

We Trust Doctors

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

You must look well after the condition of your liver and bowels. Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, flatulency, and other ailments. Ayer's Sarsaparilla, by doing its best work, keeps the bowels in regular motion, and thus prevents the absorption of these poisonous products. It is the only one that does its work.

Entirely Superb. "A word to the wise is sufficient," remarked the man with the quotation habit. "Wrong again," rejoined the contrary person. "A word to the wise is unnecessary."

In the Long Ago. Cardinal Wolsey had fallen. "I was trying to dodge an automobile," he explained, "and a roller skater ran into me." The historians, however, with singular obtuseness, have persisted in placing the blame on Henry VIII.—Chicago Tribune.

When Mrs. Carrie she became she didn't quite forget; she took her low, sweet voice along, and he said it even yet. But if hubby's just a little slow to answer to her call she can jar him with a voice that cracks the paper on the wall.—Chicago Tribune.

Closing the Incident. The famous ball player was looking through the sporting columns of the newspapers. "I see they've quit mentioning me," he said. "I may as well sign." Upon doing which he secured one more mention in the newspapers.

Circumstantial Evidence.

Sir A. Conan Doyle, at the Authors' Club Christmas dinner in London, related that in America some colored people were keeping the festival of Christmas and they were told to hang up their stockings at night. One poor fellow had no stockings, and so he hung up his trousers. In the morning he was asked what he had got. He replied: "I guess I got a man, for my pants are gone."

Use for Old Tin.

Old tin is put to a variety of uses. For instance cheap trunks are covered with tin from discarded tin cans and other utensils, the tin having been first cut to desired size and straightened and smoothed out. There are also concerns in different parts of the country which make a business of removing the tin coating from old tin cans and scrap tin.

Woman Railway Workers.

In the South of France one may see, at the little wayside stations, women attending to the signals of the half dozen daily trains; while the companies regularly economize at the level crossings by employing female labor. The husband can be seen at work at his vines upon the hillside, while the wife waves the green flag and keeps the children quiet.—Detroit News-Tribune.

General Debility

Day in and day out there is that feeling of weakness that makes a burden of itself. Food does not strengthen. Sleep does not refresh. It is hard to do, hard to bear, what should be easy,—vitality is on the ebb, and the whole system suffers. For this condition take

A HAPPY DRUMMER.

He Won the Applause of the Eccentric Hans von Bulow.
 Hans von Bulow, the famous leader and composer, was one of the most eccentric members of a profession where eccentricity is common. It is related that one day, while walking the streets of Vienna, Bulow came upon a regimental band on its way to the castle. Immediately he ran to the middle of the street and joined the small boys about the drummer. Following the band, he kept bowing to the surprised drummer, applauding him at almost every beat.

"That is rhythm! Excellent! That's the way I like to hear it!" he continued to ejaculate, to the surprise of all and to the great delight of the small boys.

Persons in the street began to recognize the famous pianist and joined the procession, so that the band had one of the largest audiences to which it had ever played.

Bulow listened attentively to the end of the last piece and then made a deep bow before the drummer and his instrument.

"Thank you," he said. "That was refreshing!" That puts my nerves in good condition again!"

It is said that when the drummer learned who his strange admirer was he was the proudest man in the regiment.—St. Louis Republic.

PLEA FOR THE IMMIGRANT.

Noted Social Worker Says America Should Be Less Indifferent.

Miss Jane Addams, the noted social worker of Chicago, has been in the east delivering addresses in which she makes a plea for the immigrant. She dwells upon the loss that America is suffering by indifference to the real value of the foreign population and its

proper assimilation into the citizenship of this country. In particular, she describes the lack of a native American art to our failure to absorb our immigrants thoroughly into our body politic.

"Twenty-five years of personal contact with our foreign colonies and of granting to them the proper facilities to make of them American citizens as we are American citizens would bring results to amaze and surprise us," she says. "Are we not indeed foolish in refusing to realize it?"

TESTING HIS TONGUE.

The Unhappy Experience of a Young Married Woman.

A young married woman in Brooklyn suspected that her husband was indulging in wine. She determined, however, to say nothing till she had confirmed her suspicions. In conversation with her bosom friend she said she would give anything to discover the truth. The friend mentioned that a man even slightly intoxicated cannot pronounce words of length. This gave the young wife an idea, which she proceeded to put into execution.

When the young women met again, the suspicious wife announced that the worst had been ascertained. She burst into tears and took from her hand bag a paper, which she handed to her friend.

"I gave him this," she sobbed. The friend read from the list the following words: "Phylloproctiveness, disproportionableness, pseudosthesia, phthisis, parochronism, hypochondriasis, photochromy, syncategorematic."
 "And," added the unhappy wife, with a fresh sob, "the wretch missed nearly all of them!"—New York Tribune.

Heat of the Sun.

It has been computed that the temperature of the surface of the sun would be expressed by 18,000 degrees of Fahrenheit's thermometer, or between eighty and ninety times the temperature of boiling water. This is about five times the highest temperature that man is able to produce by artificial means. The light given off from the surface of the sun is reckoned as being 5,300 times more intense than that of the molten metal in a Bessemer converter, though that is of an almost blinding brilliancy. If we compare it with oxyhydrogen flame, the sun sheds a light equal to 146 times the intensity of the Hmelight.

Uncle Allen.

"Some men," muttered Uncle Allen Sparks after the tiresome speaker had sat down, "remind me of an old water mill that's running with empty hoppers. Their wheels keep on going, but they don't turn out any grist."

For the Housewife.

Some active women who pride themselves in housekeeping seem to forget that the object of keeping house is that human beings may be accommodated in it. Their sole idea seems to be that the house may be kept in a certain form and order; and to the performance of the form and order they sacrifice the comfort the house was established to secure.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Aiming and Hitting.

Mr. Kidder—I think a woman's club, to be successful, should aim at something far removed from female suffrage.

Catarrh.

CONGRESSMAN MEEKISON RECOMMENDS PER-UNA

"I have used several bottles of Peruna and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison.

OTHER REMARKABLE CURES

Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty seven years, and after taking twelve bottles of your Peruna I am cured." Mr. C. N. Peterson, 132 South Main St., Council Bluffs, Iowa, writes: "I cannot tell you how much good Peruna has done me. Constant confinement in my store began to tell on my health, and I felt that I was gradually breaking down. I tried several remedies, but obtained no permanent relief until I took Peruna. I felt better immediately, and five bottles restored me to complete health."

A SINCERE RECOMMENDATION.

Mr. D. C. Prosser, Bravo, Allegan Co., Mich., writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had a run of typhoid fever, was very depleted. I could find nothing I could eat without causing distress and sour stomach. Finally I came to the conclusion that I had catarrh of the stomach, and seeing Peruna advertised, began to take it. It helped me soon, and after taking three or four bottles I was entirely cured of stomach trouble, and can now eat anything."

S.S.S. FOR BAD BLOOD

The most important part of the human system is the blood. Every muscle, nerve, tissue, bone and sinew is dependent on this vital fluid for nourishment and strength necessary to maintain them in health and enable each to perform the different duties nature requires. Even the heart, the very "engine" of life, receives its vigor and motive power from the blood. Since so much is dependent on this vital fluid it can very readily be seen how necessary it is to have it pure and uncontaminated if we would enjoy the blessing of good health. Bad blood is responsible for most of the ailments of mankind; when from any cause it becomes infected with impurities, humors or poisons, disease in some form is sure to follow. Muddy, sallow complexions, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores or ulcers, which break out on the flesh, often from a very insignificant bruise or even scratch or abrasion. If the blood was pure and healthy the place would heal at once, but being loaded with impurities, which are discharged into the wound, irritation and inflammation are set up and the sore continues. Bad blood is also responsible for Anaemia, Boils, Malaria, etc.; the weak, polluted circulation cannot furnish the nourishment and strength required to sustain the body, and a general run-down condition of health results. S. S. S. is nature's blood purifier and tonic; made entirely of healing, cleansing roots and herbs.

Your S. S. S., in my opinion, is as good a medicine as can be had; it simply cannot be improved upon as a remedy to purify and enrich the blood and to invigorate and tone up the system. This spring my blood was bad and I was run down in health, and having seen your medicine highly advertised I commenced its use. Today my blood is in fine condition and my general health is of the best. Am filling position as fireman for a large concern here, and if I was not in good physical condition it would be impossible for me to fill the place. Your S. S. S. has been of great service to me and I do not hesitate to give it the credit it deserves.
 WM. F. VANDYKE.
 815 Fifth Street, Beaver Falls, Penn.

It goes down into the circulation and removes every particle of impurity, humor or poison that may be there, restores lost vitality, and steadily tones up the entire system. It adds to the blood the healthful properties it is in need of, and in every way assists in the cure of disease. S. S. S. neutralizes any excess of acid in the blood, making it fresh and pure, and permanently cures Eczema, Acne, Tetter, and all other skin diseases and eruptions. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Malaria, and all other diseases or disorders arising from bad blood. Book on the blood and any medical advice desired free to all who write
