Knees Became Stiff

Five Years of Severe Rheumatism The cure of Henry J. Goldstein, 14
Barion Street, Boston, Mass., is another victory by Hood's Sarsaparilla.
This great medicine has succeeded in many cases where others have utterly falled. Mr. Goldstein says: "I suffered from rhouralism for the control of the fered from rheumatism five years, it fered from rheumatism five years, it kept me from business and caused excruciating pain. My knees would become as stiff as steel. I tried many medicines without relief, then took Hood's Sarsaparilla, soon felt much better, and now consider myself entirely cured. I recommend Hood's."

THE SECRET OF SUCCESS

Genuine Merit Required to Win the People's Confidence

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once dray out of sight and are soon forgotten The reason is plain-the article did no: fulfit the promises of the manufacturer This applies more particularly to medicine. A medicinal preparation the has real curative value almost sells i self, as like an endless chain system the remedy is recommended by those who have been cured, to those who are in need of it,

In an interview on the subject prominent local druggist says, "Take for example Dr. Kilmer's Swamp Root a preparation I have sold for many years and never hesitate to recommend for in almost every case it shows in mediate results, as many of my custo mers testify. No other kidney remedy that I know of has so large a sale.

The success of Dr. Kilmer's Swamp Root is due to the fact that it fulfil every wish in overcoming kidney, liver and Bladder diseases, corrects urinary troubles and neutralizes the aric acid which causes rheumatism.

A free trial bottle will be sent by mail, absolutely free. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper. Sold at druggists in bottles of two sizes-50e and \$1.00.

Under Colored Glass.

A Swiss professor of agriculture has been experimenting with cultivation under colored glass, and finds, according to the Review Scientifique, that ordinary transparent glass gives the best results. White or Cream Colored Voile, Embroidered Heavily, Approved Thing in Lingerie Dress.

The very latest news from Paris be used for our simple model, which | tells us that white or cream-colored is made with a panel front laid on voile, embroidered heavily, will be sides in a wrapped seam, and trimmed | the approved thing in lingeric dresses with buttons sewn on in sets of three. for early spring. That seems to be looking a good ways ahead, but if you do your own embroidery you will want this time to get ready in.

Really the possibilities are endless and fascinating. Either heavy embroidery (wallachian, for instance) will be used, or beadwork with rubber beads, or a combination of the two. Can't you just see a wall-of-troy design, worked solid in white and outlined beads? Or, perhaps, the beads would be black, and a black hat would be worn with the dress, or Alice blue, or old rose, or some other becoming and striking shade.

How pretty this would be in a three-piece suit, with the embroidery consisting of a skirtband, side plaits on the waist and collars and revers on the coat! Then there are other ideas-a Persian design worked out in vari-colored beads, for instance, or a spray of heavy flowers, morningglories or passion flowers, with centers and veins accentuated by means of beads in the proper colors. In this case, the embroidery itself would be equally attractive in life colors or in white, or even in black.

Then there are all the metal effects How lovely bronze would be on cream voile, or silver on pure white! Voile has the advantage of raveling easily, and so it would be quite possible to draw a thread all the way along the materials and work from that. Even drawnwork could be combined with these other effects.

Doesn't it make you want to start right away? Do have a dress like this for next season. I'm going to!

Lace Flower Pins.

The latest in dainty and charming When you gather up the scraps of pins for wear on collars and cuffs is a lace flower crocheted around an orasually in violet form, though in white, and stands out stiffly from the pin.

When crocheted to a violet pin, it may be used to fasten jabots of flowcord, or silver or gold if you wish the ers, and it is just as pretty, though not quite so new, as applied to the hatpin. A set of these lovely white lacepins-Beads, embroidery, little patches of three for collar, two for cuffs-two hatpins and two stickpins would be are easy ways of decorating the flat the prettiest present a bride or a traveler to Europe ever received.

The bar of the safety pin is crocheted over and over to hide the steel. In black, with black pins, they solve the question of what to use in mourning.
