At the first sign of rheumatic pains or backache, or a feeling of being generally run down and weakened, the following simple prescription should be used:

"One ounce compound syrup Sarsaparilla; one ounce Toris compound; half pint high grade whiskey. Mix them and take a tablespoonful before each meal and at bedtime. The bottle must be well shaken each time."
Any druggist has these ingredients or he will get them from his wholesale house.

Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs & Elixair of Scenna which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed, as the best of remedies when required are to assist nature, and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally. BECAUSE HE LOVES HER.

Reason Why a Man Marries a Girl and Makes Her a Slave.
A young man not many years ago began going to see a girl; he kept her out on the front porch and hanging on the front gate late at night, and finally he married her.

The girl's father is in good circumstances, but the young man is poor, so for the first time in her life she began to know privation and want, the Memphis News-Scimitar says.

She cooks for him, cleans, sews, mends and slaves for him.

Why has this man put this woman in a position where she must experience hardships in addition to his tyranny?
Because he loves her.

This is the common interpretation of love, the sweetest word in the language.

Because he loves her, many a man has brought many a woman down to a hell, which she has loyally striven to turn into a heaven.

Woman is so constituted that so long as she believes herself loved and appreciated she can forgive anything and endure anything and still be happy.

A wife is the only laborer on earth who works for her board and clothes and is expected to be grateful for the privilege.

The husband who doesn't economize on expressions of affection or stint his wife on praise may do as he will without friction or argument.

So long as he does not sink the lover in the household he need fear no rival. He may forget every other rule, but if he remembers this all will be well.

Every woman is an idealist, and she will break her neck trying to live up to what she thinks a loving husband expects of her.

But even she appreciates a day off now and then.

Sitting alone at night waiting for a husband to come home doesn't thrill a woman with delight a bit more than it would a man.

Table Mountain.

At Capetown, in South Africa, where the traveler usually has the first glimpse of the continent, is Table Mountain, a magnificent natural curiosity which rises behind the city to the height of almost 4,000 feet and has a level top about three square miles in area. Its resemblance to a huge table is so marked that the dense clouds which collect at times around the summit are referred to as the tablecloth. A pretty little flower which is found nowhere else on earth grows on top, while on the northern side of its base is a similarly rare tree, popularly called the silver leaf tree.

Upon This Hint.

Priscilla asked John Alden why he did not speak for himself.
"You won't get a chance later," she warned.
Nothing daunted, he forthwith popped.—New York Sun.

It's easy for a woman to paint a pretty face—if she has one.

You May Need It

Ask your doctor about the wisdom of your keeping Ayer's Cherry Pectoral in the house, ready for colds, coughs, croup, bronchitis. If he says it's all right, then get a bottle of it at once. Why not show a little foresight in such matters? Early treatment, early cure.

A PRECOCIOUS DOG.

The Wonderful Feats He Performed For Joseph Jefferson.

There is a story that is told of Joseph Jefferson and the boys that had to do with the training of dogs. It appears that there was a gentleman in New Iberia who owned a very intelligent animal, and he was most anxious for Mr. Jefferson to see an example of his prowess. Accordingly he brought him to the island one day and put him through his various tricks, which were remarkably clever.

When the performance was over Mr. Jefferson expressed his appreciation and wonder at what the dog had done, but added that he had an animal that was even more remarkable. As the gentleman seemed to be in some doubt as to the truth of this statement the dog, a dejected, stupid looking beast, was produced, and Mr. Jefferson ordered him to go into his room and bring him a shoe.

Obediently the dog trotted into the house to presently appear with the shoe in his mouth. Taking it from him, Mr. Jefferson patted him upon the head and told him to return to his room and bring him the slipper for his left foot.

"And, mind you, bring the left one," he cautioned as the animal trotted away.

When he returned in a moment with the left slipper the gentleman could hardly express his astonishment, but Mr. Jefferson waved the matter indifferently aside.

"It is nothing," he said. "However, we will now try something a little more difficult." Then, turning to the dog, he spoke to him very slowly and carefully. "Now go into the library," said he, "look upon the bottom shelf on the right hand side of the room and you will see a set of Dickens. Bring me the second volume. Remember, now, the second volume; not the first or the third, but the second."

When the dog returned in a few moments with the second volume in his mouth the gentleman retired in the utmost confusion, declaring that in comparison with such a prodigy his own much vaunted animal was little better than an imbecile.

And it may add that Mr. Jefferson enjoyed the joke fully as much as did the boys, who, according to a prearranged plan, had placed each successive article in the prodigy's mouth. As to the prodigy, his one accomplishment consisted of trotting into the house and trotting out of it again.—Nevil G. Henshaw in Bohemian.

A Miracle of Science.

Aeroplane is another miracle of practical science—another impossibility shown to be possible—another dream of centuries realized, but realized in a manner which none but this generation could have understood. Will the history of the steam locomotive repeat itself? The actual maximum speed on railways is no higher to-day than it was sixty years ago, though, of course, the train loads are very different. Will it be so with the aeroplane?

What's in a Name?
An amusing story has been told concerning Mr. Phillips' classic drama, "Ulysses." When it was being played in America, two young girls were sitting together in the stalls at a matinee performance, and before the curtain rose the following conversation was heard: "Say, Maude, I know this play is going to be funny." "What makes you think so?" asked Maude. "Why, anybody could tell that from the name!" was the reply.—M. A. P.

Died at Eighty-eight as Predicted.
Prophesying early in life that she would live to see her eighty-eighth birthday, Miss Julia H. Hancock, of Brockton, Mass., died a few days ago on the day she had previously set for her death. Infirmities of age are given as the cause. She gave no particular reason for her prediction, although she seemed imbued with the belief that her prophecy would come true.
