

## **Machine Guns Work Havoc Among Government** Forces.

## MARCH ON CAPITAL EXPECTED

#### Estrada Wins a Complete Victory U. S. Regular Captain in Command On Firing Line.

Bluefields, Nicaragua, Dec. 23. - The sharply defined. The dark mass of the revolutionists under General Estrada have completely routed the Zelayan forces near Rama. Estrada has captured Becreo, Vasquez' strongest posithe line, which stretches for eight miles.

Yesterday the forward movement began, detachments being sent out under Generals Uis Mena, Fornos Diaz, Al-fredo Diaz, Chamorro and Matutty.

It was General Menas' task to outflank Gonzales, who directed the de- minutes. fense of the great body of the government troops. These were in large numbers and well entrenched, but Estrada's followers were armed with the were brought into play to clear the trenches. Casualties on the government east. side were high, the greatest execution being done at Recreo, which the revolutionists finally took by assault.

Among those in the revolutionary army were Captain Godfrey Fowler, formerly of the Thirty-third infantry, U. S. A., who was in command on the firing line.

Tatumbia was captured this after-noon by General Mena after a bloody fight. Tatumbia was one of the strongest positions of the government forces but the revolutionists were in greater numbers and had effective artillery.

General Zelledon arrived this morning from Monkey Point with 300 men and one Hotchkiss. He left this after-noon for Rama. The steamer Utstein arrived this afternoon with four Maxims and 1,000 rifles.

The fighting still continues at the upper end of the Zelayan trenches, but it is only a matter of time before the revolutionists will take the remaining strongholds. Several hundred prisoners are said to have been captured by General Estrada.

Word has reached here that Zelaya has determined to retain the position of commander-in-chief of the army.

Two hours later an eager shout from the waiting crowds announced its re turn. Slowly its light swept the heav ens. It circled four times above the latest equipment and machine guns city and then disappeared, finally head-

## Marlboro Sights Airship.

Marlboro, Mass., Dec. 24 .- An air ship was sighted over Marlboro early tonight, going northwest at 60 or more miles an hour. Persons in all sections of the city reported having seen it. Its general course, they say, was in the direction of Clinton.

#### SIGHTS ABANDONED WRECK.

Japanese Steamer Reports Disaster Off Cape Flattery.

Seattle, Dec. 24 .- Another probable narine disaster off the coast of Washington was recorded today, when the Japanese steamer Kaga Maru reported to the wireless station at Cape Beal that the American schooner Susie M Plummer was in distress and had been abandoned 100 miles west and south of Cape Flattery.

No news regarding the extent of the schooner's trouble or the fate of the crew was contained in the brief mesis on her way to the Orient.

The United States lifesaving tug Snohomish left her station at Neah Bay at 4 o'clock this afternoon to go

to the aid of the schooner's crew. The Susie M. Plummer, a vessel of 920 tons, gross, sailed from Everett, Wash., December 5, with a cargo of lumber for San Pedro, Cal. She is owned by W. G. Tibbits, of San Fran-owned by W. G. Tibbits, of San Francisco, and was built in 1890 at Thomaston, Me. She was commanded by Cap trict has just been set up by the Vale receive this year will be a rope of mag- tain Hansen and carried a small crew.

OREGON RICH IN GOOD OIL.

in Malheur County.

Vale-Every day's boring in the Vale oil fields increases the certainty that Oregon is destined to become one of the greatest oil producing states in for 15 minutes, all the time at a height the country, say prospector and oil experts who have witnessed the results of the well-sinking now in progress by half a dozen different companies in Northern Malheur county.

ter sinking a well 1,700 feet and getting well into a chocolate formation, which is regarded as a sure forerunner of oil, capped the well and refuse ab-

sighted over Marlborough at 5:20 operating in the district to have been o'clock. The 16 miles between this city prompted by the fact that oil was actually struck in the Malheur well and that the company prosecuting the development work has some reason for not allowing it to become known that oil has actually been found in commercial quantities. The Baker-Malheur company is down 900 feet and has let a contract for sinking its well 1,100 feet deeper, having taken this action after oil expects from Pennslyvania and California had expressed the belief that oil would be struck at a depth of 1800 to 2000 feet.

> The Columbia Oil & Gas company, which is largely owned in Spokane, is down 1200 feet with a 12 inch drill and is passing through the same form ation that was found in the celebrated Kern river district in Southcompany, paying 95 cents per bushel. ern California. It was from this well that the sample of oil was procured by the special government representative of the geological survey whose report on the discovery resulted in a recommendation being made by Secretary of the Interior Ballinger that the whole district be withdrawn from entry and reserved as a source of fuel supply for the future use of the United States DBVV.

The well being sunk by the Eastern Oregon Oil company is down 800 feet and has passed through two sage from the Japanese vessel, which stratas of oil sand. The drill in this well recently encountered hot salt water, which is regarded as a sure indication of oil in commercial quantities.

> The Mammoth Oil & Gas company is another of the companies sinking a well in the district. This company is owned by men who have operated in One of the best drilling rigs in the dis-Oil & Gas company, which is prepared

Hundreds to Escape-Fire Prevents Recovery of Bodies.

St. Louis, Mo., Dec. 25 .- Eight men were killed and the lives of 400 persons were imperiled by an explosion of gas in mine A of the Chicago & Carterville Coal company at Herrin, Ill., late Thursday. Open lamps carried by the mine engineer and his assistants caused the disaster, according to a long-dis-tance telephone message from the mineoffice to the Associated Press. Therewere three men and a boy in this party. All lost thir lives.

Prompt action by the management, resulted in the safe exit of the hundreds of men at work below ground. Within five minutes after the first report of the explosion, miners in the immediate vicinity of the accident were started toward the surface and on the return trips of the cages rescuers werelowered to entries No. 7 and No. 8, west, where the catastrophe took place. Among the dead were: W. T. Pierce, mine engineer.

Eugene Barrett, assistant engineer.

Thomas Williams, assistant manager, Thomas Guinney, superintendent or the mine, and Robert Huston, manager,

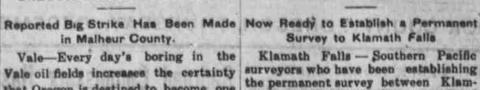

headed the first relay of rescuers. Despite the black damp that trowed into the chambers adjoining those in which Pierce and his party were killed, these-men plunged into the workings. Three bodies blocked their path.

Hasty examination showed that the men were alive, and they were rushed to the surface. One was A. J. Huston, brother of the manager. The others, Charles Klem and Albert Shelton, and Huston were revived, and all are expected to recover from the effects of the gas.

The rescuers next found the bodies of Snyder, Greeco and Romeo, miners, None of these men had been burned, the condition of the corpses testifying to the force of the concussions. The body of Harbor, a miner, was badly burned, the features being scorched almost beyond recognition.

Efforts of the rescuers to penetrate more deeply into the workings were repulsed by increasing afterdamp. The ventilating apparatus of the mine had not been damaged, but it could not cope successfully with the gases, and Guin-ney and Huston and their helpers were forced to retreat, leaving the bodies of Pierce and his companions. The fire also began to gain headway, and it is not expected the bodies can be recovered before tomorrow.

News of the explosion soon spread through Herring; and women and children rushed at once to the shaft-house

#### SKY LIGHTS SEEN AGAIN.

# by Airship.

Boston, Dec. 25 .- Following the report from Worcester Thursday night of the discovery above that city a strange moving light, apparently the search-light of a dirigible aircraft, last night brought stories of the observance of similar lights from villages east of Worcester, and even from Boston Common. People in Marlboro, South Fremlington, Natick, Ashland, Graf-ton, North Grafton, Upton, Hopedale and Northboro turned out in throngs last night and saw a mysterious light in the sky. Many declared that it had the ap

pearance of a strong light and, while they could discover no framework behind it, such as an aeroplane would have, they were positive that the light could not be that of a balloon because it moved as if under control and apparently against the wind.

Wallace E. Tillinghast, a Worceater man who recently asserted that he had invented a machine in which he had goue from Worcester to New York and return and who, it was thought, might have been the navigator of the supposed aircraft, remained noncommittal today.

#### Cheer in Liner's Cargo,

New York, Dec. 25,-Christmas cheer from Europe for thousands in America was brought by the liner Teutom which strived with 4,106 sacks of Christmas mail. Mrs. Russell Sage made her customary Christmas offering to Central Park employes. This year her gift amounted to \$1,925, consisting of 385 \$5 gold pieces, one for every man and woman in the park paid less than \$3 a day. Bluejackets from the ten battleships of the Atlantic fleet already in port for the Christmas holi-days overflowed the city yesterday and last night.

### Lottery Agents Caught.

Chicago, Dec. 25 .- Two men alleged to be foreign lottery agents have been arrested by postal inspectors. They are Samuel Freudenberg and Herman Kompel. Lottery tickets, lists of drawings and advortising matter exploiting the lotteries were seized. Advertising mat-ter of the "156th Royal Saxony Lottery" found in the Freudenberg house said that the total amount of money be distributed would be 16,469,200 marks, nearly \$4,000,000.
