GLEANINGS FROM THE OPERA CHILD IS A WONDER

TWELVE-YEAR-OLD GIRL WHO EX-HIBITS STRANGE POWER.

Can Copy an Unopened Letter She Has Never Read or Even Seen Before-People Mystified at Her Peculiar Gift.

Dawson, Ga.-What is the strange ower possessed by little Laura Averitte? That is the question which many mystified people are asking and have been unable to answer. The child herself does not attempt to offer an explanation. This power, or occult force, or whatever it may be, enables her to write word for word the contents of an unopened letter and unknown to any of the people present during the remarkable feat of divina-

Laura is the twelve-year-old daughter of J. D. Averitte, a well-known farmer living two miles north of Dawson. To all appearances she is just a normal, fun-loving, romping child. There is nothing to differentiate her from her playmates. And yet there is the marvelous faculty with which she is endowed which makes her case one perhaps unparalleled.

The first demonstration of little Laura's peculiar power took place several weeks ago. A member of her femily had received a letter, and brought it unopened into the house. "I know what is in that letter," Laura asserted. The relative smiled at the childish boast. "I'll show you," she insisted. And in a spirit of fun she was given paper and pencil at her request, the unopened letter was placed nearby and she prepared to convince the members of her family. Slowly the pencil moved over the slicets of paper, word followed word and sentence followed sentence, and finally little Laura said simply: "There it is."

And there it was. The envelope was opened. Smiles turned to expressions of wonderment, and wonderment almost changed to awe when it was found that the letter had been set down word for word by the child.

Seeking an explanation from the girl those surrounding her met only I don't know" from her.

Other letters came to the Averlite household. Further tests of Laura's peculiar powers were made, and in every instance it was found that she had written the contents of the unopened letter practically without er-

Needle Went Through Body. Wooster, Ohio.-Forty years ago

Mrs. S. T. Swartz of this city, when a small girl, tramped on a needle, a portion of which could not be located by the surgeon who gave her attention. The other evening Mrs. Swartz felt a stinging pain in the left shoulder, and a little later drew forth a hard substance from under the skin. It proved to be a piece of steel a little more than half an inch long. Mrs. Swartz then recalled that the piece of steel in her hand had been in her body all the 40 years, traveling around to her shoulder.
