

THE COURIER

Mark The Prediction.

The next political campaign, after the present one in Oregon, will be conducted by the opposition on slightly different principles. Their main plank and rallying cry will be the undoubted right of every nigger in the State, and every Indian who is taxed, to vote. That such beings are entitled to vote now, is a fact that does not admit of successful contradiction; but the blacks are fearful to acknowledge it yet.

The word "white" was stricken out of the suffrage law passed at the special session of the Oregon Legislature, and all that a person changed has to swear now, is, that he is a citizen of the United States and has resided in Oregon six months. Now what negro is there who has resided six months in Oregon who cannot take this oath under the civil Rights law? The civil rights bill makes the negro a citizen, and, according to the laws of Oregon every citizen is entitled to his vote.

People of Oregon go to work and elect a legislature that will this fall, repeal the infamous suffrage law that now disgraces our State.

Remember him at the Polls.

Rev. Spencer, one of the Radical candidates of this County, some years since, by virtue of his sacred calling as a clergyman, wilfully and knowingly, and for the paltry sum of two dollars and fifty cents, and in contempt of the wishes of her parents, secretly solemnized a marriage, wherein a girl of tender years was one of the parties, and a widower well advanced in age was the other. For this grave offence against morality and decency, he was indicted by a grand Jury and fined. Query: If Mr. Spencer would be guilty of the above offence for \$250, what would he do for one hundred dollars. A solution desired.

Mr. M. R. Cary, his opponent, for School Superintendent, has made a canvass against this heavy-loaded type of puritanical isms, which will be no discredit to him, while he is sure to get the office he seeks.

Largo Crowd and Splendid Speaking at McMinnville!

On Friday, Hons. L. F. Grover and David Logan spoke to the largest audience ever assembled at McMinnville. All parties agree that either speaker reflected credit upon the party he represented. Mr. Logan made the opening speech. He is too honest and candid in his positions to advance the interest at this time of the republican party. He deals with principles as they are presented by the present attitude of parties, and eschews all the shuffling, dodging, lying and petifoging tactics of all and every speaker that has taken part in the present campaign, on his side of the question. He plainly says that it is according to the creed of republican ism to denounce Johnson's policy and sustain Congress.

He was followed by Mr. Grover who, having had the issue fairly presented by the speaker who preceded him was enabled to deal with the false and dangerous logic of the so-called Union party in a manner to make it plain to the most obtuse understanding that it was detrimed, by a systematic onslaught upon the Constitution, to subvert the fundamental doctrines of the government—over throw all its bad marks. Mr. Grover's speech was of infinite advantage to our cause in this County. Mr. Logan's speech had the contrary effect, since he had the honesty to avow that negro suffrage was the object and aim of the republican party.

ARREST OF A BIGAMIST.—On last Friday, a man named White, was arrested at McMinnville on a warrant sued out by one of his brothers-in-law, alleging that but a few months since, the said White married his sister in California, and soon afterwards deserted her, and formed a matrimonial alliance with another party. The man White has been stopping at McMinnville about nine months, during which time he has married an emigrant lady of this county. On his arraignment before Justice Whitlow on Saturday morning he waived an examination, and was held for his appearance in the sum of \$15.00.

We understand that he will be able to produce testimony which will necessarily go far in mitigation of his alleged offence.

HIS HEAD WAS LEVEL.—When Messrs. Johnson and Sullivan visited McMinnville electioneering, recently, Mr. Sullivan, mistaking Mr. S. H. Gaunt for a republican, sought a private interview with him. Sullivan commenced with the following interrogatory: "Why did you fellows nominate old Lampson?" Mr. Gaunt, realizing the situation, was disposed to humor the matter along, and replied that Lampson "somehow got the inside track," and it could not very well be helped. Mr. Sullivan continued: "If Lampson does not beat your whole ticket you will be lucky; he is the last man I would have thought of, for Representative."

Sullivan is well acquainted with Lampson.

SEE THAT THEY DONT VOTE HIM.—Some of the radicals are silly enough to suppose they can vote the black republican in jail in this place for stealing Mr. McSwain's horse. They argue that he has not been convicted, and is therefore not a felon.

If you would have the rich man bear his just proportion of the burden of taxation, and thus make taxes fall light on you, vote for James D. Fay.

IT'S A FACT.—The more knowing ones of the radicals admit that George L. Woods is doomed to run far behind his ticket in this County.

THOUGH MOUNT HOOD

DONT Stand!

AND Though the Long Threatened Eruption, did, on the morning of the 17th ult., actually Culminate in the total Annihilation of the Famous "Mount," R. HARRIS will be Found on the opposite side of the Street with Increased Facilities for Catering to the wants Epicures, &c., &c.

WITH A FULL STOCK of Wines, Liquors, Cigars, Oysters, Sardines, Crackers, Nuts, Candies, &c., &c., ever offered in this Market. He will be happy to wait on his old Customers and as many new ones as choose to favor him with a call. R. HARRIS.

M. R. CARY, Dealer in Dry Goods, Clothing, Groceries, Drugs, Paints, Oils, Medicines, Books and Stationery in general.

To The Sick.

[COMMUNICATED.]

An Interesting Letter.

Very few persons, even among physicians, would have been willing upon any terms to have been in the condition of the writer of the following letter on the 14th of February last. I will anticipate somewhat his report of the facts by saying that on the 15th of August last, he made me a visit, "the very picture of good health." Time, which tries and proves all things has sufficiently tested this case, and shown that neither relapses nor collapses having followed, the cure is perfect, and can be cited among the scores of similar cases the result of my improved mode of treating disease without medicine.

Aug. 27, 1865. G. M. Bourne, Water Cure Physician, No. 10, Masonic Temple, Post street.

Sacramento, April 30, 1865.

Dr. G. M. Bourne—Dear Sir:—It is with pleasure and satisfaction that I now let you know of my good health. Looking back upon what I have passed through, it seems as if I was lifted from the grave, and I think it my duty to acknowledge to you and the world the benefit I derived from water treatment as administered by you in your celebrated baths. It was in August, 1864, when disease developed itself with a severe cough. I then took medicines, getting worse, with chills, fevers, loss of strength, and was pronounced consumptive. This set me to thinking, and I finally determined to leave my business go to the Sandwich Islands, having been informed that I could not be cured here. I went to San Francisco, and while waiting for a ship, called upon Dr. Bourne, who stated that a trip to the Islands would probably result disastrously, was unnecessary, as I could be speedily cured at his establishment. I placed myself under his treatment, and in one week was so much improved I thought I could risk returning home and to my duty as Engineer on the Central Pacific Railroad. The Doctor objected, but I thought I knew better, and returned to duty. In about two weeks my cough returned, and I kept getting worse and contrary to Dr. Bourne's injunction never to take medicine again, committed that folly, and soon was so completely run down that I could scarcely walk; so, as a last resort, I concluded once more to try the water cure. I went to San Francisco—few of my friends expecting me ever to return. In fact, I thought my return doubtful. On arriving at Dr. B.'s establishment (Feb. 14 1865) I was not able to get into the bath without assistance but in a few days I began to recover myself again. I remained with him only six weeks, when I left "a wiser and better man" without the aid of medicine. I have now been at work several weeks, and find that I am gaining every day, and at present bid fair to be stouter than ever before. Persons visiting the Doctor's establishment will find it just what it should be, both in Ladies and Gentlemen's departments, and I cannot say too much in praise of the doctor's kind attentions to his patients.

This letter I write for the benefit of all the afflicted, to be used as the Doctor decides, and should it be the means of directing any to his care and treatment who (as they surely will) find relief, I will be paid for my trouble. JAMES CAMPBELL, Engineer Central Pacific R. R.

SAN FRANCISCO, August 22, 1865. Advised by the undersigned, Mr. Jas. Campbell, of the Central Pacific Rail Road, (who was then in a most deplorable state of ill health) placed himself under the care of Dr. Bourne the Water Cure Physician. Some six months or more afterward he visited this City, when I accidentally met him at Dr. Bourne's establishment, and am happy to say, restored to good health, and in fine spirits. JOHN SULLIVAN.

Dr. Bourne treats all diseases of the throat, chest and lungs—which includes diphtheria, bronchitis, incipient consumption, pleurisy, croup, &c.—with greatest success. Great relief is afforded in advanced stages of Consumption. Rheumatism, paralysis, neuralgia, fever and ague, dropsy, etc., etc., are also cured quickly, pleasantly and economically. No medicine whatever.

Confirmation Strong Of An Interesting Letter.

SACRAMENTO, November 23, 1865. DEAR DOCTOR:—I received your letter a few days since asking for my photograph which I will attend to as soon as convenient. At present I am very busy, on account of the stormy weather, being out at all times, both night and day, and am enjoying good health, apprehending no danger if properly careful, as every one should be. I have read my letter in the Call and other papers, and have been asked several times concerning it, and whether it is correct, and I say I can vouch for its contents, and more if required, as can a great many others who know me at the time. I remain your friend. JAMES CAMPBELL To Dr. Bourne, San Francisco.

Dr. Bourne takes the liberty to publish the above, as many persons had prophesied his relapse into his former condition, on returning to his duties, of the writer of "An interesting Letter," whose statements concerning the cure of a well defined case of Consumption have recently attracted so much attention to the Water Cure, as improved upon and practiced by Dr. Bourne. This additional testimony must prove satisfactory to all reasonable minds. It should be remembered that Dr. Bourne uses no medicine whatever, and his patients almost universally those who have failed to receive relief from the medical practitioners; yet they are cured with great rapidity, and in a pleasant and agreeable manner. No. 10 Masonic Temple, Post street entrance. no. 15 3m.

permanant cure, or ask No Pay for services, when in his judgment it is within the bounds of cure

CAUTION.

Persons seeking the Electropathic Institute should be careful to remember the name and number.

ELECTROPATHIC INSTITUTE

645 Washington Street. South side between Kearny and Montgomery over the Restaurant, J. H. JOSSELYN, M. D. Resident Physician. on the sign. With these remarks we leave the interest of the Institute with the public asking only the same generous confidence thus far awarded to it. The record shows over twenty thousand consultations, and a very large amount of suffering relieved. Persons wishing to consult the Resident Physician, by letter can do so with the utmost confidence. All letters must be addressed plainly J. H. JOSSELYN, M. D., Box 1945, San Francisco, Cal. All letters will be destroyed or returned, as desired by the writer. Office hours from 6 A. M. to 4 P. M. no. 14 3m

Dr. J. H. Josselyn.

IMPORTANT MEDICAL DISCOVERY

Electricity as a Curative Agent.

WHEN IT WAS PROMULGATED By the Directors of the ELECTROPATHIC INSTITUTE, that disease could be entirely eradicated from the system without the use of poisonous drugs, the thoughtless and those who do not look deeply into cause and effect scouted the assertion as chimerical, and wrote long articles replete with sophistry, claiming that only through the digestive system could the blood be purged of the poisons which constitute disease; a great cry went up from those interested in the continued supremacy of the old system of one poison to cure another. All of the empirics joined in the chorus, and in their ignorance laughed at the new system, circulating base stories of its ill-success, and quoting imaginary cases as proofs. Time has demonstrated their dishonesty. After five years of uninterrupted success the Electropathic system is the leading idea in medical jurisprudence, while by the old system, physicians were content to cure one in every five cases, there were those who were diving deep into the science of the curative art; among these were the Electropathists; finally, it was discovered that the failure in most of the cases of organic disease, was entirely due to the machine. Taking this view of the case, Dr. J. H. Josselyn, after years of experiment, has perfected an Electropathic Instrument, which will cure any disease which flesh is heir, always to be understood that the case is not far advanced as to show a destruction of the vital tissues. We do not claim that the use of medicines may not be more advantageous in some cases, but, that in connection with medicines, it will perform a cure much sooner than without, and also that diseases hitherto deemed incurable, can be cured by this system but the directors would take this opportunity to inform invalids that the Resident Physician is a regular graduate, and has had a large experience in the treatment of diseases, both with and without the aid of electricity, he has also discovered several "electric" vegetable remedies that will cure almost any nameable disease, which he will send to any part of the Pacific Coast upon receipt of a complete description of the disease with which the applicant may be afflicted, and I will warrant a perfect cure in all cases, where the medicines are used according to directions, and more especially in cases of FEMALE TROUBLES, where great care and caution are necessary to a favorable result. From early morn until late at night, this instrument is employed, imparting health and strength to all who are so fortunate as to obtain its services. Diseases (which the old system) took months, or even years to cure, are now cured in a few days or weeks. The cost, too, is not so great as by the old system, besides the saving of time. Connected with this system is the renowned

Electro-Magnetic Baths.

than which there is no more powerful auxiliary in the world for the radical cure of disease. There is no institute in the State where the electropathic system is practiced, except at the

Electropathic Institute,

645 Washington Street.

This Institute was established to, if possible, prevent the unwary from falling into the dens of robbery, (yelect quack doctor's traps), and hereafter the scientific originators of this Institute will not be to blame if the afflicted are robbed of their money, and injured in constitution.

There is also another view of the affair. The rising generation should be reared with strong constitution, and the directors wish to arouse their guardians to a proper sense of their duties in their premises, if possible to prevent them from stuffing their young charges with deleterious drug with a chance of entailing upon the tender constitution, just forming, a complication of evils, a thousand times worse than death.

It would be consuming space, to no purpose, to enumerate the disease, to which this system is applied, suffice it to say, that there is no disease within the catalogue of human ills but what can be cured at the Electropathic Institute. We have instructed the Resident Physician to warrant a perfect and
