A Big Dance and Supper Was Had Friday Evening Which the Loosing Party Paid For

A big rabbit drive took place in the Lamonta and Lone Pine country the early part of last week and many bunnies lost their lives in the slaughter.

The parties in the drive had previously chosen leaders and each had selected ten men to as-33 30 sist him for a period of five days, at the end of which time the loosing side was to pay the expenses of a dancing party and supper.

> Much interest was taken by both sides and plenty of histling was done during the five days of the hunt and some remarkable records were made for a single day. One side was led by Charley O'Neil of the Lone Pine ranch and the other side was led by Luther Melton from near Lamonta.

The decision was made as to the winner on Tuesday of last week, the count standing as follows: Melton men had 843 and O'Neil's men had 350, making a Neil crowd had to foot the bill for the dance and supper, which took place last Friday evening in the Rush hall at Lamonta. A

Through of the Columbia river for about dose association with the two miles till it reaches the

mouth of the Deschutes river, where it turns to the south and follows up the Deschutes river

The bridge is a single-track structure, built entirely of steel, resting on a sub-structure consisting of piers and abutments

A remarkable feature in connection with its location is that the foundations rest on solid rock which is entirely exposed at low stages of water, usually from about September 1 to March 1,

and for the rest of the year the he Oregon passenger, leaving water creates such a rapids that tand at 8.20 a. m., hereafter it is impracticable either to do be continued through as a concrete work or to place falsetrain to Bend instead of work for bridge erection. The ping at Fallbridge, the pres- first period of low water after terminus, and arriving at active construction of the Oregon ras at 5.38 p. m. instead of Trunk started, September, 1909, o'clock, and Bend at 8.10 p. to March, 1910, was consumed in astead of 8.30 o'clock. Cor- making surveys for the bridge onding time will be saved at location and for the preparation mediate points. > Since that time they have retake 'their passengers back to Bend, owing to the scarcity of fuel on this end of the line. There has been a work train operating with a large crew opening up the line on this end and along the Deschutes river.

> It has been reported that there were five slides of snow and rock on the Oregon Trunk track between Madras and the Columbia river. However, the Oregon Trunk is not the only line out of commission, the North Bank having been tied up for several days with the heavy snow and slides along the Columbia river.

A message came in today over the telephone to the effect that snow in Portland had been three feet deep, and that a silver thaw had cut off the city from telegraph and telephone communication with other places.

Telegraph service has been maintained from Madras with outside points with the excepmessages to Portland had to be sent to Spokane, back to Seattle, then down to Portland.

The train on the Deschutes road failed to come in Saturday evening last, being able to get but a short distance up the river, next Sunday at 11 o'clock, suband had to return to The Dalles. ject, "Christian Laziness." Workmen have been endeavor- Meeting for men only at 3 ing to inaugurate service over o'clock, special topic, "The Man their line and the last report had Outside." This work should be kept up with two engines, became stalled during the winter and spring able to get back only as far as ple of this section to continue the drives to endeavor to lessen pelled to stop, not being able to the amount of rabbits in the country, as the damage to the then coming back and laying crops during the past year or so has been great. As everyone knows, rabbits increase very rapmained there, not being able to idly, and for one that is killed at this time of the year means from ten to fifteen during the summer.

G. M. Cornett and Floyd Lippincott were arrivals today. Mr. Cornett is the owner of the stage line which for years extended from Shaniko to Silver Lake. It is rumored that the two gentlemen are making a tour of inspection of the stage line equipment. and that Mr. Lippincott will shortly buy out Mr. Cornett's interests. The Inter-Mountain was unable to confirm this report, however. They leave for Silver Lake in the morning .- La Pine Inter-Mountain.

Married-At the residence of the bride's parents, Mr. and Mrs. L. H. Hamilton, on Willow creek, Sunday, December 31, Ernest McKenzie and Miss Carrie Hamilton, Rev. C. P. Bailey officiating. A large number of guests were present, and the tion of three days. However, dinner was just excellent. The happy couple received many nice presents. The best wishes of their many friends will follow them on life's journey.-Crook County Journal.
