PORTLAND CLUB IS GATHERING EXHIBITS

Commercial Bodies are Asked to
Send in Agricultural Products
for Big Display

Great efforts are being made
by the Portland Commercial Club
to collect exhibits of the agricul-
tural resources of the state to be
used at all the big land shows
and exhibitions in the East this
year, the purpose being to show
them on the railroad exhibit
cars, at the dry framing congress
at Alberta, and at various other
places east of the Rocky Moun-
tains.

A call has been sent to the
commercial organizations of all
parts of the state, urging them
to send in exhibits at once.
Otherwise their cities and dis-
tricts will not receive represen-
tation in the great exhibits in
the East. Grains, grasses, veg-
etables and small fruits are
wanted for the exhibits immedi-
ately.

Following are, in substance,
the instructions for preparing
the exhibits that have been sent
with the requests for assistance
in assembling them:
Grains, grasses, clover and al-
falfa are to be gathered in uni-
form lengths hand bound in
sheaves four inches through.
Ten sheaves are asked from
each locality contributing to the
exhibit, since they are to be dis-
tributed at land shows in many
different places.

Each sheaf and other entry is
to be tagged with the name of
the grower and the locality where
it was grown, so that cups,
medals or other prizes that may
be won for them may be sent to
them, after having been exhibit-
ed in Portland after the land
show season has closed.
Threshed grain samples can

be assembled later in the season,
but the Commercial Club is parti-
cularly eager to complete its
sheaf exhibits now. Vegetables
and small fruit exhibits are also
required at this time.

The Portland Club will co-
operate with the other com-
mercial organizations of the
state in corresponding with
farmers in various districts and
by taking charge of the exhibits
when they have been assembled
and sent to Portland. By this
extensive method of working, it
is hoped that arrangements may
be made for advertising the
agricultural possibilities of the
state more widely than has ever
before been done.

Crop Prospects
