Entered as second class matter August 29, 1904, at the Postoffice at Madras, Ore., under the Act of Congress of March 3, 1879.

THURSDAY - OCT. 20, 1910

COUNTY DIVISION.

Under the present laws in the opinion of eminent lawyers, counties can only be divided or boundaries changed by the vote of the people.

All laws should be obeyed. Some laws should be amended. The law creating new counties is unfair as voters are asked to create new counties where they cannot know the local conditions and might form a new county where four-fifths of the residents of the old county are opposed to it.

What do the voters of Clatsop know of the needs of Grant, Malheur, Crook, Umatilla, Douglas, Lane, Washington, Clackamas and Multnomah. They could vote just as intelligently for the county officers in these counties as for their division or the changing of the boundaries.

There is strong opposition to division in all the counties mentioned and it would seem to be but justice that these localities should settle their own local differences.

You will have the privilege of voting for a bill to leave the function of new counties and municipalities to the districts interested. As between man and man, would not this plan be the more equitable?

The average voter will certainly take this view of it. In all fairness now, will not your conscience and sense of right tell you to vote against all division and vote "Yes X 352," which will relieve you of the task of voting for measures with which you can not be familiar.

CITY COUNCIL ORDERS NEW CHEMICAL ENGINE

A special session of the City Council was called for Friday night and the matter of the city purchasing another chemical fire extinguisher was taken under consideration. S. P. Wright, representing the A. G. Long & Co., of Portland, of whom the chemical engine already owned by the city, was purchased, was present, and explained to the members the workings of the different machines.

This matter had been talked over a number of times in former meetings, and the necessity more made more urgent owing to the fire in Shaniko last Friday morning. It was decided by a vote of the council to buy another of the same type as the present one, so that in case it should be necessary to use both of them at the same time, that the different parts would be interchangeable, or it might be necessary to use the machines in different parts of the town at the same time. With two machines within easy reach, and being ready on a moments notice, it is hoped that any fire that might get started, could be gotten under control before doing any considerable damage.

FORTUNATE ACCIDENT WITH AUTOMOBILE

What might have been a serious accident happened to Mr. and Mrs. Fred McDowell Saturday afternoon, as they were returning from a short trip in their automobile, in the Opal Prairie country.

Mrs. McDowell was driving the machine and they were passing over a new section of railroad grade, when the machine became unmanageable in the soft earth, and before it could be stopped slid off the grade and turned over in the ditch, throwing Mr. McDowell clear of the machine, his only injury being a strained shoulder. Mrs. McDowell was pinned under the machine, fortunately the dirt

being only recently placed there was soft, and she escaped with only a severe shaking up.

The damage to the machine was slight, the principal injury being to the steering apparatus, which was considerably bent.

The manager of the moving picture show is giving an especially good selection of views the past few evenings, and from an educational point of view some of the scenes are especially meritorious. Two films which were impressive being "The Courtship of Miles Standish," illustrating Longfellow's famous poem, and the other was a graphic presentation of the history of Benedict Arnold. The house is certainly deserving of good patronage.

Mrs. Elizabeth Woodard, who has been looking after her property near Culver, was in Madras yesterday, being on her way to Everett, Washington, where she is now making her home.

T. B. Tucker, G. V. Stanton, A. C. Sanford and H. W. Turner went to Prineville Wednesday, having business before the circuit court.

H. W. Rardall of Portland and G. S. Mariner of Spokane, insurance men, were visitors in Madras Wednesday.

Hog Notes.

Shade and protection make the feed go further.

Feeds rich in protein are necessary for the brood sow.

An occasional feed of oats will be valuable for the brood sow.

Two litters of pigs a year is about what the best sows will do.

Alfalfa is a great feed for the brood sow in summer and winter.

Uniformity in a lot of hogs will increase the ease with which they can be fattened.

A hog's defects will be reflected in the offspring just as surely as the good points.

Corn is the greatest feed there is for the hog, but it should not be fed exclusively.

SERV E AT M. E. CHURCH

Rev. Walter Shipworth, D. D., will be present to hold the first Quarterly occasion of this Conference year on Saturday and Sunday, Oct. 22 and 23. He will preside over the business session of the conference which will convene at 2:30 p. m. Saturday.

On Sunday Dr. Shipworth will preach both morning and evening sermons. Service of the Lord's Supper in the morning following the sermon. The choir will furnish special music at both services, and in the evening a mixed quartette will sing.

Candidate For Sheriff

To the Voters of Crook County:

Having been urged by my many friends to announce myself as an Independent Candidate for the office of Sheriff of Crook County, I have decided to do so and would respectfully solicit your support at the General Election to be held November 8, 1910.

If elected, I will strive to insure:

1. An economical administration;
2. An entirely new administration in the office.
3. An enforcement of the laws without fear or favor.

Very truly yours,
JOHN McTAGGART.
Madras, Oregon, Oct. 17, 1910.
