FAMINE THREATENS PARIS.

Railroad Employes Strike and Serious Trouble Follows,

Paris, Oct. 12 .- The French government is again facing a serious strike. Employes of the Northern railroad went on strike early today, and tonight the strike spread to the Western railroad, which is owned by the state.

Indications are that tomorrow will see a complete tie-up in Northern and Western France.

The strike involved about 80,000 men. The strike on the Western road was voted this evening by 8,000 men employed in Paris and suburbs. They count upon the national unions to tie up the province.

The movement may possibly extend nounced today by Premier to the Eastern and the Paris, Lyons & Mediterranean railroads.

Paris is threatened with a scarcity of food. Tranportation is partly prostrated, and the vast army of working people in the Northwest quarter are unable to reach their places of busi-

Military engineers are taking the places of the strikers, and the troops are guarding various stations and important sections of the roads. Large military forces were 'distributed when the strike was declared and additional troops were ordered out tonight.

The government has decided upon an mportant step in an attempt to break the strike on the Northern road. The Official Journal publishes a decree calling to the colors about 30,000 employes of the Northern railroad. This immediately subjects the men to military discipline, under which they may be ordered to operate the trains.

Officials of the Northern railroad have issued a statement that wages on the Northern railroad were in creased 3,500,000 francs during the year of 1909-10, and that the increased Wool Storage company.
