

**OREGON RAISES MANY HORSES**

Available Statistics on Pure Bred and Grade Horses and Jacks. Report Just Off Press

That there are 609 pure bred stallions, 254 grades, 172 mares and 89 jacks licensed for service in the state of Oregon is a fact not generally known. Statistics on the horse raising business are given in the first annual report of the Stallion Registration Board of which E. L. Potter of the Oregon Agricultural College is secretary. The report is just off the press. There are 250 pure bred Percherons, of which 17 have side bone, 4 bog bone, 7 roaring, 2 curb and 1 string halt. Of the 103 Belgians 7 have side bone, 3 roaring and 1 curb. The 2 thoroughbreds, 2 saddle horses, 7 Morgans, 2 Cleveland Bays, 5 Hackneys, 3 French Coaches and 5 other breeds are all sound, showing none of these disorders. The Shires show but 2 with side bone and 4 with roaring; the 37 Clydesdales but with bone spavin, and the 2 French Draft horses but with bog spavin. Out of the 66 registered as Standard bred, 1 has side bone, 1 bone spavin, 1 roaring and 2 curb. There are 50 German Coach horses, of which 1 has side bone, 2 roaring, and 1 ringbone.

Among the grades there is a preponderance of Percherons. Out of the 105 there are 6 with side bone, 2 with bone spavin, 4 with bog spavin, 1 with string and 1 with string halt. The Standard bred comes next in number among the grades, there are 47; the Clydesdales 32; Shires 24; Belgians 19; German Coach 9; French Draft 7; thoroughbreds 6; Morgans 3; American saddle horses 3; Cleveland Bay and French Coach 1 each.

Among jacks are more numerous than the pure bred or grade. There are 67 of them, to 16 pure bred and 6 grades. Of the total of 1,124 registered animals, 1,000 are unsound. Side bone is most common, affecting 46; roaring second, showing 22 cases of spavin; 13 bone spavin and 8 each; ringbone 3; string 2; and moon blindness 1.

To The Voters  
Culver, Ore., October, 1912.

As the regular Republican nominee for the office of County Surveyor of your county, I am asking your support in the coming contest. My only opponent is Mr. Fred Rice, present incumbent and independent candidate, who went into the Republican primaries with me last spring claiming that he was a candidate subject to the approval of the Republican voters of Crook County and was beaten in a contest but now makes himself again a candidate in disregard of the spirit of direct primary law and of the wishes of his party.

I am a civil engineer with six years experience, including experience as a deputy county surveyor in Crook and also in other counties in Oregon. I feel that I am competent to fill the position which I seek and am prepared to give it my fullest attention, keeping at all times a man at the post to advise with road petitioners and others having business with the county surveyor.

Mr. Rice asks you to vote for him because he has presented the present ownership book and also field notes for the entire county. Mr. Rice has not presented the county with anything. The county paid more than \$100.00 for the present ownership maps of which Mr. Rice obtained a portion. They were made by persons working by the county at a cost of twice the lowest price, which makes it plain why Mr. Rice desires a third term.

**FOR COUNTY JUDGE**

**G. A. Mc FARLANE**  
REPUBLICAN NOMINEE FOR CROOK COUNTY

Stands for progress, honesty, economy, fair dealing, and an able legal administration of all business of the County Court.

FRESH AND CURED MEATS  
We have the best line of Fresh Meats in the country  
ALL KINDS OF GARDEN VEGETABLES IN THEIR SEASON

Mr. Rice also received pay for all field notes furnished and he has furnished only about half of them.

A more detailed statement will be furnished on request and the county records are open at all times for inspection in support of these statements.

Respectfully yours,  
R. L. Brewster.

PD. Adv.

**Avoid Sedative Cough Medicines**  
If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world-wide reputation for its cures. It contains no morphine or other sedative. For sale by all dealers.

All successful business men know that it pays to advertise. They can't do without it if they remain in business, and in inserting their ad. in The Pioneer they are sure of good returns.

**A Marvelous Escape**

"My little boy had a marvelous escape," writes P. F. Bastians of Prince Albert, Cape of Good Hope. "It occurred in the middle of the night. He got a very severe attack of croup. As luck would have it, I had a large bottle of Chamberlain's Cough Remedy in the house. After following the directions for an hour and twenty minutes he was through all danger." All dealers.
