THE NEW CHINATOWN.
 Oriental Quarter Arises on the Old Site in San Francisco.

San Francisco's new Chinatown, which has arisen on the ruins of the old is ready for occupancy and is rapidly filling up with merchants and tradesmen who were scattered to the four winds by the terrible earthquake and fire of a year and a half ago. All movements looking toward the transfer of the Chinese to a less desirable part of the city failed utterly, and the new Chinatown has risen on the site of the old, under the shadow of Nob Hill and touching shoulders with the financial district. In the first flush of hope after the catastrophe several plans were evolved for moving Chinatown out toward Telegraph Hill or to some suitable part of the Mission district. The site of old Chinatown was needed for the expansion of the financial district. One thing stood in the way of this part of the "city beautiful" dream. Chinese firms and wealthy Mongolian individuals owned much of the property in Chinatown. They were satisfied with the site of their quarter. It was near the big hotels patronized by eastern tourists, and it was not too far from the water front whence their goods came. The Chinese refused to sell and straightway set about rebuilding.

There is a reason why Chinatown was rebuilt before the other parts of the burned area, even before Market street had been repaved. The Chinese property owners had no trouble in getting ready cash. They did not try to borrow from San Francisco banks or even from New York money lenders. The first steamer to China carried long letters describing the situation. Inclosed were drafts on the treasurer of the company which backed the San Francisco firms. The return steamer brought the gold that was needed and the Chinese could tell their contractors to go ahead.

The building department and the health authorities insisted that the new Chinatown be built according to law and the new Chinatown has, of course, lost such picturesque features as were found in the dirt and the squalor and the tumbledown effect of the old buildings. To offset this, however, there will be a heavy gain in healthfulness.

POLITICS and POLITICIANS

Jackson Day at Chicago was a different affair from that of the New York gathering. There the banquet given by the Jefferson Club was the scene of a Bryan love feast, in which 600 Democrats cheered riotously the words of the Nebraskan.

Viscount Aoki, the retiring Japanese ambassador, in an interview at San Francisco, declared in positive terms that there could be no such thing at present as war between this country and Japan. He said the questions at issue were not such as would cause war and that all the high officials of Japan were convinced of the good faith and friendship of this country.

The Ohio Republican State Central Committee at its recent meeting decided to give the members of the party an opportunity to express by direct vote their choice for a presidential candidate on March 11, when delegates to the Republican State convention will be selected. Senator Forsaker has issued a statement declaring that he will not abide by this action of the committee.

The first open declaration of the conservative Democrats of the East who are known to be unfriendly to the candidacy of William J. Bryan took shape at the Jackson Day dinner of the National Democratic Club at New York. Ex-President Cleveland sent a letter of regret, in which, after expressing his interest in the success of the party, he said: "Our country needs conservatism, recuperation from nervous prostration, re-instatement of constitutional observance, buoyant, but none the less safe and prudent, Americanism; the scrupulous care of every person and every interest entitled to care, and a 'square deal' that means exact and honest justice before the law and under constitutional guarantee."

After his return home from Washington Mayor Dahlman of Omaha gave to the press a corrected statement of his much-discussed interview with President Roosevelt. According to this the President said: "Tell the boys out West that this financial panic is being placed on my shoulders by reason of the position I have taken. If this is true, it shows that we are on a rotten foundation, and it only came a few months sooner than it would have done otherwise, and it shows we needed a housecleaning. You can tell them also that I don't care what ex-judges or judges or ex-Governors or Governors say about it." Mayor Dahlman says that as this was spoken in the presence of eight or ten other persons as a message to the West, he felt free to give it out.

Secretary Taft, who will soon begin the preparation of an extended report on his observations in the Philippines, in a recent interview expressed himself as highly pleased with the progress already made in the islands. Peace, he says, prevails throughout the Philippines to a greater extent than ever before in their history, and agriculture is proceeding without fear from predatory bands. He finds the natives receptive to education and to modern western conceptions of religion and politics, and says there is no difference between the educated and the ignorant Filipino that cannot be overcome by the education of one generation. The Secretary thinks the people should not be intrusted with self-government until their primary and industrial education is complete, and this may require more than a generation owing to a lack of funds for educational purposes.

 "Well, what are you doing there?" asked the lady, addressing a tramp who had just climbed a tree in time to escape a savage bulldog.

OLD SORES FED AND KEPT OPEN BY IMPURITIES IN THE BLOOD

Whenever a sore refuses to heal it is because the blood is not pure and healthy, as it should be, but is infected with poisonous germs or some old blood taint which has corrupted and polluted the circulation. Those most usually afflicted with old sores are persons who have reached or passed middle life. The vitality of the blood and strength of the system have naturally begun to decline, and the poisonous germs which have accumulated because of a sluggish and inactive condition of the system, or some hereditary taint which has hitherto been held in check, now force an outlet on the face, arms, legs or other part of the body. The place grows red and angry, festers and eats into the surrounding tissue until it becomes a chronic and stubborn ulcer, fed and kept open by the impurities with which the blood is saturated. Nothing is more trying and disagreeable than a stubborn, non-healing sore. The very fact that it resists ordinary remedies and treatments is good reason for suspicion; the same germ-producing cancerous ulcers is back of every old sore, and especially is this true if the trouble is an inherited one. Washes, salves, nor indeed anything else, applied directly to the sore, can do any permanent good; neither will removing the sore with caustic plasters or the surgeon's knife make a lasting cure. If every particle of the diseased flesh were taken away another sore would come, because the trouble is in the blood, and the **BLOOD CANNOT BE CUT AWAY.** The cure must come by a thorough cleansing of the blood. In S. S. S. will be found a remedy for sores and ulcers of every kind. It is an unequalled blood purifier—one that goes directly into the circulation and promptly cleanses it of all poisons and taints. It gets down to the very bottom of the trouble and forces out every trace of impurity and makes a complete and lasting cure. S. S. S. changes the quality of the blood so that instead of feeding the diseased parts with impurities, it nourishes the irritated, inflamed flesh with healthy blood.

I was afflicted with a sore on my face of four years' standing. It was a small pimple at first but it gradually grew larger and worse in every way until I became alarmed about it and consulted several physicians. They all treated me but the sore continued to grow worse. I saw S. S. S. advertised and commanded its use and after taking it a while I was completely cured. My blood is now pure and healthy from the effect of S. S. S., and there has not been any sign of the sore since S. S. S. cured it.
