Parks in New York.
The State of New York is very well supplied with parks. In his recent message Governor Hughes said: "The State's total holdings in the Adirondack and Catskill mountains now amount to 1,641,523 acres, of which 62,549 acres were required during the past year. The area of the proposed park is 3,312,564 acres. Adirondack Park is 3,312,564 acres and that of the proposed Catskill Park 676,120 acres, making a total of 3,988,684 acres."
When it is completed the Adirondack Park will be larger than the Yellowstone, which has 2,142,170 acres.

Out of Practice.
"Well, I've got a job at last. It begins to-morrow morning and it's in a factory where there are a lot of girls. I'm more than half afraid to tackle it."
"Afraid of the girls?"
"Naw. Of the work."—Cleveland Plain Dealer.

POWER OF THE IMAGINATION.

Illustrated to Mr. Billtops by His Experience with a Thermometer.
"I don't know when I've been so put out by a little thing," said Mr. Billtops, according to the New York Sun, "as I was by the discovery that my thermometer was four degrees wrong; it gave me a real hard little jolt for one thing, and then it made me realize that for two years I had been making myself uncomfortable over nothing."
"Out of doors I can stand the cold as well as anybody; but indoors I like to be warm; 72 is about what suits me in the house."
"Two years ago I bought a new thermometer, which I hung up in my room, and I haven't been warm there in winter since."
"Other parts of the house seemed all right; in the parlor and in the dining room they got it up to 72 apparently without any trouble, but in my room it never seemed to get above 68. I didn't shiver, but I never could get really warm, and one day I said to Mrs. Billtops:
"Elizabeth, why can't we get the heat up in my room? Why should my room be the only cold room in the house?"
"Mrs. Billtops comes in and stands around a minute and then she says:
"Why, Ezra, it's just as warm here as it is anywhere else."
"Nonsense!" I says to her. "Look at that thermometer! It's only 68 here and it's 72 this minute in the parlor."
"But Mrs. Billtops insisted that it was as warm in my room as it was anywhere else, and she said that probably the trouble was with my thermometer; that my thermometer didn't mark correctly, and I said it did, and I'd show her conclusively that the thermometer was all right, I'd prove to her that my room was cold. I'd put my thermometer right alongside the one in the parlor and she'd see it go up in no time to 72."
"So we put it out there, but it didn't budge—that is, upward—but it did go down one degree. Standing side by side with the parlor thermometer marking 72, mine went down to 67; they were 5 degrees apart."
"The temperature in the parlor, actually one degree colder than in my own room, had been entirely agreeable to me, while in my room, though it was actually warmer, I had, misled by my thermometer, never been able to get thoroughly and comfortably warmed up. Another illustration of the power of imagination."
"Now I've got a correct thermometer and I don't have any more trouble over the heat."

LEGAL INFORMATION

One voluntarily becoming a passenger on a street car so crowded that he is compelled to ride in the vestibule, with knowledge of a rule that persons riding on platforms do so at their own risk is held in Tompkins vs. Boston Elev. R. Co. 201 Mass. 114. 87 N. E. 488, 20 L. R. A. (N. S.) 1063, to assume the risk of injury from being compelled temporarily to alight to enable other passengers to leave the car.

That no question as to the title of the insured can be considered by referees appointed in accordance with a clause in a standard insurance policy which provides that, upon failure of the parties to agree as to the amount of loss, it should be referred to arbitrators, the award of a majority of whom should be conclusive as to the amount of loss and damage, is held in Dunton vs. Westchester F. Ins. Co. (Me.) 71 Atl. 1037, 20 L. R. A. (N. S.) 1058.

Under a statute requiring compensation to be made for all damage caused by the taking of land or by the change or discontinuance of a private way or by the taking of an easement, it is held in Davis vs. New England R. Co. 199 Mass. 292, 85 N. E. 475, 20 L. R. A. (N. S.) 1061, that recovery cannot be had by an abutting owner because of interference with the light, air or prospect of his property through an elevation of railroad tracks in the absence of any taking of his land or destruction of his easements.

The charter of a corporation showed that a large part of its capital stock had been actually paid in cash, when in fact it had been paid by assignment of patents applied for, but not then granted. Another person, relying on the recitations in the charter, loaned money to the corporation, for which later he sued. In McKee vs. Rudd, 121 Southwestern Reporter, 312, this question was squarely presented: Can a creditor rely upon statements made in the articles of association filed by a business corporation, and upon proof of the falsity thereof be permitted to recover against the parties signing the articles, in an action for fraud and deceit? The Missouri Supreme Court decided that the representation relied on, whether false or true, were made to the Secretary of State to procure a certificate of incorporation, and not to the plaintiff to secure credit.

A Subtle Force.
"What do you understand by 'magnetism' as so often applied to an actor's personality?"
"Magnetism," replied the manager, "is the force that draws dollars to the box office."—Washington Star.

If there are party guests at a house, the man of the house isn't the host; He is only the husband of the hostess.

Nowadays.
Mrs. Kowler—You've been buying some new furniture, I see. Installation plan, I suppose. That's the way I get mine.
Mrs. Crossway—No; not exactly. I'm buying this on the soap club plan.

Stomach Ills May Seem Trifles

At the start, but that is when you want to take the matter in hand. Neglect can only result the one way—sickness. The stomach is largely responsible for one's health and strength and as such it needs to be kept in a normal condition. If it becomes weak, the food remains undigested, ferments and causes untold suffering. Thus you lose the strength-giving properties of your food and you become weak and run down. This is very noticeable at the beginning of Spring when the system is overloaded with Winter impurities, the bowels clogged and the blood thick. No wonder you have the "Spring Fever." Commence taking Hostetter's Stomach Bitters this very day and cleanse the entire system. Then your Stomach Ills will also vanish. It is for Sick Headache, Indigestion, Dyspepsia, Spring Fever, General Debility and Malaria.

PISO'S

is the word to remember when you need a remedy for COUGHS & COLDS

KASPARILLA

This sterling household remedy has long been recognized as the best and safest Blood Purifier, the most successful prescription for spring humors and such disorders of the blood as boils, pimples, pustules, blotches, sores and cutaneous eruptions. Kasparilla is admitted to be the best remedy for that lack of energy and the peculiar debility so prevalent during the close of winter and the opening of spring. For derangements of the digestive organs it is a natural corrective, operating directly upon the liver and alimentary canal, gently but persistently stimulating a healthy activity. Its beneficial influence extends, however, to every portion of the system, aiding in the processes of digestion and assimilation of food, promoting a wholesome, natural appetite, correcting sour stomach, bad breath, irregularities of the bowels, constipation and the long list of troubles directly traceable to those unwholesome conditions. Kasparilla dispels drowsiness, headache, backache and despondency due to inactivity of the liver, kidneys and digestive tract. It is a strengthening tonic of the highest value.

The Youngest Admiral.

Captain David Beatty will shortly have the distinction of being the youngest rear-admiral in the British navy. His forthcoming promotion at the early age of thirty-eight has been the subject of a special Order in Council.

To qualify for promotion under the regulations a captain must have served during peace time for a total period of six years. The Admiralty petition sets forth that, owing to the abnormal shortening of the time on the captains' list, it is anticipated that Captain Beatty will reach his turn for promotion before he completes the full period of six years.

It is also pointed out that he was severely wounded in action in China, and was consequently prevented from receiving an appointment for a considerable period.

In these circumstances the Order directs that Captain Beatty shall be promoted to flag rank in his turn, notwithstanding the regulations.

Captain Beatty is an Irishman. His wife is a daughter of an American millionaire, the late Marshall Field, founder of the great dry goods store in Chicago.

Nelson was promoted to the rank of rear-admiral in his thirty-ninth year.
