# THE DOLMAN.

Garment Worn by Hussars in Early Turkish Wars:

"What is the meaning," asks a correspondent, "of the garment called, I believe, a dolman-a sleeved tunic hung from the left shoulder-worn by the king of Spain at the Bourbon wedding? The bridegroom, too, I notice, was similarly overdressed." The immediate meaning of it was that the two personages mentioned were wearing the most spledid clothes they could find in their wardrobes. It signified in the second place that both of them were officers of hussars, to whom the dolman is peculiar. Regarded as a historic relic, the dolman means even more important things. In a sense it means the salvation of Christendom from the hordes of Islam.

For hussars were invented by Mat-

matter of light horse, and hussars have come to be copied all over Europe without any thought of the meaning of the name, Great Britain, never quick to innovate, changed two light dragoon regiments to hussars only a hundred years ago and has since added eleven hussar regiments to these. Along with the name the distinctive details of the busby and dolman have been copied too.

The dolman tells plainly of the Turkish war of the fifteenth century. The Hungarian troops had borrowed from their hostile neighbors the idea of the "dolama"-the word is Turkish-a sleeved robe worn over the other garments, probably for warmth. Whether kiss 295 seconds in duration is a great, it was Turk or Magyar who conceived the idea of casting it loose and going into action with it flying picturesquely

on the breeze we do not know. The hussar's busby, too, is Hungarian, the bag depending from the

crown being a rudimentary form of a long stuffed bag that hung from the Magyar's busby to save his head and neck from sword cuts .-- London Dally

Drivers, although anxlous to protect borses from injury by out through the roof." | falling, have been unable to procure a practical and satisfactory overshoe, Those made of rubber prevent the

# SKIN DISEASES **HUMORS IN THE BLOOD**

When the blood is pure, fresh and healthy, the skin will be soft, smooth and free from blemishes, but when some acid humor takes root in the circulation its presence is manifested by a skin eruption or disease. These humors get into the blood, generally because of an inactive or sluggish condition of the members of the body whose duty it is to collect and carry off the waste and refuse matter of the system. This unhealthy matter is left to sour and ferment and soon the circulation becomes charged with the acid poison. The blood begins to throw off the humors and acids through the pores and glands of the skin, producing Eczema, Acne, Tetter, Psoriasis, Salt Rheum and skin eruptions of various kinds. Eczema appears, usually with a slight redness of the skin followed by pustules from which there flows a sticky fluid that dries and forms a crust, and the itching is intense. It is generally on the back, breast, face, arms and legs, though other parts of the body may be affected. In Tetter the skin dries, cracks and bleeds; the acid in the blood dries up the natural oils of the skin, which are intended to keep it soft and pliant, causing a dry, feverish condicion and giving it a hard, leathery appearance. Acne makes its appearance on the face in the

For hussars were invented by Mat-thias Corvinus, king of Hungary, one of the great opponents of the Turk in his long struggle to break into Europe. Matthias raised a special force of light eavalry by enrolling one man out of every twenty in the villages of Hun-gary and "hiszar" means in Magyar "twentleth." The world has always looked to Aus-tria and Hungary for example in the tria and Hungary for example in the form of pimples and black heads, while treatment for all skin diseases is S. S. S. It neutralizes the acids and removes the humors so that the skin instead of being irritated and diseased, is nourished by a supply of fresh, healthy blood. External applications of salves, washes, lotions, etc., while they soothe the itching caused by skin affections, can never cure the trouble

because they do not reach the blood. S.S.S. goes down into the circulation and forces out every particle of foreign matter and restores the blood to its normal, pure condition, thereby permanently curing every form of skin affection. Book on Skin Diseases and any medical advice desired sent free to all who write. S. S. S. is for sale at all first class drug stores.

Thought He Knew Him.

A laborer was engaged in the grounds of an asylum and received instructions to pay no attention whatever to the remarks of the patients.

Some little time after he commenced work the governor of the asylum, a well-known doctor, looking at the progon and never lifted his head.

The doctor raised his voice, but the man, without answering, went on digging energetically. The doctor threatened, stormed, and finally thundered out:

"Do you know who I am?"

The laborer straightened his back, ooked at him a minute, and, shaking his head, sorrowfully exclaimed :

"Poor chap! I am sorry for ye," and went on calmly with his work .- Lonion Express.

Boy's Idea of Baby.
