FREE FRUIT LAND AT Paisley

DON'T BE AFRAID OF U. S. GOVERNMENT CAREY ACT IRRIGATION PROJECTS IN OREGON.

The day of irresponsible irrigation companies in this state is past. When the Northwest Townsite Company of Philadelphia took over the Paisley Project in Lake County, it gave the largest bond ever given in the state-fifty thousand dollars-guaranteeing completion of the project. Every three months it makes an itemized statement of expenses to the Desert Land Board. All of its advertising books, maps, contracts, subscription agreements and literature is submitted to the Desert Land Board for inspection before being issued.

The land is level, free toom rock, and is a rich Volcanic Ash Soil. The climate is perfect for fruit, which now grows to perfection at Paisley.
