## PEARY DOUBTS COOK.

### Says He Was Never Out of Sight of Land in North.

New York, Sept. 8.—The following dispatch was received here early today: "India Harbor, Labrador, by wireless, via Cape Ray, Sept. 8.—Melville E. Stone, Associated Press: 'I have nailed the Stars and Stripes to the North Pole. This is authoritative and correct.

"Cook's story should not be taken too seriously. The two Eskimos who accompanied Cook say he went no distance north and not out of sight of land. Other members of the tribe corroborate their story. (Signed) 'Commander Robert E. Peary.'"

### Peary Has Added Nothing.

Christiana, Sept. 8.—Captain Roald Amundsen, discoverer of the Northwest passage, said today:

"It is quite evident that Peary discovered no trace of Cook in the continually drifting ice. Peary probably, as he planned, made his dash from a more eastern point than Dr. Cook, but many circumstances may have arisen to cause a change."

"Do you think that Peary obtained more valuable scientific results than Cook?" Captain Amundsen was asked. "Probably not," he replied. "They were equally equipped with only absolutely necessary instruments. Geographically, their achievements are of great importance, and it is very important also that the two reports be compared."

## POLICEMEN SAVE LIVES.

### Heroism Displayed at Hotel Fire in San Francisco.

San Francisco, Sept. 8.—More than 60 persons were saved from death by patrolmen yesterday when a fire that broke out in the Vendome hotel on Pacific and Montgomery avenues in the Barbary coast district, practically gutted the structure, doing damage estimated at \$60,000. In addition to the destruction of the hotel several places adjoining were damaged slightly.

The fire was first discovered by Policeman J. J. Manion. By the time the fire fighters had arrived the flames were eating their way through the first floor of the building. At the risk of their lives a squad of policemen went into the hotel and succeeded in arousing the sleeping occupants and leading them to safety.

When the guests were awakened many of them became panic stricken and refused to go down the stairway, up which great rolls of black oil smoke belched from the burning tanks in the basement. As a result the firemen and policemen were compelled to carry a number of women down extension ladders raised to the windows of the second, third and fourth floors. Meanwhile the hosemen worked their way into the basement of the hotel and fought the oil fire. Several were overcome but none were injured. It is believed the fire was caused by an explosion of gas which accumulated in the oil tanks in the basement.

### Roosevelt to Dig Canal.

New Orleans, Sept. 8.—Former President Roosevelt is to take charge of the work of pushing the Panama canal to completion, according to a report current in official circles in Panama. This statement was made here today by T. W. Harrison, of Columbus. Harrison is attached to the engineering department of the canal, and has just arrived here. He declared that President Taft was not dissatisfied with the present canal administration, but had already arranged for Colonel Roosevelt to take charge of the work when he returns from his hunting trip in Africa.

### More Floods in Mexico.

Mexico City, Sept. 8.—Scores of persons are believed to have lost their lives as the result of a second flood which descended upon Tula yesterday just as it was slowly recovering from the effects of the first deluge. Many rich plantations are in ruins and the property loss will run into the thousands. The food supply is also running low and conditions are becoming desperate. The exact number who met death in the second flood cannot be ascertained at this time, but it is feared that the total will be heavy.

### Deluge in Kansas Capital.

Topeka, Kan., Sept. 8.—This city is flooded today as the result of the heaviest rain ever recorded in this vicinity. The street cars have been put out of commission. The water in the streets is from three inches to three feet in depth. The rain began late yesterday and continued throughout last night and today. At 10 o'clock this morning the official rain gauge showed that 8.7 inches had fallen. All the streams in this section are swollen.

### Buys Subtreasury Site.

San Francisco, Sept. 8.—The United States government is now the owner of a plot of ground on the southwest corner of Pine and Sansome streets, where the subtreasury building will be erected. Yesterday afternoon the government officials turned over to the representatives of Virginia Vanderbilt a draft for \$375,000 in payment for the corner. At present the subtreasury is situated on Commercial street.

### Bradbury Handling Jute.

San Rafael, Cal., Sept. 7.—William B. Bradbury, the Corte Madre capitalist, who began yesterday a year's incarceration in the penitentiary at San Quentin, commenced work today in the jute mill, after an attempt to escape on the plea of illness. He slept last night in a cell room with 200 other convicts, including a number of murderers and other desperate criminals.

# NEWS FROM THE NATIONAL CAPITAL

## VACANCIES ARE LIKELY.

### Justices Harlan and Moody in Poor Health and May Retire.

Washington, Sept. 10.—When the Supreme court of the United States convenes for the October term it is probable that two of the chairs upon the bench, those that have been occupied by Justices Harlan and Moody, will be vacant.

Justice Harlan is eligible for retirement, but until recently his health has been exceptionally robust for one of his age. It is reported that he is likely to go from his summer home at Murray bay to California to recuperate, and that unless a change of climate restores his health he will retire.

Justice Moody, who recently suffered a severe attack, does not recover, it is stated.

Reports concerning the condition of Justice Day are not reassuring. Chief Justice Fuller is eligible for retirement.

President Taft will, it is believed, have within a short time the designation of at least one Supreme court justice.

Governor Hughes, of New York, and Justice Lurton, of Tennessee, are among the prominent lawyers mentioned for the first vacancy.

## BARBERS AND BAR BOYS USED

### All Entrymen Engaged in Conspiracy From New York.

Washington, Sept. 11.—The entries on account of which Dally, Sully, Ireland and Wells were arrested involve about 60,000 acres of valuable coal land in the Lander, Wyo., land district. The entries were made in 1906, and it is charged that all the entrymen, about 190, were residents of New York city, most of them being barbers and bartenders. In the indictment it is asserted that the entrymen engaged in a conspiracy with Dally, Sully, Ireland and Wells and others to defraud the government, the entries being made in the interest of the Oil Creek Coal company and the Northwestern Coal company.

Others indicted were Samuel W. Gebro, of Montana; Thomas McDonald, of New York, and John Nelson and John B. Wright, of Wyoming.

### Parts of Canal Finished.

Washington, Sept. 11.—"Good progress is being made on the Panama canal and four sections of it have been finished," said Colonel Goethals, chief engineer in charge of the construction work, upon his arrival here last night from the isthmus. "The canal must be finished some time and the excavations will fall off from time to time as each part is finished," he said, when asked to what he attributed the decrease in the average excavations in August compared with those of the preceding month. "If the work for Culebra cut alone were figured out, it would be found we are doing more there at the present than at any previous time."

### Railroads May Refund.

Washington, Sept. 10.—An order involving approximately \$1,000,000 in reparation was issued by the Interstate commerce commission today. It includes claims in the Central Yellow Pine association territory—Louisiana, Mississippi and western Alabama—and involves a refund of amounts paid by shippers of lumber from the territory to points in other states in which an overcharge of 2 cents a 100 hundred pounds was collected by various railroads.

### Taft Has Heard Ballinger.

Beverly, Mass., Sept. 11.—Although he had concluded his conference with Secretary Ballinger today President Taft refrained from making any statement as to the controversy that brought the cabinet officer to Beverly. Mr. Ballinger has returned to Washington. He will not see the president until September 29, in Seattle, unless he finds time to reach Colorado on the day the president visits the Gunnison irrigation project.

### Great Secrecy at Beverly.

Beverly, Mass., Sept. 10.—Interest in the errand that brings Secretary of the Interior Ballinger to the summer capital was intensified today by the greater secrecy with which his conference with President Taft was veiled. The secretary remained in Boston throughout the day, in company with Mr. Lawlor, assistant attorney general for the Interior department, awaiting an opportunity to renew his deliberations with the president.

### Foreign Capital for Peru.

Washington, Sept. 9.—Leslie Coombs, the United States minister at Lima, Peru, has reported to the State department under recent date that a London syndicate composed of the Bank of London and Peru, the London Bank of South America & Mexico, W. R. Grace & Co., and Baring Brothers, sharing with the German bank and Spitzer, of Paris, have taken some \$1,500,000 of the bonds of the Electric Tram & Electric Lighting company.

### Rear Admiral Sperry to Retire.

Washington, Sept. 7.—Rear Admiral Sperry, who was in command of the American battleship fleet on the memorable cruise from San Francisco to the Philippines and through the Suez canal to Hampton Roads, will be placed on the retired list tomorrow. He then will have reached the age limit of 62 years. The admiral is now on duty at the naval war college at Newport.

## GREAT AREA OF DRY FARMS.

### Government Sets Aside Nearly 65,000,000 Acres as Homesteads.

Washington, Sept. 7.—According to a statement issued today by the secretary of the interior, almost 65,000,000 acres of land has been designated as subject to entry under the enlarged homestead act, providing for dry farm claims of 320 acres instead of 160 acres.

The land thus designated is distributed as follows: Colorado, 20,250,000 acres; Montana, 26,000,000; New Mexico, 1,550,000; Oregon, 1,300,000; Washington, 3,500,000; Wyoming, 11,900,000.

Large areas in Utah have also been designated under the special provision of section 6 of the act exempting from residence.

The lands are non-mineral, non-timbered, not susceptible to irrigation and, because of insufficient rainfall, will not produce remunerative crops unless cultivated by some method such as "dry farming." Residence must be established on the land by the entrymen within six months from date of filing and be continued, together with cultivation and improvement of the land, for five years.

### Ban on Certificates.

Washington, Sept. 11.—Secretary Ballinger received today from Attorney General Wickersham a second opinion, holding that the co-operative plan of building government irrigation projects is illegal. Under this plan settlers were permitted to aid in building canals, laterals, etc., and were paid in certificates, which later were to be accepted by the government from settlers in payment for water rights in lieu of cash. Secretary Ballinger says no further certificates will be issued, but that all outstanding certificates heretofore issued by the reclamation service will be redeemed at full face value and paid in cash as quickly as the money is available in the reclamation fund. He expected all such certificates to be redeemed in the near future.

### To Gaze From High Point.

Washington, Sept. 8.—Scientists will soon have at their disposal the highest meteorological and astronomical observatory on the Western continent. It is on the top of Mount Whitney, California, over 14,000 feet above sea level. Realizing the value for effective astronomical and meteorological work of an observatory far above the clouds, the Smithsonian institution decided to build a suitable one on Mount Whitney. It has been difficult to construct the small three-room stone structure, as it was necessary to take all the material to the great height on pack mules over narrow, rocky trails.

### Studying Up Coal Cases.

Washington, Sept. 9.—Special Agent Sheridan, of the land office, who has been assigned to conduct the government's case at the hearing on the Cunningham Alaska coal land entries, to begin at Seattle October 15, is now in Washington familiarizing himself with such records in the case as are now on file in the general land office. Upon completion of this investigation he will return to Seattle in time to begin the hearings at the time set.

### Will Agree on Boundary.

Washington, Sept. 8.—The boundary controversy between Peru and Bolivia seems near an amicable settlement. The State department has received a telegram from Minister Stutesman, of Lapaz, Bolivia, reporting that the Bolivian congress referred the whole matter to the executive department of Bolivia for treatment. This action is considered a hopeful sign of friendly adjustment by direct understanding of the two principals, Bolivia and Peru.

### Naval Contracts Signed.

Washington, Sept. 9.—Contracts with the San Francisco Bridge company for the construction of the Pearl harbor drydocks, Hawaii, at \$1,700,000, and with the Maryland Steel company, of Sparrows Point, for the construction of a fleet collier at \$889,000 were signed late today by Acting Secretary of the Navy Winthrop.

### Cotton Crop Shorter.

Washington, Sept. 11.—The first bulletin of the director of the census showing the operations of the cotton ginner for 1909 was issued today. It covers the period up to September 1 and shows that for that time 377,552 running bales have been ginned, as against 402,229 for the same period last year.

### Many Census Jobs to Fill.

Washington, Sept. 7.—The bureau of the census announced today that approximately 3,000 temporary clerks would be appointed in connection with the work of taking the 13th decennial census. The first examination will be made before January 1, and not many will be made before April, 1910.

### Sat in Schley Inquiry.

Washington, Sept. 8.—Captain Samuel C. Lemley, formerly judge advocate general of the navy, who became prominent in connection with the famous Schley court of inquiry, died in St. Elizabeth's hospital in this city last night.

### Yellow Fever in Venezuela.

Washington, Sept. 7.—Surgeon General Wyman, of the marine hospital corps, was today advised by cable of the appearance of yellow fever at La Guayra, Venezuela.

## TUBERCULOSIS INCREASES.

### Nathan Straus Says Plague is Gaining Against Fight.

Budapest, Sept. 7.—Nathan Straus, the New York philanthropist, who on Tuesday appealed to the International Medical congress to stop the spreading of disease that results from the use of infected milk, today submitted detailed figures to that body to prove that tuberculosis, instead of being conquered, is on the increase.

He cited the official vital statistics of New York city, which was credited by Dr. Robert Koch with leading the whole world in the fight against tuberculosis. He showed that the increasing skill of the physicians in treating tuberculosis had reduced the death rate from this disease in proportion to the population from 2.42 per 1,000 in 1902 to 2.39 per 1,000 in 1907, and 2.29 in 1908, but he showed that the number of deaths from tuberculosis in proportion to the total number of deaths from all causes had increased from 13.04 per cent. in 1902 to 13.90 in 1908.

## ROBBED MAILS WHOLESALE.

### Man and Woman Caught in Chicago Head Big Gang.

Chicago, Sept. 7.—In the arrest of Allen Posner, 26 years old, and a young woman giving her name as Emily Snyder, 20 years old, who are in custody at the Harrison street police station, Postoffice Inspector Stuart believes he has part of a gang of mail thieves who have been operating in Chicago and other cities. Two men are being sought as accomplices of Posner and the Snyder girl in the theft of letters and chashing of checks found in stolen mail. Posner and a man named Gray and another man whose name is being kept secret are said to be under indictment in New York for a \$1,000 theft of jewelry. The Snyder girl is said to have come to Chicago with Posner four months ago.

It is charged that the pair operated by stealing letters from residence mail boxes after delivery by letter carriers. Posner is declared to have admitted cashing a number of stolen checks. According to the postal authorities, Posner and his associates stole \$1,000 worth of jewelry and other valuables which were brought to Chicago.

## MORE MEXICAN FLOODS.

### Cloudburst Floods Rivers and Overflows Fertile Valleys.

Mexico City, Sept. 7.—A special dispatch received here from Morelia says that floods yesterday ruined a large section of the Zamora district. A terrible cloudburst in the mountains caused rivers and streams to overflow and miles of fertile valleys are under water.

Further details have been received here of the flood that swept the town of Tula, in the state of Tamaulipas, last Saturday. A wave between 45 and 50 feet high engulfed the lower half of the town. Two hundred houses and the San Juan bridge were carried away and many lives were lost. The storm raged for three days.

Terrible as are the conditions at Monterey, the correspondent declares they are just as bad at Tula and vicinity. The entire northeastern section of the state is said to have been laid waste. Railroad and telegraphic communication was destroyed and the population of Tula, some 7,000 persons, was cut off from the rest of the nation for four days. It will be six or eight months before the highways can be restored. Thirty bodies have been recovered and many bodies of shepherds and mountaineers are being washed down into the valley below.

## Cholera Loses Terrors.

Paris, Sept. 7.—Serum and vaccine for treatment of cholera has been discovered by Dr. Salambini, working under the direction of Professor Metchnikoff and Dr. Pierce Roux. Their serum has been tried in Russia in desperate cases and reduced the death rate, which was 50 per cent, to below 23 per cent. The vaccine is prepared by taking bacilli from the body of a cholera patient and making a culture thereof, which is injected subcutaneously into healthy persons. Local infection follows and immunity results.

## Greek Princes Removed.

Athens, Sept. 7.—King George today will sign a decree placing Crown Prince Constantine and Prince Nicholas, at their own request, on the unattached list of the army and granting the other princes in the army two or three years' leave of absence to study abroad. Brigadier General Smolenski will replace Crown Prince Constantine as commander in chief and Colonel Cortbas will be appointed commander of the army corps at Athens.

## Tornado Wipes Out Town.

Catania, Sicily, Sept. 7.—The village of Scordia was about wiped out today by a tornado. Five persons were killed and 50 injured. One hundred houses were completely demolished and many others unroofed. The tornado was accompanied by a torrential rain. The population took refuge in houses on the Quarter Santa Maria, where the statue of Santa Maria Maggiora fell, adding terror to the superstitious element.

## Tennessee Stays Dry.

Chattanooga, Tenn., Sept. 7.—The legislative act prohibiting wholesale as well as retail sale of liquor in the state was upheld except as regards sales for shipment outside of the state, in an opinion handed down in Chancery court today by Chancellor T. M. McConnell.
