More Extension

(Continued from page 1)

In the meantime, the company will endeavor to complete as early as possible all of the projects already undertaken. All of the present contracts on the Klamath Natron cutoff, says Mr. Kruttschnitt, will be completed before the end of the present fiscal year—June 20—after which he will recommend that that the remainder of the route, which he viewed on Monday, he contracted for and the work finished with all possible speed, so that the new 22-hour schedule between Portland and San Francisco can be put into effect on the earliest possible day.

In the work through the Deschutes canyon, he said, joint trackage agreements had been entered into with the Oregon Trunk Railway over some of the most difficult portions. The Harriman line has progressed ahead of that of the Hill system in some places, and the former line likely will be completed over the 137-mile stretch from the Columbia river to Redmond before the latter is finished to Bend.

In a recent letter from H. K. W. Taylor, it states that Mr. and Mrs. Taylor arrived at their destination at Ft. Lauderdale, Florida, Dec. 1st, which is on the Atlantic Coast side of the peninsula. Mr. Taylor says that they are in a comparatively new town and that building operations are going ahead rapidly, and the hammers and saws that can be heard in use.

Free Silverware

The most liberal coupon system ever offered to the public is being given by the Madras Trading Co. Every cash purchaser receives a cash register coupon for the amount of the purchase. These coupons are redeemed in Rogers Silverware, of which they carry a complete line. There is no gamble or chance to be taken. Every coupon shows its value.
