RATE HEARINGS SET.

Interstate Commerce Commission to Meet in San Francisco.

San Francisco, Aug. 7.--It was announced here today that the Interstate lommerce commission will meet in San Francisco August 18, to take up matters relating to the freight rate contro-versy between the commission and the railroads that have grown out of the

new freight tariff order by the com-mission on shipments of lumber from points in the Willamette valley to San Francisco and Bay points.

It is likely that the commission will also hear complaints from the transcontinental railroads regarding the new ruling on Oriental tariffs, at its San Francisco meeting, which will be one of the most important sessions of the year.

The government officials here profess to be ignorant of the commission's program, but admit that the lumber rate controversy is to be considered.

The commission has been subpoenaed to answer in Federal Judge Morrow's court to show why an injunction should not be issued restraining the enforcement of the new lumber rates. The officials of the Pacific Mail company are preparing to submit their obections to the late ruling of the commission regarding the publication of overland tariffs on Oriental shipments. The new rule requires the publication of overland tariffs and the steamship people say they would be forced to go out of business because competition on the Pacific ocean forces them to give the Oriental shipper a lower rate than they give the American shipper. A

strong protest is to be made.

FIGURES ON FIRE LOSSES.

Railroads and Coal and Lumber Companies Make Estimates.

Toronto, Ont., Aug. 7.-J. L. Lindsay, president of the Crows Nest Coal company, summarized the Northwesterp fire situation thus in a dispatch received here:

The fire area is about 30 miles long and from two to ten miles wide, and is still burning in many places at the outskirts, but Michel is safe, except in the case of high winds, and may be even then. Hosmer is quite safe and Coal Creek may be said to be almost certainly safe.

The loss of the Crows Nest Pass company, owning mines at Coal Creek and Fernie and Michel, will be \$200,-000, and the Canadian Pacific railway will lose \$200,000. The Great Northern railway will lose about \$250,000, and the lumber company not less than \$1,000,000. The loss of timber to the Quicatantinople, Aug. 6. - Said Crows Nest Pass Coal company will him. , the grand vizier, and the newly conce d'ministry have resigned.
