For derangements of the digestive organs it is a natural corrective, operating directly upon the liver and alimentary canal, gently but persistently stimulating a healthful activity. Its beneficial influence extends, however, to every portion of the system, aiding in the process of digestion and assimilation of food, promoting a wholesome, natural appetite, correcting sour stomach, bad breath, irregularities of the bowels, constipation and the long list of troubles directly traceable to those unwholesome conditions. Kasparilla dispels drowsiness, headache, backache and despondency due to inactivity of the liver, kidneys and digestive tract. It is a strengthening tonic of the highest value. And yet it was hers, just the same.—Cleveland Plain Dealer.

**Strictly Business.**  
Inquiring Friend—You've given up booze? How did you ever summon up enough fortitude and self-denial to do that?

**Amending the Declaration.**

"Thank you," replied the victim.  
"I'm not much hurt, but I recognized that messy chauffeur. He may have a case for you later."—Philadelphia Ledger.

**Explained at Last.**  
The late Dr. Morgan Dix, said a clergyman of New York, "had a droll way of lightening grave subjects with little humorous asides. Once I heard him addressing a graduating class at a medical school. He began in this way: 'Physiologists tell us, gentlemen, that the older a man grows the smaller his brain becomes. This explains why the old man knows nothing and the young one everything.'"

HON. R. S. THARIN.

Hon. R. S. Tharin, attorney at law and counsel for Anti-Trust League, writes from Pennsylvania Ave. N. W., Washington, D. C., as follows:  
"Having used **Peruna** for Catarrhal disorders, I am able to testify to its great remedial excellence and do not hesitate to give it my emphatic endorsement and earnest recommendation to all persons affected by that disorder. It is also a tonic of great usefulness."  
Mr. T. Barneott, West Aymer, Ontario, Can., writes: "Last winter I was ill with pneumonia after having a gripe. I took **Peruna** for two months, when I became quite well. I also induced a young lady, who was all run down and confined to the house, to take **Peruna**, and after taking **Peruna** for three months she is able to follow her trade of tailoring. I can recommend **Peruna** for all such who are ill and require a tonic."

**Pe-ru-na Tablets.**  
Some people prefer to take tablets, rather than to take medicine in a fluid form. Such people can obtain **Peruna** tablets, which represent the solid medicinal ingredients of **Peruna**. Each tablet is equivalent to one average dose of **Peruna**.

**Cigarette Smoking on the Increase.**  
Consumption of cigarettes increased largely in the United States during the last fiscal year ended June 30, 1908, according to the preliminary annual statement of internal revenue receipts. Tobacco revenues generally fell off, the public smoking fewer cigars than the preceding year, taking less snuff and chewing less. But more cigarettes of all kinds were used.  
Less spirits were used than in 1907, the heaviest falling off being in the spirits distilled from grain, the revenue on which declined over \$15,000,000. This would indicate large decline in whisky consumption. The beer business, however, continued to grow in spite of the depression.  
The total decrease in internal revenue, as compared with the preceding fiscal year, was \$17,998,072.

**In 1920.**  
"Prisoner," said the magistrate severely, "you are charged with being a millionaire. How did you happen to fall?"  
"Your honor," responded the trembling man at the bar, "in a moment of weakness I made a book on the races."  
"You're not incurable," rejoined the magistrate, who at heart was not unkind. "Go and reform by playing the book of some other fellow. Dismissed."—Philadelphia Ledger.

**Fame.**  
Proud Father—My daughter, I suppose, is getting along famously with her dramatic studies.  
Principal (of the school of dramatic art)—Er—yes; indeed she is. On an amateur's night at one of the theaters recently the audience fairly went wild with enthusiasm when she starred in a little comedy called "Getting the Hook."—Chicago Tribune.

**Enough to Wake Them.**  
"It's wonderful," said Dudley, "how wide-awake the Japanese have become in recent years."  
"Oh, it's not so wonderful," replied the observant man, "when you consider that they have an earthquake every night or so in their country."—Philadelphia Press.

**Appalling Result.**  
Sadly the mermaid regarded herself in her mirror.  
"This," she said, "is the penalty imposed by nature for the absurd effort of my ancestresses, ages ago, to abolish hips!"  
From which we learn how dangerous it is to meddle with the orderly processes of evolution.

## DISCOVERIES AT KNOSSOS.

**Results of the Recent Excavation.**  
By Dr. Evans in Crete.  
May I beg a little space to inform those interested in Cretan exploration of a series of discoveries lately made at Knossos? says a writer in the London Times. The news from Dr. Evans is exceedingly good. He has been working all the season in the large house which lies to the west of the palace, but unfortunately is deeply buried under the talus of a hill. With great labor Dr. Evans has now reached the further limit of this building, and on his way has found much. A magnificent stoneware vase in the shape of a bull's head, with inlay of cut shell about the nostrils and with crystal eyeballs, the iris being painted on the back of the crystal, reveals to us a new technique.

In another quarter, on the north, a great hoard of bronze implements and utensils, including a large tripod cauldron in perfect preservation, will much increase our knowledge of the finer domestic apparatus of Minoan civilization. As Dr. Evans speaks of having unearthed a great number of early vases with these tools there should be no difficulty in dating the latter and thereby getting standard forms.

On the south of the palace a range of buildings has been found at a lower level, largely buried under debris of the palace itself. The latter included a mass of ivory fragments, the remains of carved caskets and of fresco paintings. Inside the south building itself, under a staircase, a small hoard of silver vessels has come to light—some bowls and a jug. These will be welcomed as first fruits of that work in precious metals which so greatly influenced the ceramic artists of the middle Minoan periods, but has generally disappeared. We hear, too, of fine vases of various kinds, one with papyrus plant ornament in relief and others in the best "palace style." Work is also proceeding actively on the restoration of the royal apartments on the east of the palace, and every effort is being made to get into the great dome tomb found last year and to find other tombs.

**A SURPRISING EFFECT.**

An old gentleman in one of the large Eastern cities was asked to buy a ticket to a fireman's ball, and good naturedly complied. The next question was what to do with it. He had two servants, either of whom would be glad to use it, but he did not wish to show favoritism. It therefore occurred to him to buy another ticket, so that both could attend. A writer in the St. Louis Republic tells what happened.

Not knowing where the tickets were sold, he inquired of a policeman, and the officer suggested that he go to the engine house. So the old gentleman went to the engine house that evening, but there was no one in sight. He had never been in such a place before, and stood for a moment uncertain how to make his presence known.

Presently he saw an electric button on the side of the room, and put his thumb on it.  
The effect was "electrical" in every sense of the word. Through the ceiling, down the stairs, and from every other direction firemen came running and sliding. The horses rushed out of their stalls, and, in short, all the machinery of a modern engine house was instantly in motion.

Amid all this uproar stood the innocent old gentleman, who did not suspect that he had touched the fire alarm until the men clamored round him for information as to the locality of the fire.  
Then he said, mildly, "I should like to buy another ticket for the ball, if you please."  
The situation was so ludicrous that there was a general shout of laughter; and the old gentleman bought his ticket and the engine house resumed its former state of quiet.

**Rain Poor Substitute for Irrigation.**  
And irrigation is better than rain, infinitely better. That also sounds like a paradox, but instead it is almost a truism. What is better—to give a plant just as much and no more water than it needs and just when it needs it; or to parch it or drown it according to the whim of the clouds? The rain falls upon the just and upon the unjust alike; upon your strawberries that cry for it and upon your sugarbeets that want uninterrupted sunshine. Rain is all right in its place, but it is a very poor substitute for irrigation. Otherwise why would the lawns of our cities be sprinkled or irrigated, instead of leaving them to the tender mercy of the clouds? No. Arid lands are more fertile than ordinary lands, and irrigation is better than rain.—Success Magazine.

**Never Reaches the Limit.**  
"It's too bad, the average man can't be satisfied with a good living and not be hungry for more money."  
"The average man is satisfied with a good living. The only trouble is that his idea of a good living grows with his income."—Philadelphia Ledger.

**Trying to Prove an Alibi.**  
"Now, Tommy, either you or Johnny have been stealing grapes again. Here are the skins."  
"Twasn't me, ma—honest it wasn't. I eat all my skins."—Cleveland Leader.

**Loafers at the Pool Table.**  
The best pool players in any town are generally the young fellows who never hang onto one job very long at a time.—Kansas City Journal.

# S.S.S. A CURE FOR RHEUMATISM

Rheumatism is caused by an excess of uric acid in the blood, which is carried through the circulation to all portions of the system. Every muscle, nerve, bone and joint absorbs the acid, pain-producing poison, causing aches, inflammation, stiffness and other well known symptoms of the disease. Permanent relief from the pains and discomfort of Rheumatism cannot be expected from the use of liniments, plasters, and other external treatment which does not reach the blood, where the cause is located. Such measures give temporary relief, but in order to cure Rheumatism the uric acid and inflammatory poison must be expelled from the blood. S. S. S. cures Rheumatism because it is a perfect blood purifier. It goes down into the circulation, neutralizes the uric acid and drives it from the blood. S. S. S. expels the irritating, inflammatory matter which is causing the pain, swelling and other discomfort, enriches the weak, sour blood, and permanently cures Rheumatism. In all forms of Rheumatism, whether acute or chronic, S. S. S. will be found a safe, vegetable remedy, possessing the properties needed to cure, and at the same time a medicine that builds up the entire system by its fine tonic effects. Book on Rheumatism and any medical advice free to all who write.
