# KANSAS CITY FLOOD

## Under Water.

### EIGHT RAILROADS ARE TIED UP

### Convention Hall Now Shelters 15,000 Homeless People-Worst Believed to be Over.

Kansas City, June 11 .- All calculations of the weather bureau and river experts as to the duration and extent of the flood at the junction of the which put an end tot he recrimina-Kaw and Missouri rivers were upset yesterday by the continued rise of the Missouri river, due to heavy rains in Dakota and Nebraska. At 5 P. M. the Missouri river was 27.2 feet above

low water, a rise of .2 since noon. The Kaw has overflowed most of the railroad yards, the stockyards and the residence and manufacturing district of Armourdale. Ten feet of wa-ter is running through Kansas avenue, the main street of Armourdale. The flood is the highest since that

of 1903, but the water is more than seven feet lower than in that year. Eight lines out of Kansas City are

now tied up. Convention Hall has been opened

to shelter refugees. At least 15,000 persons have been driven from their homes.

The overflow is bound to cause trouble east of here as far as St. Louis, it is predicted, as it reaches into the Mississippi and north along the banks of the Missouri as far as Omaha.

### Mines and Smelter Closed.

Butte, Mont., June 11 .- A dispatch to the Miner from Great Falls states that the electrolytic smelter of the Boston & Montana, one of the Amalgamated Copper Company's mines, will be closed down for two months, during which time the Boston & Montana mines in Butte will remain closed unless arrangements can be made to handle the ore of the company at Five thousand men are Anaconda. affected by the shut-down.

The road between Great Falls and Helena, it is said, will not be repaired within two months. The only method of travel out of Great Falls at the present time is by stage.

### Great Northern is Clear.

Spokane, Wash., June 11 .- Great Northern officials announced yesterday that the whole main line is clear and ready for traffic between St. Paul and Seattle. The Montana Central ern Pacific west of Missoula, and that city cannot be reached from the west before tomorrow at best.

**GOVERNMENT AFTER REBATERS** 

### NO NEW TREATIES.

Announced in Connection With King Edward's Visit to Russia.

London, June 10 .- Foreign Secre-Entire Lower Section of City Is tary Grey's announcement in the house of commons that no negotiations for new treaties would be initiated during the king's visit put an end to talk of a probable triple alli-

ance between France, Russia and Great Britain, but it did not affect the hope of those Englishmen who are desirous for closer relations between these three powers that important diplomatic consequences will result from the meeting in Russia yesterday of King Edward and Emperor Nicholas and their respective foreign advisers.

No secret is made of the fact that the presence of Sir Charles Hardinge and M. Oswolsky at Reval is for the purpose of discussing questions that have arisen out of the convention tions between Russia and Great Britain over Persia and Tibet and Afghanistan, more particularly the present unsatisfactory state of affairs n Persia.

The good effects of this agreement already have been shown in the speedy ending of the threatening frontier war on the Indian border, a situation which in the old days of suspicion and enmity between Great Britain and Russia might have led to an Afghan war.

Following so soon upon the visit to England of President Fallieres of France it is hard to disabuse the public mind of the feeling that King Edward's trip to Reval has also some relation to European affairs and as an actual alliance is considered impossible at present, serious thought is beng given the suggestion that this exchange of visits signifies that Great Britain's policy in Europe in the future will follow closely that of the dual alliance between France and Russia. The foreign office says that too much significance must not be attached to this visit, but this is the usual official policy during such nego tiations.

ST. PAUL NOT BADLY HURT.

### Little Damage Done to Roadbed bs Montana Floods.

Butte, Mont., June 10 .- R. A. Harlow, vice-president in Montana of the St. Paul, said little damage was done to the Montana roadbed, but that he believed considerable damage was done east of Saratoff and that it will be four days before traffic is re-sumed. Northern Pacific officials have no idea when they will resume service westward and there is 'no change in the Great Northern.

The Northern Pacific tracks east of Butte are open, though the railroad company is still having considerable trouble with rock slides in the mountains near the continental divide. A number of stalled trains of the east branch is still tied up. Further number of stalled trains of the east washouts have occurred on the North-arrived yesterday and departed south over the Oregon Short Line bound for the coast via the Oregon Railway

### PREPARING FOR FAIR.

#### More Space Will be Provided for Big Vat Erected for Use by Umatilla Counties This Year. Cayuses.

Salem .- At a meeting of the buildig committee of the state fair board the contract was let for enlargement of the grandstand at the fair grounds so that it will accommodate an attendance of 6,000 people. McFarlane, Denison & McLaren, Salem contractors, were awarded the contract for \$3,900.

the grounds. The organization of the Portland Country club and Livestock association has been a great factor in bringing better horses to the west this year and will continue to be so in future years. It is therefore expected that the racing feature at the fair this year will be much stronger than in former years. The large purses hung at Portland will attract many drivers and breeders who have never before visited the Pacific Coast. The two fairs, coming one following the other, will enable both to get the full benefit of the exhibitions, which will be the best ever seen on the coast.
