when it is remembered that the Pacific Northwest this year produced 60,000,000 bushels of wheat. The O. R. & N. Co. and its tributaries handle a good proportion of this crop.
