Underwood Standard Typewriter POPULARITY

When the UNDERWOOD made its advent in the market fourteen years ago, the original front stroke, reliable writing typewriter, met with instant popular success because it marked a distinct advance in the art of typewriter construction. Typewriters representing design and construction of the best achievements of the mechanical world up to that time have been displaced by the UNDERWOOD in the markets of the world until today its sales largely exceed those of any other make of typewriter. In the effort to meet the universal popularity and growth of the UNDERWOOD machine, the makers of "blind" writing machines have changed their models to visible writing in the last few years. Visible writing has become the current talking point of its critics of yesterday.

The UNDERWOOD is designed on correct mechanical principles, is made of the best material and has fewer parts in its type mechanism than any other machine, and excels in point of durability, accuracy, and ease of operation.

NEGLIGENCE COSTS COUNTY DAMAGES

Dave Peck, Former Land Owner of This Section, Awarded \$1000 Damages at Hood River

Last week at Hood River, during the session of the circuit court, the damage cases of Dave Peck, a former resident and land owner of this section, and Mat Douglas, his companion at the time of the accident which caused their injuries, were tried and each was allowed damages from the county of Hood River. The court allowed Mr. Peck \$1000 and Mr. Douglas \$1600.

These two gentlemen had been at work clearing a tract of land some little distance from their home during March, 1911, when a storm overtook them as they were passing under a tree that was leaning over the road, the tree toppled over catching these men before they could get away. Mr. Peck received a broken leg and other injuries, and his companion was also badly injured.

It seems that this tree had been condemned by the County and ordered cut down, but had not been done, therefore it was the contention of the plaintiffs that the county was responsible for the falling of trees in the highways, which was sustained by the court it allowing the damages.
