NICE JOBS FOR THESE.

F. B. LOOMIS.

F. J. SKIFF.

F. D. MILLET.

These three men have been named as commissioners general for the United States at the Japanese exposition in Tokyo in 1912. Loomis was formerly Assistant Secretary of State. He heads the commission and will receive $8,000 a year for five years, beginning with 1909. He is very highly esteemed by President Roosevelt. Skiff was prominently connected with the World's Fair in 1904 and is now director of the Field museum in Chicago. Millet is the well-known American artist. Skiff and Millet will receive $2,000 a year each for 1909 and $5,000 a year for the next four years. The duty of the commissioners is to recommend to President Roosevelt and Congress the cost and character of the United States building and exhibits at the exposition, and later to take charge of the selection and placing of exhibits.

Poet, Not Farmer.

The Farfield Grange was holding its midwinter meeting, the topic for discussion being poultry. The president of the society had prided himself on having arranged for a large variety of papers, which, taken together, would completely exhaust the information of the community regarding hens. Questions of food, of portable houses, of packing eggs and of incubators had all been adequately treated. At last the president announced, "Mr. Ethan Noble will read a paper entitled, 'An Evening in the Poultry Yard.'"

He was a slight young man, and there was a little stir of amusement among the farmers as he rose, for Ethan's trials with chickens were fast becoming village tradition.

"There is no place in the world," began the reader, "more poetic, and I may say inspiring, to thoughts that a poultry yard in the evening. It is after the sun has set and the roosters and hens are all sitting on their nests. The evening air is deeply scented with dew. From the river winding in silvery curves adown the lea comes the suggestion of repose, of quiet, of the infinite restlessness of the universe. Now and then are heard the squeaking of the chicks in their nests or the scratching of some little one trying to break forth from her shell. As I lean on the parapet I reflect on the young, fresh life about me—"

When the reading was over, a sturdy citizen leaned forward in his seat. "Ethan," he said, confidentially, but loud enough for all to hear, "I never knew before why you bought eggs, but I do now."

Natural Toothbrushes.

Natives of Somaliland have the whitest and best teeth of any people in the world, and the reason is not far to seek. Whenever they are idle they may be found rubbing their teeth with small pieces of wood—little twigs which are covered with a soft bark and which ravels out into bristles. This practice prevents the teeth decaying and of course keeps them in excellent condition. Just as one might pick a wild flower in the country, so the Somali native picks his toothbrush. They are never without their small twigs. Toothbrushes as we know them are unknown in Somaliland. Their own methods are undoubtedly the healthiest and certainly the cheapest, and it is a matter for wonder that we do not take a leaf out of their book in this respect.—Dundee Advertiser.

When the children of a family are named "Arabella," "Gwendolin," "Rupert," etc., it is a good sign the mother's favorite reading is not the Bible.

EUGENE V. DEBS.

The Nominee of the National Socialist Party for President.

For the second time Eugene V. Debs is the nominee of the National Socialist party for the Presidency. In 1904 he headed that party's ticket and made an agressive campaign. He received a total of 402,536 votes, the largest vote in any State being 69,225 in Illinois. Had the Socialists been united, the result would have been even more flattering, for there was still another Socialist candidate in the field, Charles Hunter Corregan, the nominee of the Socialist Labor party.

Eugene V. Debs was born in Terre Haute, Ind., and began work as a locomotive fireman. He next entered commercial pursuits, branching out into politics and being elected city clerk of Terre Haute and then member of the State Legislature. He came into national prominence during the great railroad strike, which had Chicago as a center and in which he bore a leading part. He was secretary of the Board of Locomotive Firemen and president of the American Railway Union and served six months in jail for violating a Federal injunction during the conduct of the strke. Since then he has been conspicuous in the Socialist movement and enjoys a wide reputation as an orator. He is also an editor and thus from platform and sanctum teaches Socialist doctrine.

FRENCH MILITARY ATHLETE

FRENCH ARMY'S STRONG MAN.

The French army has many strong men. Muscle is cultivated sometimes at the expense of other things, but the fact remains that frequently this Porthos-like attainment comes in pretty handy. The French army in Morocco was kept busy between times at sports and games. One of the diversions of the soldiers was lifting heavy weights and some of them became able to do astonishing feats, one of which, taken from a photograph, is here shown. The cannon and equipment weigh many hundred pounds, but the soldier picked it up and carried it easily.

Striking an Average.

The children were not allowed in the kitchen, but nobody had ever forbidden their sniffing outside the door to catch the delicious odors which could be obtained by a close application of a small nose to a crack.

"Why, Ethel," said Mrs. Harwood, who discovered them in the entry just outside the kitchen door one Saturday morning, "why are you twitching Tommy and slapping him?"

"'Cause he isn't playing fair, mother," said Ethel. "He's had five smells and I've only had four, and it's my turn."

"I am, too, playing fair," asserted Tommy, his utterance smothered as he again applied his nose to the crack. "I've got an awful cold, and I can't smell half as much as she can!"

According to Hoyle.

The Main Thing.

"She has the face of a seraph!" declared the enthusiastic friend.

"That's all right," said the practical manager, "but has she the backing of an angel?"—Baltimore American.

S.S.S. CURES OLD SORES

No old sore can heal until the cause which produces it has been removed. External applications of salves, washes, lotions, etc., may reduce the inflammation and assist in keeping the place clean, but cannot cure the trouble because they do not reach its source. Old sores exist because the blood is infected with impurities and poisons which are constantly being discharged into the place. The nerves, tissues and fibres of the flesh are kept in a state of irritation and disease by being daily fed with the germ-laden matter through the circulation, making it impossible for the sore to heal. S. S. S. cures chronic sores by its purifying action on the blood. It goes down into the circulation, and removes the poison-producing germs, impurities and morbid matters which are responsible for the failure of the place to heal. S. S. S. makes the blood pure, fresh and healthy; then as new, rich blood is carried to the spot the healing process begins, all discharge ceases, the inflammation leaves, new tissue begins to form, the place fills in with firm, healthy flesh, and soon the sore is permanently cured. S. S. S. is purely vegetable, the safest and best blood purifier for young or old. Book on Sores and Ulcers and any medical advice free to all who write.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
