TWO-CENT FARE COSTLY.

Roads Lose Heavily Because of Reduction in Charges.

Chicago, July 13 .- The claim of Illinois railroads that the 2-cent rate, while stimulating travel to a marked degree, had reduced the revenues of roads from passenger traffic almost to the ruination point, is borne out by a comprehensive investigation by the Santa Fe road.

The Illinois railroad commission insists the law has been beneficial to the roads. The latter say they have been compelled to employ much additional equipment and more help to handle the increased travel, which did not, by a large sum, compensate them for the

extra expense. The Santa Fe worked under the operation of a similar law in Kansas, where a careful record was kept for the first year. The Santa Fe carried 654,000 more passengers than it did the year previously under the 3-cent law. Meanwhile revenues from pas-

Thursday, July 15.

Washington, July 15 .- Questions on cotton goods and lead products were taken up by the tariff conferees today. Members of the house conference committee declined to accept the senate amendments to the cotton schedule when that subject was taken up. These amendments consist chiefly of changes from ad valorem to specific duties for the purpose of carrying out the original intent of the Dingley rates, which senate conferees assert have been pulled down by the misinterpretation of the Dingley law.

Wednesday, July 14.

Washington, July 14.-Reports that there was diseatisfaction in the tariff conference with the corporation tax amendment, and that it might be dropped out of the bill reached the ears of President Taft today. In consequence Senator Aldrich and Representative Payne were called to the White House. The house provision allowing a drawback to the amount of internal revenue. tax paid on domestic alcohol used in articles such as perfumes and cosmetics manufactured for the foreign trade was tentatively accepted.

The real struggle over rates fixed by the house and senate and which was to have begun today, was deferred because of the desire to get reports on a number of subjects which were referred to subconferees and committees for investigation. In order that no time should be lost, it was decided to take up at once the administrative section in their order.

When adjornment was taken at 6:30 o'clock the senate maximum and minimum provision had been accepted tentatirvely with the exception of the provision for the employment of tariff experts. The house conferees argued that the ways and means committee and the senate finance committee have the investigation of tariff matters as

WILL DEPOSE SHAH.

Revolutionists in Persia Gaining on Government Forces.

St. Petersburg, July 12 .- The Rused at Enzell, a Persiau seaport on the Caspian yesterday, is made up of 1,000 Russian and 800 Cossack cavalry, with eight field guns and eight machine guns. Despite the correct attitude maintained by the Russians, the natives are demonstrating their unfriendliness.

The unopposed advance of Siphidar, the leader of the revolutionists, and Sardarasad, the chief of the Bakhtiari tribesmen, towards Teheran, is taken here to mean that General Liskhoff. the governor of Teheran, considers his force inadequate to engage in a general battle, and that he has decided to employ his Cossack brigade merely as a guard over the life of the shah.

Persons well informed here regard the entrance of the revolutionists into Teheran as a foregone conclusion, while the deposition of the shah, which several times has been mooted, will now arouse no surprise.

Boy Brought Here by Peary Will Try for Arctic Honors.

New York, July 12. - Separated from his native home for 13 years, Mene Wallace, an Eskimo boy brought to this country with five of his people by Commander Peary from the Polar regions, sailed today on the Red Cross line steamship Rosalind, for St. Johns, N. F., whence he will be conveyed to his home in Greenland.

Before Mene sailed, the Arctic club extracted from him a written agreement that he would not again return to this country and that while in Greenland he would not bears arms against the Peary expedition. This was due, it is believed, to the fact that Mene, angered at the attitude of Peary and the Arctic club in refusing to take him back to Greenland, once safe in his native home, might seek revenge for the treatment he received while in this country.

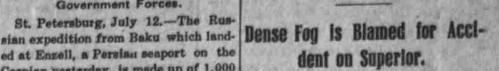

Mene said he would organize an expedition of Eakimos to find the North pole.

Vessel Sinks so Swiftly Members of Graw Have No Time to Don Life Preservers.

Sault Ste. Marie, Mich., July 13 .-Three minutes after the steel steamers

Isaac M. Scott and John B. Cowle had collided in Lake Superior early today, about a mile and a half off Whitefish Point lighthouse, the Cowle had gone to the bottom in 50 fathoms of water, carrying with her 14 members of her

The Scott, although hadly damaged about the bows, put back to this port, where she arrived this afternoon with part of the crew of the Cowle. A heavy fog was responsible for the collision.

The Scott, a new boat on her maiden trip to the head of the lakes, had just passed the light at Whitfish Point, and straightened out her course up the lake, when she suddenly saw the Cowle loom up through the fog, broadside on and only a few feet away.

The Cowle was down bound with 6,000 tons of iron in the bold. For 15 feet the bow of the Scott penetrated the side of the Cowle. Tons of water rushed into the great opening and in three minutes the Cowle had settled.

Immediately after the collision a line was thrown from the deck of the Scott to the forward deck of the Cowle, and three members of the crew escaped to the deck of the up bound boat by this means.

The rest of the crew who were saved jumped from the sinking steamer into the lake, some without life preservers, and were picked up by the Scott.
