HAVE YOU SEEN OUR WAY
Of oiling harness? The old way of oiling was alright but very little oil got into the loops of the harness. Half the oil was left on the ground and one half was distributed on the harness and your clothes, after you had spent a whole day at a very disagreeable job. The oil is worth at least 65cts. and one days wages \$2.50, or \$3.15, for a job that will not cost you to exceed \$1.50 if we do your work. You have no grease to track through the house.
