The neatest advertising folder arriving at this office for some time was received Wednesday from the Greater Madras Company, with which is associated B. S. Cook & Co., of Portland, who deal extensively in Central Oregon real estate, and Jesse Hobson of Madras, who handles the Railroad and South Additions to this city. The front and back of this folder is a handsome design printed in colors, while the interior contains graphic descriptions of the "Madras Country," accompanied by many illustrations of scenes in Crook County. Not the least attractive in this folder is the birds eye view of Madras and the surrounding country, showing its topographical features.

A road petition is being prepared for presentation to the county court asking that a county road and bridge across the Deschutes and also across Crooked river be granted for that portion of Crook county lying between the above named rivers, usually spoken of as the peninsula. A petition for the segregation of a new road district is also asked for that section. That neighborhood is rapidly growing and their petition should be granted. At present these people have to go a very round-about way to their trading point. It behooves the citizens of Madras to do all in their power to help along this road and bridge proposition, not only as an act of courtesy, but from a business standpoint.
