

In an article published in the Pioneer a few weeks since with reference to the marriage of Mr. Seybold and Miss Lula Osborn, the Pioneer desires to correct this error. The person from whom the information was received was not to blame, as he had received a letter from Portland, which mentioned the wedding as having taken place a few days previous. However, such a thing has not happened in the information received from Mr. Seybold.

Raymond and Penelope Duncan, who have been in Portland three months arousing interest in ancient Greek arts, have left for the Warm Springs reservation where they will make a special study of Indian music and attempt to register it in the Hellenic music writing system. They will take with them monochords so as scientifically to determine the intervals and scales. They will also take with them weaving looms and distaffs and teach the Indians to spin and weave.—Evening Telegram.

report said findings at a special meeting called July 21, 1911, at 8:30 p. m. in the theatre building, report as follows:

In the short time allowed and the magnitude of the work, to bring the financial condition of the city down to an exact balance and distribute the receipts and disbursements, would require several days' work, and we did not deem it expedient to do so at this time, for the purpose for which we were appointed, consequently, we have arrived at the report that we shall make, which while it is not in detail is the best we can do with the present facilities, and the short time allowed.

We have found either a voucher, or satisfactory evidences for each and every warrant issued by the council. The vouchers being signed by the finance committee, and the warrants signed by the mayor and recorder.

The receipts for fines, licenses and other means of income for the city, we did not examine in detail, except to see that the recorder holds receipts from the city treasurer, for all such turned in as may come into his hands direct and the treasurer has same properly credited.

According to the city treasurer's report for January, date of January 31, 1911, there was on hands \$4263.20. There has since that time come into his hands about \$7131.32. On hand at this time with but a few warrants outstanding the sum of \$3580.35.

Up to in April, 1911, there was expended for wells, ditches and reservoirs including labor, tools and equipment, \$5650.30; since that time including \$200 for the moving of an engine and pump from the Hobson well, and other purposes pertaining to water, \$710.77, making a total of \$6361.29 as near as we can estimate it.

We are reliably informed that there is 4200 feet of main ditch and 1200 feet of lateral. We have found a few instances

where it would appear that more than ordinary prices had been paid for labor, etc., but appreciate that in auditing same could have been overlooked, and would aggregate no great sum.

We found no evidence of advertising for bids for public expense or improvements, on contract or otherwise previous to our appointment.

We found the recorder's office very poorly equipped with books or files for keeping the city records, nor safe in event of fire, and think it would be to the interest of the city to provide the proper equipment.

We found the mayor, recorder and treasurer courteous in their respective offices, and gave their time and assistance, in providing books and papers and files to aid us in our investigation. Having filed our trust to the best of our ability, without favor or prejudice, we beg that our report be received, and we discharged from our appointment.
