

ket Closed-Time Misstated-Whole Family Present.

Arden, Sept. 10 .- Edward H. Harriman, the greatest organizer of railroads the world has ever known, met the only lasting defeat of his active life at the hands of death. Secluded in his magnificent home on Tower Hill, he succumbed to an intestinal disorder yesterday after a fight against disease that will rank for sheer grit with his remarkable struggles in the financial world.

The exact time of his death is known only in that limited circle of relatives and associates who had shielded Mr. Harriman from all outside annoyance during his last illness. The time was given out as 3:35 p. m., but Mrs. Mary Simonds, sister of the dead man, said last night that Mr. Harriman died at 1:30 p.m. Whether this apparent discrepancy has any bearing on the current belief that every effort was made to lessen the influence of the financier's death on the New York stock market is problematical. But it is significant that the time of his death, as officially announced, was just 35 minutes after trading had ceased on the New York exchange.

Mr. Harriman died peacefully and to the end his brilliant mind retained its clearness. After a relapse on Sunday he sank slowly and soon after noon yesterday there came a relapse that marked the approach of the end. His wife, two daughters and two sons, who have been constantly with him, assembled at the bedside and a carriage was hastily dispatched for Mrs. Simonds, whose home is three miles from the Tower Hill home. Mrs. Simonds entered the great silent home in time to be present at her brother's death. She joined the wife and children, who, with Dr. W. G. Lyle, of New York, and Orlando Harriman, a brother, and the nurses, formed a group at the bedside.

Mr. Harriman will be placed at rest in the family plot at the little graveyard behind St. John's Episcopal Noted Army Man Passes Away After church at Arden. He will rest beside his eldest son, Edward H. Harriman, Jr., who died 22 years ago, soon after the family first came to Arden. The services will be held at 3:30 o'clock Sunday afternoon, and, it is understood, will be strictly private.

Edward Henry Harriman will go

his brother Orlando, and cleared enough to buy himself, in August, 1870, a seat on the New York stock exchange. Young Harriman married early in life and married very well. His wife was Miss Mary Averell, of Rechester, N.

a successful railroad man. For a number of years the broker

thriving business on Wall street, speculating with its own funds and executing commissions for the Vanderbilts and other wealthy capitalist clients. It was not until 1883 that E. H. Harriman came actively into the railroad field. At that time he had become known as a capitalist, one of the few who had gathered together a great fortune in the ten trouble years between 1870 and 1880. He was credited with

having in his strong box a fair list of stocks he had picked up at extremely low prices during the various panics.

Along in 1888 he was elected a director of the Illinois Central railroad. Whether Mr. Harriman entered the railroad field in accordance with an already matured plan of his or whether his accidental acquaintance with railroad matters suggested to him the enormous possibilities of acquiring the

control of large railroad systems, is not definitely known. At all events, Mr. Harriman's entry into the directorate of the Illinois Central railroad marked the beginning of his career as a munipulator of railrorad stocks and reorganizer of raiload systems which, in the course of 10 or 15 years made him one of the greatest railroad kings ever known in the United States and placed him in control of more than 54,-000 miles of water transportation lines and of railroad lines of an estimated length of 27,000 miles.

The railroads included in the Harriman system were of sufficient mileage to reach more than two and one-half times around the globe. They comprised the following:

Union Pacific, Southern Pacific, Oregon Short Line, Oregon Railroad & Navigation company, Illinois Central, Georgia Central, Baltimore & Ohio, Delaware & Hudson, Erie, New York Central, Pere Marquette, San Pedro, Los Angeles & Salt Lake, St. Joseph & Grand Island, St. Paul & Northwestern.

Harriman was in addition the head of four steamship companies, one of which operates steamers across the Pacific. He was also in the directorate of the Wells Fargo Express company, the Western Union Telegraph company, the Colorado Fuel & Iron, The Guarantee Trust, and the Equitable companies of New York, the National City bank, and 31 other corporations.

GENERAL CORBIN DEAD.

Long Illness.

New York, Sept. 9. - Lieutenant General Henry C. Corbin died in Roosevelt hospoital in this city yesterday after an operation for a renal disorder. General Corbin would have been 67 years old in a few days. Mrs. Corbin

FARM SELLS FOR \$106,500.

Ashland Tract, Cultivated Since 1853, Brings Fancy Price.

Ashland-One of the biggest real estate deals in the history of this section was the sale of the E. K. Anderson farm, five miles northeast of Ashland, one of the oldest and choicest farms in the Rogue river valley to G. A. Morse for \$106,500. Mr. Morse is recently from Louisiana, and he has ex-

tensive investments in this section. The farm disposed of consists of 305 acres, the sale price being \$350 an acre. Of the tract sold 43 acres are in apple and peach trees from two to seven years old. Fifty acres are in alfalfa, the remainder being devoted to general farming. All of it is choice fruit land favorably located, and the entire tract will eventually be turned

into fruit acreage. Mr. Anderson has farmed this par-

ticular tract of land since 1853, and upon it grew the first wheat ever milled in this part of the state. Some years ago he purchased home property in Ashland and has only lived on the farm a portion of the time, a son, G. N. Anderson, having charge of the

place.

Hood River Union Closes \$150,000 Deal With Eastern Buyers.

Hood River-Joseph Steinhardt, of Kelly, the New York firm that bought part of China. the output of the Hood River Applegrowers' union last year, has set the apple buying ball rolling by again purheasing the entire crop handled by the over \$150,000.

According to Mr. Steinhardt and the officers of the union, the announcement for box fruit in other Northwest sections, as they have been waiting for the signal from Hood River in order to

The sale includes the purchase of 60,000 to 70,000 boxes of fancy fruit, or about 125 cars, and it is claimed this year by one firm. The fruit is to nery here. be especially packed for Steinhardt and Kelly and will be labeled with a new label just adopted by the union and an effort will be made to send one large shipment in a solid train of refrigerator cars to New York.

Would Hurry Allotments.

Klamath Falls-Complaint is made of unnecessary delay in allotments of the Klamath Indian reservation. The matter is in the hands of Rev. H. F. White, who began the task two years and ex-Governor Myron T. Herrick ago. At that time it was announced that it would require not me months to do the work. When the Indians have received their lands there will be left over about 200,000 acres of fertile farming land, stock range and timbered tracts. If these lands are opened for settlement it will mean an enormous influx of people into the Klamath country and will greatly increase the resources of this section.

ISTARTS PHEASANT INDUSTRY

Lebanon Fancier Succeeds in an Unusual Undertaking.

Lebanon-R. F. Simpson, residing here, is preparing to ship a carload of ringneck pheasants to the game warden of Idaho, the birds to be used for breeding purposes. Simpson is said to be the only man in America who could prized game bird.

Mr. Simson embarked in this in-, dustry last year. A person unacquainted with the increase of this feathered family would say that he had

met with fairly good success for an amateur, but the gentleman declares he has learned some tricks which will materially aid him in the future. To commence with, Mr. Simpson had

212 hens and five roosters. At this time he has over 200 young ones, ranging in size from three days old to half grown birds of this season's rearing,

and the hens are still laying. White bantan hens are used for hatching purposes, they having been found the total for 1890. The 1890 figures see again. to be more careful and painstaking were 555,734 higher than the number with the young than the other of the

feathered tribe by Mr. Simpson. Experience has taught that hens of larger breed are apt to become restless total reported for 1900, an estimated the other's conquest, has sent within and move about on the nest more than or approximate number of farms exist- period of five days, a locoaconic mes the bantam, thus causing the death of ing at the time of the thirteenth cen- sage of success, many of the young immediately after sus may be ascertained; the process of leaving the shell.

FARMERS TO KEEP RECORDS.

PEARY SUCCESSFUL Census Director Durand's Appeal for Accurate Farm Data.

Washington, Sept. 11 .- It will be suggested by U. S. Census Director Flashes News of Discovery Durand to the farmers all over the country that the work of securing accurate returns at the coming census of agriculture will be greatly facilitated some sort of written record of their AMERICAN FLAG NAILED TO POLE if the farmers will keep or provide farm operations during the year, 1909. This effort to secure the farmers' personal co-operation is but one of a number of ways and means chosen by Di-

rector Durand in the effort to secure fill such a large order for the much an accurate, expeditious and economical census concerning population, agriculture, manufactures, mines and quar-

ries, which are the subjects of inquiry defined in the census law.

Notwithstanding the value of the population returns for the political doubly discovered. From the bleak purpose of reapportioning representation in the congress of the United yesterday flashed the news that he had States and of the statistical informa- attaned his goal in the Far North tion derived from an analysis of the population details, the census of agri- Dr. Frderick A. RAILROADS IN WAR.

New Schedules Being Arranged for Pacific Coast Lines.

Chicago, Sept. 7 .- When the Hill ines announced five days ago that they would lop ten hours off the fastes time between Chicago and the North Pacific coast points they inaugurated speed war that has now spread over the entire transcontinental railway map. In the Southwest territory, th fight is on for the mail contracts, but to get these, the roads must put of faster and better trains. The Sant Fe proposes to cut ten hours off it time between Kansas City and Lo Angeles and its rivals are scurrying in every direction and ordering their of bees on the farm April 15, 1910; experts to "string" new scheules, ge also the number and value of young animals such as calves colts lambs Santa Fe. The fight started when the Hill lines apparently sought to forestall the St. Paul road, which, with its Puge sound extension, will soon be in a post tion to make trouble in regard to rate and mail contracts. Both of these moves took the con petitors of the Burlington by surpris and caused no end of scurrying and consultation.

get a line on prices.

down in history as one of the most spectacular financial geniuses, most daring stock speculators and greatest railroad magnates of his time. He was born at Hempstead, L. I., February 25, 1848, the son of Rev. Orlando Harriman, Jr., rector of an Episcopal church in that town, founded in 1702.

The early life of the future man of millions was one of great poverty. His father was a cultured but poor man, his mother came from an old aristocratic, but equally impecunious family of New Brunswick, N. J.

Edward H. Harriman received his early education at the district school and supplemented it by a two years' course in a boys' school under church auspices, where the sons of clergymen paid practically nothing for their education.

Edward Henry Harriman began his career as clerk in a broker's office on Wall street. He showed no unusual ability and for many years gave no promise of his later brilliant development. Socially he was well liked and those who knew him at that time described him as a sociable young man, always full of fun. He was noted, however, for a mind of his own. What he wanted he generally obtained, but his desires and ambitions were, at that time, at least, neither very sweeping nor particularly important.

How he obtained his start and the funds which enabled him to buy a seat on the New York stock exchange, have marks. The Daily News points out never been clearly explained. The most widely accepted explanation, however, was to the effect that during the famous "gold corner" engineered by Gould, Fisk, Kimber and others, Edward H. Harriman plunged with all his own money and some borrowed from

Squaw's Claims Settled.

San Francisco, Sept. 10. - Heirs named in the will of John R. Hite, a millionaire mining man of Mariposa, Cal., have effected a settlement with his Indian widow, it was announced today, and within a week more than \$6,-000,000 will be distributed. Hite was a pioneer in the California gold fields pof preparation for the expedition." and married an Indian woman, from whom he afterwards separated, making an allowance for her maintenance. She was not provided for in his will and the contest followed at his death. The suit was compromised for \$100,000.

Suffering Follows Floods.

Monterey, Mexico, Sept. 10 .- Believing that the people in the outlying districts are facing starvation and death as a result of the raging waters, several expeditions are being formed here today to go to their relief. A priest arriving from Ascension states that the town and its population of 2,-000 souls have entirely disappeared. The people have fled to the hills or have perished, either in the flood or from hunger.

were at his bedside when death occurr ed. He had been ill for two years. Accompanied by Mrs. Corbin and his daughter, Mrs. Parsons, of Ardsley,

N. Y., he went to Carlsbad for treatment on June 12 last. The waters there appeared to have improved his condition after two weeks' stay, and he returned to England, where his former trouble recurred and he went to Paris to consult physicians. The trouble developed more seriously while in Paris, and he determined to return to America. J. G. Schmidlapp, of Cincinnati, met him in Paris and with Mrs. Corbin they sailed for New York on the steamer Rotterdam, which arrived here Sunday. The general was taken to the Hotel Martinique in this city, and Dr. Frank Erdwurm was summoned. The physicians advised that General Corbin and he was taken there on Monday. The operation was performed Tuesday morning by Dr. Lauceus Hotchkiss.

Englishmen See the Joke.

London, Sept. 9 .- The morning papers apparently consider that the Polar controversy has passed the stage where serious comment will prove any useful purpose. All statements from either side tending to throw light on the disputed points are printed in full, but most of the papers either refrain from making editorial comment or confine themselves to a few semi-humorous rethe complete unreliability of evidence from Eskimos, who are likely to say anything calculated to please.

Both Stories Undoubted

Rome, Sept. 9 .- Commander Cagni, who was with the Duke of Abruzzi on his Polar expedition, said today : "Tha temperature, the position of the newly depth. discovered land and his apparent lack
