I took two bottles of this medicine and was as well and strong as ever. I feel like a different person and recommend Hood's to any one suffering from catarrh."

 Visitor (in Washington)—Why is it that the capital of the United States can't support a better baseball club?

**WIRELESS GRAFT UP IN MILLIONS**

**Leaders of United Concern Arrested by Federal Officers.**

**Postal Inspector Says Officials of Company Sold Stock for Thousands and Times Its Value.**

New York, N. Y.—United States postoffice inspectors raided the handsome Broadway offices of the United Wireless Telegraph company today and caused the arrest of Christopher C. Wilson, president of the company; Samuel S. Bogart, first vice-president, and William W. Tompkins, president of the New York selling agency, which, officers of the wireless company say, was formerly their fiscal agent, but has ceased to represent them.  
 Chief Inspector Mayer subsequently gave out a statement, in which he charges that, although the company has been running at a loss, the price of its shares have advanced by manipulation to fictitious values and that individual officers of the company have sold out their stock to the general public at a profit estimated in one instance at between \$5,000,000 and \$10,000,000.  
 Wilson was released on \$25,000 bail and Bogart on \$10,000 bail for appearance on July 12, when a further hearing will be held before a Federal commissioner.

Tompkins was arrested at his farm near Mahop Falls, Pa., and brought here. He could not find \$10,000 and spent the night in the Tombs.  
 The specified instance of alleged fraudulent use of the mails is given as the mailing of a letter on March 3, 1910, to Michael O'Brien, of Waterbury, Conn.  
 "There are 28,000 shareholders of the company throughout the country," said Inspector Mayer, in his statement, "many of whom have placed their savings in the stock of the company through false representations made by its officers."  
 "The real assets of the company, consisting of land stations, patents, manufacturing plants and real estate of all kinds, appear to be worth, at a conservative estimate, \$400,000, or an actual worth of 2 cents a share."  
 Two million shares have been issued at a par value of \$10, but the stock has recently been put up to \$50 a share.

"Thus," argues the inspector in his statement, "by taking the last amount quoted (\$400,000 of actual assets) at \$50 a share, the stock is really worth as \$400,000 is to \$1,000,000,000, or \$0.0004 a share."  
 The inspector says the company was originally incorporated as the Amalgamated Wireless Sureties company in 1904. In 1906 it took over the assets and business of the defunct American De Forest Wireless Telegraph company, which was then running at a loss, exchanging therefor its own securities on a ten for one basis.  
 "At this time," says the inspector's statement, "when officers of the De Forest company were secretly conspiring to abandon it and leave the stockholders a mass of worthless securities, its stock had been forced to an alleged value of \$12.50 a share, or \$2.50 above par."  
 "Another item in the statement sent out to stockholders was patents and patent rights, \$5,520,233. The affairs of the company were recently audited by a firm of licensed accountants, who placed the book value of all patents at \$220,233.  
 "The officers of the company have sold to the public thousands of shares, claiming all the while that they were holding their own shares and putting the money received from the public into the plants of the company. One of the officers is believed to have cleaned up \$5,000,000 and possibly \$10,000,000 at prices ranging from \$10 to \$50.

**Water Route to Be Used.**  
 North Yakima, Wash.—Two of the large department stores of Kennebec will order their fall stocks of goods shipped from New York by water to the isthmus of Panama, via railroad to the Pacific, and up the Columbia river. This is nearly an "all water route." A considerable saving in freight rates can be made in this way. The first large shipment over this route was made this spring, when the entire shearings of the Coffin Bros.' sheep were consigned to Boston by water.

Mr. Forest's visit to Madras was ostensibly to look over the country, but it is said that he has become a silent partner in the ownership of Madras Townsite, his interest being covered by that which is nominally Williamson's. Smith Crowder while here bought twenty lots in Depot Addition through W. H. Lancaster Co. His buys included all of Block 2, and other lots in Block 7 and 9.  
 Besides these assurances that there is absolutely nothing in these rumors that have been started by ardent knockers, Mr. Williamson told some parties confidentially regarding his plans here, but all that can be gleaned from these is that they are all for the welfare of the present town.
