# **ICE THREATENS RUIN**

**Piled Mountain High Around Ni**agara and No Relief.

### EVEN WHIRLPOOL IS FROZEN UP

Great River"Carries : Torrents of Ic From Lake Erie and Piles it in Immense Ridges.

Niagara Falls, April 22 .- Vast areas of angry water and mountains of ice, backed up by the gorge in Niagara river, threaten to cut a new channel and destroy one side, at least, of the famous falls, one of the chief wonders of the world. The famous spidery suspension bridge, once the highest and longest in the world, and admittedly one of the most famous engineering projects, is in imminent danger of destruction.

At Nisgara-on-the-Lake the river is 18 feet above the normal level, and is still rising.

The gorge road which skirts the American shore is almost obliterated.

The great whirlpool, which has never in the memory of the white man subpoint spans the stream, and every minute the covering of ice is becoming thicker.

The pressure of the on-rush from Lake Erie has piled the far stretches in great concentric ridges, some of them rising to a height of 50 feet. It is possible with the aid of a plank to Surrenders All Power to Parliament cross the pool from shore to shore.

#### TEN THOUSAND DIE.

Butchery in Syria Reaches Appalling Degree and Craze Spreads.

Constantinopple, April 22 .- Massa cres that started last week in Adana have spread along the Syrian coast and toward the interior as far as the vilayet of Aleppo, and fanaticism has led to wholesale butchery throughout this entire district. It is conservatively estimated that over 10,000 have been slain, the majority of this number being women and children, who have been slaughtered in droves.

Religious uprisings have broken out in Antioch and Birejik, and foreigners have taken refuge in the British consulates. Fifty men from the British warship Diana have been landed at Alexandretta, but their distance from the scene of the latest outbreaks seems to have no effect in stopping the ravages of the religion-crazed slayers.

The situation at Alexandretta is critical. Panic everywhere prevails. Thousands of refugees are crowding the city, which is patrolled by marines from the British cruiser Diana.

ICE JAM YIELDS.

Small Opening Made in Niagara With Dynamite.

Youngstown, N. Y., April 23.-A breach was made today in the great ice jam which for ten days has held the lower Niagara in its grip and caused damage estimated at \$1,000,-

Engineer Kunz and his men hammered away and at 5 o'clock the blast from 150 pounds of dynamite sent a tiny rivulet trickling through the east side of the jam. At dusk further explosions and the ceaseless grinding of the floating ice had broadened the

trickle to a bold young stream. Engineer Kunz expects that the channel will be widened during the night, and that by morning there will be a broad avenue.

The dynamiting attracted less than 500 spectators. Some chunks of ice buried themselves a foot in the earth. One crashed through the roof of the pumping station.

The main mass of the ice from the mouth of the river, 10 miles north, is apparently as solid as masonry. About 100 feet from the shore a narrow channel is swiftly running. About 80 feet north of the head of this channel is a good acre of green water streaked with chunks of ice.

The jam is of appalling proportions. It is 12 miles in length and in many places 60 feet in depth, and represents millions of tons and a strength power enough to annihilate the four villages along its border. if it should start to mitted to the will of the ice, is lost to view under the pack, which at that go out all at once. Another element of horror is its postilential nature of horror is its pestilential nature. Mingled with the slushy ice cast high on the banks is a week's sewage from the cities along the Niagara frontier.

#### SULTAN GIVES IN.

and Awaits Decision.

Constantinople, April 23. - The Young Turks have won another victory over Sultan Abdul Hamid, but whether the sultan will remain as sovereign is yet to be decided, although he has offered to place the affairs of May 1. government entirely in the hands of ministers responsible to parliament.

The sultan also agrees to replace the Constantinople garrision with troops that have been investing the city for four days.

The chamber of deputies and some of the senators met today at San Stefano and are now discussing the question of deposing the sultan.

The concentration of the investing army is complete and doubtless the next 24 hours will decide the fate of the sultan, who remains passively at his palace, awaiting the issue,

For the present there need be little fear of bloodshed within the city, but there is much to be feared from the riots and massacres that now are sweeping over the districts under Turkish domination.

### PASSENGER TRAFFIC LARGE.

#### Thousands Will Seek Homes on Pa cific Coast.

Chicago, April 21 .- Officials of the North Pacific coast roads expect an unusually large passenger traffic to that country during the coming summer. It will not be created wholly by the Alaska-Yukon-Pacific fair, though that will be a great drawing card. There will also be a vast volume of travel that the Sheik-Ul-Islam issue a dem brought about by the large number of proclaiming Mohammed Rechail Effet persons going to the coast with the intention of becoming permanent settlers in the Northwestern country. The business depression which has been keenly felt in all the industrial and commercial centers of the East has caused a great many people to seek out pastures new as the fields for their future exertions, and large numbers of these have come to look upon the Pa-

cific Northwest coast country as offering them the greatest inducement of making their future homes there. Already inquiries are being made o

the railroads in great numbers as to that city having been cancelled by the facilities for transportation and reservations are being made for sleeping car this exposition, but as the Federal and other accommodations away in advance of anything believed to be possi-

long be postponed.

#### Snow on Western Prairies.

Denver, April 22 .- Nearly two inchdamage by frost.

Wave of Slaying.

Constantinople, April 23. - The spread of the wave of massacre and death to Erzerum, the principal town of Turkish Armenia, in a district far removed to the north from that hitherto affected by the wave of fanaticism, is leading to the conclusion here that the outrages are being inspired by the sultan, more or less directly, as a counter move in politics to the constitutional movement of the Young Turks. Weight is given this conclusion by the change in feeling on the part of city was dark. From the northeast of the Armenians, who are now ceasing their enthusiastic hailing of the conrain. People were blown off their feet stitutional government, and appealing and hurled against buildings in many places, to be struck down by bricks sultan. That the Young Turks have been very friendly with the Christians

is a matter of record; and the fact that the fanatical Moslems have been roused to attack Christians is regarded as an indirect way of bringing pressure damaged. Many pupils had remark- upon the Young Turks by many in able escapes, but none were seriously well-informed political circles. Horrihurt. Firemen and policemen turned ble as this idea is, it is fast gaining out to assist the people whose homes ground, and the behavior of the Ar-had been wrecked. So seriouly was menians themselves in abandoning the telephone service crippled that it their appeals to the Young Turks and was impossible to get connection with placing reliance on the sultan is further proof of it.

#### Critics Are Welcome.

Los Angeles, April 23 .- A unique innovation in municipal affairs is a ern Pacific companies has been entered clearing house for all city business in the United States Circuit court for which Mayor Alexander established today. It is expected to effectually end the purpose of dissolving the financial the insistent complaint heretofore prerelations of the two railroads. The vailing that private individuals could suit was brought originally in Utah, not get access to or action from public officials. Under the new system the a junction, and hearings have been held mayor will not only receive, but actuin nearly every large city of the United ally invites complaints, criticisms, new ideas and suggestions of all kinds cal property, have headquarters or which may result in the betterment of conditions in any direction.

#### Recpen Over Million Acres.

Washington, April 23.-The Taft administration is not going as far as the of the Russian foreign office, the Turk- past administration in tying up public lands, in furtherance of the conservaondary importance. In spite of the tive policy. It leaked out today for prompt compliance by the shah with the first time that during the close of Garfield's term in the Interior departistice must be declared at Pabriz for ment several million acres of land were the purpose of providing food for the withdrawn from entry in order to "con-reingners and noncombatants, it is serve stream flow." This administrafelt that intervention in Persia cannot tion has ordered restoration to entry of 1,170,925 acres of this land.
