FISH LADDERS NEED REPAIR.

Salmon Have Difficulty Ascending Celilo and Oregon City Falls.

Astoria-Secretary Lorntsen, of the Columbia River Fishermen's Protective union, has received a letter from State Fish Warden Clanton, in which Mr. Lorntsen is invited to go with the fish warden and make an investigation relative to the fishways needed at the Oregon City falls and at Celilo.

A fish way was constructed some years ago at Oregon City, but it does not appear to give satisfaction in its present condition, and on a recent visit there Mr. Lorntsen counted 40 salmon which had perished while trying to get over the falls. However, it is stated that a small amount of work will place the fish way in condition to afford an easy passage way for the fish to the upper river.

At Celilo the condition is much more complicated, and it may be necessary Pekin-An official decree was issued to blast a fish way out of the solid
