Katie Lee and Willie Gray. Two brown heads with tossing curls, Red lips shutting over pearls, Bare feet white and wet with dew, Two eyes black and two eyes blue; Little boy and girl were they, Katie Lee and Willie Gray,

They were standing where a brook, Bending like a shepherd's crook, Flashed its silver, and thick ranks Of green willow fringed the banks; Half in thought and half in play, Katie Lee and Willie Gray.

They had cheeks like cherries red; He was taller-'most a head; She, with arms like wreaths of snow Swung a basket to and fro; As she lottered, half in play, Chattering to Willie Gray.

'Pretty Katie," Willie said-And there came a dash of red Through the brownness of his cheek-Boys are strong and girls are weak. And I'll carry, so I will, Katie's basket up the hill."

Katle answered, with a laugh, "You shall carry only half." And then, tossing back her curls, Boys are weak as well as girls." Do you think that Katle guesses Half the wisdom she expressed?

Men are only boys grown tall, Hearts don't change much, after all; And when, long years from that day. Katle Lee and Willie Gray Stood again beside the brook, Bending like a shepherd's crook,

Is it strange that Willie said, While again a dash of red Crossed the Brownness of his cheek, I am strong and you are weak; Life is but a slippery steep, Hung with shadows cold and deep

Will you trust me, Katle dear? Walk beside me without fear. May I carry, if I will, All your burdens up the hill?" And she answered with a laugh, "No, but you may carry half."

Close beside the little brook, Bending like a shepherd's crook, Washing with its silver hands, Late and early at the sands, Is a cottage, where, to-day, Katie lives with Willie Gray.

In a porch she sits, and lo! Swings a basket to and fro, Vastly different from the one That she swung in years agone; This is long, and deep, and wide, And has-rockers at the side!

SERMONS AND SLEEP.

A Comforting Theory in Regard to Doging in Church. The French scientists are the most

consoling people in the world. They an original character, sir, but I'm are always working out some explanablessed if you don't jist say the same tion that affords consolation. Here comes one with a theory about sleeping in churches that will be a relief to both pastor annd sleeper.

According to this French psychologist's theory, persons are inclined to 'doze" in church because of the devout attention they pay to the services. 'In endeavoring to fix every word in their minds they put themselves into a sort of trance. It is about the same as what is called self-hypnotism, and the more closely one follows the minister the more likely he is to find himself unable to remain awake.

For a good many years the pert paragraphers have had a great deal to say about church sleepers, and usually the preacher has gotten the worst of the argument. All manner of devices have been suggested by the humorists as aids to lengthy sermons, even to the placing of electric needles in the cushions to awaken the sleepers at the pressure of a button by the minister. But now that the inclination to slumber in church has been accounted for upon purely scientific grounds, the remedy for the evil will probably be abated in a practical way-perhaps by encouraging the employment of pastors who are | man. incapable of holding one's attention at all.-Dayton News.

"Good-morning, madam," said the slender, solemn-faced man with the pecultarly unnatural looking hair. "I am introducing my new butter, which I sell at a much lower price than that charged by other refiner-I mean creamerles."

"Petroleum, madam, is one of our greatest health-giving agents," explained the stranger. "Besides, when the butter gets old you can melt it and burn it in your lamp. Two pounds? Thank you, madam. We should all rejoice in doing good. Here are \$10,000. 000 for your husband to build a college with."

And the new milkman stepped blithely out of the yard.-Life.

Save the Babies.

NEANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twentytwo per cent., or nearly one-quarter, die before they reach one year; thirtyseven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Letters from Prominent Physicians addressed to Chas. H. Fletcher. Dr. A. F. Peeler, of St. Louis, Mo., says: "I have prescribed your Castoria.

in many cases and have always found it an efficient and speedy remedy." Dr. E. Down, of Philadelphia, Pa., says: "I have prescribed your Castoria in my practice for many years with great satisfaction to myself and benefit to my patients."

Dr. Edward Parrish, of Brooklyn, N. Y., says: "I have used your Castoria in my own household with good results, and have advised several patients to use it for its mild laxative effect and freedom from harm."

Dr. J. B. Elliott, of New York City, says: "Having during the past six years prescribed your Castoria for infantile stomach disorders, I most heartily commend its use. The formula contains nothing deleterious to the most delicate of children."

Dr. C. G. Sprague, of Omaha, Neb., says: "Your Castoria is an ideal " medicine for children, and I frequently prescribe it. While I do not advocate the indiscriminate use of proprietary medicines, yet Castoria is an exception for conditions which arise in the care of children." Dr. J. A. Parker, of Kansas City, Mo., says: "Your Castoria holds the

esteem of the medical profession in a manner held by no other proprietary preparation. It is a sure and reliable medicine for infants and children. In fact, it is the universal household remedy for infantile allments." Dr. H. F. Merrill, of Augusta, Me., says: "Castoria is one of the very

finest and most remarkable remedles for infants and children. In my opinion your Castoria has saved thousands from an early grave. I can furnish hundreds of testimonials from this locality as to its efficiency Dr. Norman M. Geer, of Cleveland, Ohio, says: "During the last twelve

years I have frequently recommended your Castoria as one of the best preparations of the kind, being safe in the hands of parents and very effective in relieving children's disorders, while the ease with which such a pleasant preparation can be administered is a great advantage."
