# THE OFFICIAL PLAT OF CULVER JUNCTION

The Railroad Center of The Deschutes Valley

Besides having the most favorable location on the railroad, Culver Junction has a larger agricultural section to draw from than any other town in Northern Crook County. Substantial development work is under way and a well for townsite purposes has been sunk and an abundant supply of pure water has been found and a pumping plant will be installed as soon as it can be gotten in over the roads. This well will supply water to the townsite and to the farmers in the surrounding community.

Prices of Culver lots have already been substantially advanced over the initial price and another advance will be

made prior to the advent of the railroad. Prices are now reasonable and terms easy, no interest on payments and you should avail yourself of this opportunity at once.

The main office of the Deschutes Valley Land & Investment Co., exclusive selling agents, has been removed to Culver Junction where you may get full information and where we will be pleased to meet you in securing a good location. We are here for business and for the upbuilding of not only CULVER JUNCTION but the entire community as well.
