BUSINESS CRIPPLED

Sweden in Throes of a Gigantic Labor Struggle.

PEOPLE ARE BUYING FIREARMS

Though Workmen Organize Force to Keep Order, Means of Protection Are Being Adopted.

Stockholm, Aug. 5 .- With the street car lines tied up and all cabdrivers refusing to work, the labor difficulties here give promise of soon becoming acute. The general strike called for today has not yet become thoroughly effective, though the ranks of the strikers have been considerably augmented. Many affiliated organizations, while sympathizing with the strike movement, are still withdrawing their active support, preferring to let others take the lead in the present crisis.

The strike is by no means general in the provincial towns and industrial centers of Sweden. In most places the streetcars are running and the city employes are at work as usual. No disturbances have been reported. The loading of ships at Gothenburg, where 10,000 men are on strike, is being done by troops.

The fact that troops are protecting the gas works and the electric light plant has incensed the workmen, whose leaders threaten to call out all the men unless the soldiers are withdrawn.

A corps of workmen, some thousand strong, are being organized with the object of maintaining order, and the people generally, bankers, merchants. etc., are arming themselves for self protection.

The gunshops of the city are practically denuded of revolvers and small arms. All tourists have left the city and the number of visitors now in the city is smaller than at this season for many years.

FORMOSA TO PRODUCE SUGAR

Will Soon Lead World-Japan's Plan to Kill Head Hunters.

Victoria, B. C., Aug. 5.-Paul Bell, an engineer of the Honolulu Iron works, returned on the Tango Maru today from Formosa, where he has been establishing sugar mills for the Japanese Sugar company, and states that Formosa will, by next year, be the greatest sugar-producing country in the world. Five new mills were erected this year and five more are to be built next summer, all equipped with the latest machinery. The output this year was 90,000 tons, all of which is expected at that meeting. went to Japan.

nese are adopting a cruel method of dealing with the rebels of are not entitled to terminal rates; that East from Troutdale than from Port-Formosa, head hunters. They have to grant them such rates would be to land. The Fruit Growers' association strectched trochas of barbed wire across districts, heavily charged with electricity.

BEE STINGS CURE.

California Man Crippled With Rheumatism Now Well.

Redding, Cal., Aug. 5.-Tortured by rheumatic pains, from which he has suffered for months, James R. Holt, head of a local contracting firm, submitted himself to the stings of 39 honey bees yesterday, and today walked to his office for the first time in many days, declaring that his joints were as limber as those of a boy. Mr. Holt has been so crippled with

the disease that for months he was compelled to use a carriage to go from his home to his office, three blocks away.

Ten or a dozen bees were applied to each aching joint, while the patient writhed in agony. After it was over he became nauseated and a chill lasting two hours followed. He retired for the night and finally fell asleep. When he awoke this morning he was surprised to feel no ache in his joints.

Barcelona is Quiet.

Barcelona, Aug. 5 .- The situation in Barcelona today is tranquil. The only evidences of the terrible nightmres through which the city passed last week are the ruins of the convents and erection of barricades. There is, how-

Filipinos Still Get Guns.

Snyder, of the United States army cal merchant and financier. medical corps, who has been stationed in the Southern Philippine islands for two years, arrived today on the Tango Maru. He says there is much gun day replied to the Turkish note, pracsmuggling from Borneo and Singapore tically demanding the recall of the by filibusters who keep the Philippine Greek officers serving in Crete, saying natives supplied with arms. The great- the question is in the hands of the four est number of contraband weapons are protecting powers of Crete, with whose handled by Chinese, who conceal them in the bottoms of their boats.

Turkey to Invade Crete.

Cologne, Aug. 5 .- The Cologne Gazette's Salonica correspondent cables energetic demand. that the Turkish government has ordered out 40,000 redifs in the territory of the Second army corps at Smyrns,

ALL RECORDS BROKEN.

Registration for Government Land Reaches 274,529.

Spokane, Aug. 6.—Breaking all records in the history of the United States for registration for government land openings, registration for land on the three reservations, Flathead, in Montana, Spokane, in Washington, and Coeur d'Alene, in Idaho, closed at midnight last night with a grand total of 274,529 applications received at the central office of James W. Witten, at Coeur d'Alene. Those in the letters will bring the total to 290,000, exceeding the famous Oklahoma reservation rush, the greatest known.

Until Monday the force in Judge Witten's office will be preparing to send out the lucky notices to those drawing for lands. The high platform from which the drawings will be made is complete, and the 50 steel cans which contain the applications are guarded by armed men until August 9, the opening day.

During the period of application, certificates of authority to a minister the oath have been withdrawn from five notaries in Spokane by Judge Witten. The offenses consisted of altering the name of the agent in a soldier's power of attorney and in leaving signed and stamped application blanks with clerks to be filled out when the authorized notary was absent.

On Monday, August 9, Miss Helen Hamilton, the pretty niece of Mayor Boyd Hamilton, of Coeur d'Alene, will pick the winning list of 1,500 numbers on the Coeur d'Alene reservation. On Tuesday, August 10, the little Miss will will continue drawing a substitute list of numbers up to 3,000, this latter list to be used in case those first drawn do not appear to file on the land.

On Thursday, Friday and Saturday, August 12, 13 and 14, Miss Elizabeth Donlin, daughter of E. R. Donlin, of Missoula, will draw the winning numbers on the Flathead reservation up to 6,000 and on Monday, August 16, Miss Harriet Post, daughter of Frank T. Post, of Spokane, will select the lucky slips for the Spokane reservation.

CONTEST SPOKANE DECISION.

Southern Pacific and Santa Fe Will

Lead in Fight. San Francisco, Aug. 6.-After ten days of discussion the freight agents of the Southern Pacific, the Santa Fe and other transcontinental railroads announced today that they had decided to fight the affirmation of the Spokane decision and its application to other intermediate points.

George W. Luce, general freight agent of the Southern Pacific company, said that when the matter is taken up at Spokane next October his company and the Santa Fe will contest the attitude of the Northern railroads, which favors the granting of terminal rates to intermediate points. A battle royal

open a vast field to the manufacturers alleges it is charged 46 cents a crate of the Middle West heretofore reserved for Western enterprise.

He said that in view of the water competition on the Coast, the present policy of forcing intermediate points to pay rates to the Coast plus the local freight back, was considered fair and reasonable by the Southern Pacific and Santa Fe, whereas the Northern roads favored a proposal to limit the distributing area on the Coast to a narrow strip paralleling the shore line.

CRETAN TROUBLE BREWING.

Mussulmans in Macedonia Threaten Invasion of Greece.

Constantinople, Aug. 6. - Serious agitation has broken out in Albania against the attempt of Greece to annex Crete. Forty thousand Albanians assembled at Monastir today and sent imperious messages to the government, threatening that unless effective measures were adopted the entire Mussulman population of Macedonia would march against Greece.

The grand vizier, on receiving the message, hurriedly left the council of ministers, went personally to the telegraph office and replied that the government was taking active steps to prevent the annexation of Crete by

Pirates Loot and Kill.

Victoria, B. C., Aug. 6.-Advices by churches, and the torn-up pavements, the Tango Maru today note remarkable the stones of which were used for the recrudescence of piracy in South China waters, the most desperate band of outever, considerable apprehension for the laws having headquarters apparently in future. OREGON STATE ITEMS OF INTEREST

SHEEP PROSPECTS GOOD.

Prices Are High and Eastern Oregon Range Excellent.

Pendleton-The range in this section is of the very best and sheep prospects kinds are commanding high prices and charge the state fair promise for Orethe prosects are that wool will be as high or higher next spring than it was last. These facts coupled with the excellent range gives sheemen cause for much gratification.

The reason for the good range is attributed to the peculiar weather condifall of snow which remained on the | 000. ground so long soaked to a great depth. Then showers have visited nearly every section of the mountains at intervals, so that the grass is both tall and green and there is every indication offered. that it will remain so throughout the

For this reason the sheep will come out of the mountains this fall in the best of condition, and will be able to come through the winter in good shape, even though there should be no early fall rains to put the winter range in shape. The fine summer range will make it possible to keep the sheep in the mountains longer than usual.

MANY MEN WANTED.

Southern Pacific Will Rush Work on the history of the state. Natron Cut-Off.

Eugene-Good news is contained in the statement of A. O. Wattis, of the Utah Construction company, who, while in Eugene recently, stated that his company would want 2,000 men to go to work on the extension of the Southern Pacifia's new railroad to be built from Natron to Klamath Falls.

Mr. Watts said that a trainload of construction material and supplies had been shipped here from Oroville and Reno, Nev., for the railroad work, and they will arrive in a few days. "We expect to have a large force of men at work beyond Natron in a very short time, and we will use 2,000 men if we can get them," said Mr. Wattis, who drove on to Natron.

The party consisted of A. O. Wattis, his brother, L. R. Wattis, N. J. Sweeney, W. B. Hunt, W. H. Messinger, W. W. Hunt, G. W. Dye, John Garrison, Ralph Smart, W. A. Bechtell and G. S. Colley.

Troutdale Shippers Complain.

Salem-The Troutdale Produce and Fruit Growers' association, through its secretary, Miss M. Dewey, has filed a complaint with the railroad commission against the Pacific Express comthe position that intermediate points pany in which it is alleged higher for shipping fruit to Wasco, while the Portland produce men are charged only 36 cents. A scale is presented showing numerous similar alleged discriminations against Troutdale shippers practiced by the Pacific Express company, which operates on the Oregon Railroad & Navigation company lines.

New Dairy Bulletin.

Prof. J. H. Frandson, of the dairy department of the University of Idaho, has in press Bulletin 67 on the subject of "Better Dairy Methods." This bulletin contains much that will be of interest to all directly or indirectly interested in dairying; much that should help to make dairying more profitable and desirable as a business. This bulit. Address Department of Dairying, University of Idaho, Moscow, Idaho.

Condon Heirs Give Fund.

University of Oregon, Eugene-The argest single gift ever made to the Oregon has just been received. The heirs of the late Dr. Thomas Condon, who for many years was connected with the University of Oregon as head red, 95c; 40-fold, 96 %c. of its department of geology, are establishing a loan fund of \$2,000, of memorial loan fund.

Tillamook Line Surveyed.

Tillamook - The surveying crew which has been working over the mountains down the Wilson river has reached this city, thus completing the survey for the United Railways' line into regular butter prices. Tillamook county. It is supposed this is the road which will give the county first railroad connections with Portland.

Regatta Fund is \$8,000.

Astoria-The regatta committee announce that it has raised subscriptions 2 per dozen. amounting to \$8,000 for the coming regatta and this amount was apportioned among the subcommittees having charge of the various features. The queen is to be selected by popular vote and the balloting has begun.

quarters have been built and other changes made. Chief among the improvements will be the increase in restaurant facilities.

Printed announcement is made in the premium list and catalogue by M. D. Wisdom, vice president, and F. A. Welch, secretary of the fair association, concerning new features of the fair. Every assurance is given the public that the forth-eighth annual show will be the largest and best in

The premiums this year are divided up among a number of different departments. They are: Agricultural products, art, bees and honey, boys' department, cattle, cereal foods, county exhibits, dairy division, educational, floral, goats, horses, horticulture, industrial, ladies' textile department, misses department, pigoens, poultry, Scotch collies, sheep, swine, vegetables and woolen goods.

The speed program contains some good events. The prizes range from \$500 to \$5,000.

Power Plant for Deschutes.

Prineville-The Crook County Light & Power company, with headquarters at Redmond, has begun the erection of a 25 foot dam on its project about one mile above Cline falls on the Deschutes, where it is proposed to raise the waters of the entire stream 20 feet. Water will be diverted into a flume six feet in depth, 20 feet wide on the bottom and one mile long. The power plant will be situated just opposite Cline falls on the plateau. The company expects to generate 15,000 horsepower, and will use the electricity for lighting several of the towns in the Deschutes valley and later may provide power for trolley lines.

Coast Extension for S. P.

Gold Beach - Considerable excitement has been created by a corps of engineers starting surveys near Pistol river. They appear to be taking up threatened strike, the old Southern Pacific survey near that point and continuing it south. Neither the chief engineer or any of his men would give out information. The survey was originally made for the New Outbreak of Striking Japs in Pacific coast extension of the Southern Pacific, from Drain by way of Coos bay to San Francisco.

volution by Socialists.

Stockholm, Aug. 4.—Not only has the strike of 100,000 workmen largely Scores Arrive at Spokane After threatens to develop into a revolutionary movement under the leadership of the Young Socialist party and to involve every industry, thus making the paralysis complete. The king has sum-moned a special session of parliament and the entire army is kept ready for immediate action.

Forewarned of the purpose of the Young Socialists to give the strike a revolutionary turn, the government has decided at the first sign of insurrection to declare Stockholm in a state of siege and has quartered soldiers in various sections of the city and suburbs.

A civil corps guard is being organized for the protection of property and the banks are closed and guarded.

All the ferries ruunning out of Stock holm have ceased operation and the largest steamers engaged in carrying visitors and residents to the seaside resorts in the archipelago have suddenly stopped running, discharged their crews and laid up for the winter. The summer traffic is usually continued until October.

It is expected that the present total of about 100,000 idle workmen will be largely increased by tomorrow. It is anticipated also that the streetcar service in Stockholm will stop, and arrangements are being made to run the waterworks and the electric light plants by soldiers.

WAR MENACES CHICAGO.
