... Prineville Journal.

E. E. Eichelberger, Max Wilson and Ed Mason have gone on an extended hunting and fishing trip in the mountains around Clear Lake and vicinity.

Mr. and Mrs. R. A. Harvey, Mrs. Harvey's brother, W. T. Gregg of San Francisco, and Miss Eva Holdship visited the warm springs on the reservation the last of the week.

S. M. Campbell and wife and their son of Jacksonville, Florida, arrived in Madras Tuesday and will visit for a month with James Mayes and family. Mrs. Campbell is a daughter of Mr. and Mrs. Mayes.

Fremont Crane, who was in Madras for several months last winter in charge of a large surveying crew which was making the permanent location of the Oregon Trunk line from Madras down Willow Creek to the mouth of Trout Creek, writes to friends at this place that he is still with the Oregon Trunk and is now occupied in the lower part of the Deschutes canyon.

Mrs. R. Florence Bertram of Opal Prairie was in town last Saturday. Mrs. Bertram filed before Commissioner Turner upon a tract of desert land on Crooked River near her home. She intends to erect a large storage reservoir from which to irrigate the land. W. H. Miller and W. A. Hamlin were her witnesses as to the character of the tract.

Edward DeHaven was in town Friday last from his home on lower Trout Creek. Mr. DeHaven reports that the Harriman contractors are at work on his place and are tunnelling into a high ledge of rock preparatory to placing a large quantity of nitro glycerine in the tunnel. When the shot is discharged it is expected that it will tear loose a vast amount of rock and enable them to work at a better advantage at that point.

Mr. and Mrs. Ernst I. Lueddemann and family of Colorado Springs, Colorado, arrived in Madras Monday afternoon and are visiting with Max Lueddemann and wife of this place, Ernst and Max Lueddemann being brothers. Tuesday the Lueddemanns, in company with Dr. King of Antelope, went to the Cove Orchard and are enjoying the fishing in that prince of trout streams, Crooked River. They returned to Madras yesterday.

J. G. Kilpack, agent for the Boys and Girls Aid Society at Portland, arrived in Madras last Saturday morning with instructions from the society to take charge of Mimmie Brown, daughter of W. R. Brown, who has had the girl in his care by leave of the society for some time past. The officials have decided that they would again take charge of Miss Brown and eventually place her in the same home where her sister is located at this time. Mr. Kilpack returned to Shaniko Saturday evening, accompanied by Deputy Sheriff J. C. Robinson of this place.

Peary has reached the North Pole. It has been doubly discovered. From the bleak coast of Labrador Commander Peary today flashed the news that he had attained his goal in the Far North, while at the same moment in Denmark Dr. Frederick A. Cook was being dined and honored by royalty for the same achievement.

Yankee grit has conquered the frozen North, and by the discovery of the North Pole by Dr. Frederick A. Cook, account of which is given in another column of this issue, there has been created a coincidence such as the world will never see again. Two Americans have planted the flag of their country in the land of ice, which man has sought to penetrate for centuries, and each, ignorant of the other's conquest, has sent within a period of five days a laconic message of success.

Two messages from Commander Peary are as follows:

"Indian Harbor, via Cape Ray, N. F., Sept. 6.—To Herbert L. Bridgeman, of Brooklyn, N. Y.: Pole reached. Peary yet safe. (Signed) Peary."

"Indian Harbor, via Cape Ray, N. F., Sept. 6.—To the New York Times, N. Y.: I reached the pole April 6. Expect arrive Chateau Bay Sept. 7. Secure control wire for me there and arrange expe-

dition transmission big story. (Signed) Peary."

A dispatch from St. Johns, N. F., says that Peary found no trace of Dr. Cook. This news reached here tonight through Captain Robert Bartlett of the Roosevelt, Peary's ship.

While Peary does not expressly repudiate Dr. Cook's contention in so many words, his statement may have an important bearing upon determining the extent of Dr. Cook's explorations.

Copenhagen, Den., Sept. 6.—Copenhagen was electrified tonight by the report of Commander Peary's announcement that he had reached the North Pole. Dr. Cook was immensely interested and said: "That is good news. I hope Peary did get to the Pole. His observations and report will confirm mine."

Dr. Cook was seated at a dinner surrounded by explorers and correspondents in the guided hall-room of the Tivoli Casino. Around his neck was hung a garland of pink roses, according to the Scandinavian method of honoring heroes, which the explorer wore blushing and with visible embarrassment.

Amid this scene a whisper went around the room that Peary had found the pole. Asked if there was any probability of Peary's having found the tube containing his records Dr. Cook replied: "I hope so, but that is doubtful on account of the drift. Commander Peary would have reached the Pole this year. Probably while I was in the Arctic region last year his route was several hundred miles East of mine. We are rivals, of course, but the Pole is good enough for two."
