Kept Five Days in Filthy Hut Without Being Allowed to Communi-

cate With Friends,

San Diego, Feb. 23 .- Branded as a spy. by Prefect of Police Jose Larroque of Tia Juana, a Mexican town just over the boundary, Harry C. Dell, an American 28 years of age, is a prisoner, in danger of being convicted without a hearing by a drumhead court martial and shot. The fate of the other American and the Mexican who professes to be a citizen of the United States, said to be held by the Tis Junana authorities, as spies, has not been learned. Larroque says they have been freed; what became of them no one here, seems to know. Prefect Larroque refuses to state the nature of the charge against Dell, but it is known that he is thought to be a

secret agent for the robels. Likewise, Larroque refuses to tell what will be done with the accused men. While the fate of . Dell hung in the

balance tonight, it was learned that when Navarro's column marched into Juarez from the old town of Guadeloupe late tonight; the troops brought with them two closley guarded prisoners. These were Americans and one was Lawrence F. Converse, of Glendora, Cal., a suburb of Los Angeles. He has worked in Spokane and Seattle. The other was Edward M: Blatt, thought to be an ex-soldier of the United States army.

Friends of Dell have fears that should the insurgent army approach Tia Juana he will quickly be disposed of. Reports that he was to be taken forthwith to Ensenada were quieted by information that he is still held in the Tia Juana prison, which is nothing more than a miserable hut. This is heavily guarded and today was further defended by the throwing up of earthworks. It is said that this was done for fear that American friends of Dell would attempt to storm the jail and liberate him. Although arrested in a Tia Juana saloon last Saturday night, Dell's identity was not discovered until today. This was the result of the persistence of newspaper reporters, who, following up rumors that three Americans were to be shot as spies, insisted of Prefect Larroque that they be given interviews with the accused.

CARTRIDGES

The straight shooting, hard-hitting, sure-firing 22's.

The reason why UMC .22 Cartridges are the best is that they are made with precisely the same care, the same tested materials and undergo the same rigid safe-

guards, as the heavier calibre, biggame-shooting UMC ammunition. UMC .22's are also made with the

heavy hollow point bullets, thereby increasing their shocking and killing power over the old solid bullet.
