WILL PROSPECT FOR OIL

Leases of Lands Being Made in Culver and Opal Prairie Districts by Company

Region That Has Long Been Known to Show Indications of Oil To Be Thoroughly Prospected

Plans have been made to begin at an early date prospecting for oil in this vicinity, and the numerous indications of oil which have been found in this district will be thoroughly prospected in order to determine whether or not oil exists here in paying quantities. These plans have been perfected, and it is stated that there is sufficient capital behind the enterprise to insure a thorough investigation of the various prospects, and actual drilling will begin just as soon as sufficient leases have been secured upon the land in the immediate vicinity of the points where the first wells will be sunk. Mr. Frank Forrest, a prominent stockman of this county, is now engaged in securing these leases, which it is reported are being very generally signed without any opposition.

It has been known for several years past that good oil prospects had been discovered in this section of Crook County, and several years ago an option was taken on the Dave Barnett ranch with a view to making a thorough investigation of a prospect found on his place, but this plan never materialized, and up until this time there has not been an effort made to follow up and test any of these prospects. These indications of oil have been found in a territory of considerable scope, covering practically all of this end of western Crook County.

It is the plan of the present prospectors to sink several deep wells, preparations having been made to go to a depth of a thousand to fifteen hundred feet. The leases under which the prospecting provisions for the land owner, whose Subject to the approval of the voters Among other provisions in the lease is of Crook and Wasco counties, I and one that if no oil is found in paying becomes the property of the land owner without any cost to him except the actual cost of the casing. If, however, artesian water is found and no oil, the land owner agrees to purchase the same at the customary price of a well drilled to a depth of 600 feet, irrespective of whether the well has been drilled to a depth of 1000 or 2000 feet. And, any rancher in this district can afford to pay the price of a 600-foot drilled well to the event oil is found in paying quantities, the lease provides for a royalty of ten per cent to the land owner, so that interests taken care of and cannot but be benefited by the work done on his place. The leases also provide for an option on the land, at a price fixed by

JOHN H. HALL IS FOUND CUILTY

Convicted of Conspiracy in Illegal Fencing of Public Lands

John H. Hall, ex-United States Attorney for Oregon, was found guilty of conspiracy against the Government in WILL DRILL 1000 FEET OR MORE the Federal court at Portland, that verdict having been returned by the jury last Saturday morning. Hall was indicted jointly with W. W. Steiwer, H. H. Hendricks, C. B. Zachary and others in connection with the unlawful fencing of Government land in Wheeler county, Hall's connection with the case arising out of the protection he is alleged to have given the other members of the conspiracy while he was U. S. Attorney, in return for political favors bestowed upon him. He demanded a separate trial on the charges, which has just ended in his conviction.

> The extreme penalty for conspiracy is a fine of \$10,000 and imprisonment for two years. Hall has not yet been sentenced, but he has been given until April 1 to file his motion for a new trial.

> In connection with the close of the Hall case, it is announced that the remaining land fraud cases, 22 in all, will be taken up at the April term of the Federal court. Mr. Heney, who has successfully prosecated the land fraud cases, including that against Hall just ended, may not return to prosecute all of these cases, but it is stated that he will conduct the prosecution of the Binger Herman case, and that against ex-Congressman J. N. Williamson.
