

THE COURIER

THAT AFTER-PIECE

CHAPTER I.

Election day was marked by no very extraordinary occurrence in this place, save a Democratic victory was achieved. The kindest of greetings, with rare exceptions, were the order throughout the entire day. As the shade of evening drew its sable mantle over things terrestrial, the news of the result came in from all points, and doubtful, conflicting and desultory reports were made. A general headquarters for either party was very naturally established, and different parties sought and rallied around the one to which their bent inclined them. A Democratic rendezvous was made of the drug store of Drs. White and Westfield, while the other party rallied on the "corner," at Messrs. Eckles & Burbank's store.

Men were busily and anxiously engaged, pencil in hand, "figgering" on the probable result at either headquarters, canvassing the probable end of the conflicting reports which continued to pour in until near high 12, seemingly oblivious to all that might be transpiring elsewhere on this foot-stool of things not always lovely to behold, when suddenly the exclamation was heard, "clear the way, she's going to shoot!" which somewhat disturbed the equanimity of those not entirely absorbed in mazes of "figgers" and doubt. We, being somewhat disengaged for the time, and curious to learn what was probably on the tapis, wended our way cautiously in the "reaction of the noise." We had not gone far when we met a pair of bipeds rushing furiously up the street, who, upon being interrogated by us as to what was going on below, only halted in their flight long enough to articulate imperfectly, "don't go down there, she will shoot!" By this time we espied a horse standing crosswise of the pavement when we immediately put him between ourselves and danger, and hastened up, thus getting ourself in close proximity to the "scene." We here took a little time to deliberate, and without difficulty discovered "Josh and Dan," (who are notoriously on the "bob around,") of the masculine, and ——— of the feminine gender, mixed up promiscuously and in indescribable confusion, while a diminutive and unearthly looking specimen of the genus *biped*—a nondescript as to gender or anything else discoverable by us, was making himself conspicuous on the outside and around the edges. At this juncture a self-constituted policeman interfered, making a bold sally upon the mass, digging up one of either gender, and straightway putting an end to the *melee*. The above preceding we have seen fit to dub the "after piece" to the day's performance. It was an interesting one.

[Not to be continued.]

FINE FISH.—Mr. Hagey brought to town during the past week, a wagon load of very nice salmon. He thought his entire load would average twenty pounds to the fish. He sold them at \$1 each.

TEMPERANCE.—The Good Templars have organized a Lodge in Lafayette, and seem to be in a prosperous condition. Prof. Handley was elected W. C. T., and Miss Judith McBride, W. Vice Templar.

DRS. WHITE & WESTFIELD have a good assortment of patent medicines. They are constantly recruiting their stock of general drugs.

BRICK.—We take pleasure in calling the attention of our readers to the advertisement of Mr. Frank Holdridge who will be prepared about the 4th of July to furnish parties wanting them, an indefinite number of brick of a very superior quality.

Persons from this side of the river who purchase brick from Mr. Holdridge will be passed back and forth at the Lafayette Ferry at his expense.

THE COMING FOURTH.—We hope the people of Lafayette and vicinity will make ample and timely preparations for a grand celebration of the approaching Fourth of July at this place. Of the necessary materials the people in this vicinity have an abundance to spread a sumptuous table for the occasion. There is little time to be lost. Appoint a meeting, come together, detail the necessary committees and set the ball in motion. We confidently expect to see the ladies taking an active part in the necessary preparations for a grand and gala time in commemoration of the day made sacred by hallowed memories. Let us act promptly in this matter.

ALL HAIL, THE CHEHALEMS.—On the eve of the 4th inst., the two Chehalis precincts came thundering down with 43 majority for the Democratic ticket. West Chehalis is the banner precinct in the county. She drove 28 "nails" in the coffin of black republicanism, disunionism, and had she been fairly dealt by, would have driven THIRTY-ONE. This will be abundantly established when the seat of Lampson, who only claims 8 majority, is contested. In West Chehalis the people are quiet, industrious and orderly, and the precinct boasts the largest proportion of educated population of any precinct in the county. West Chehalis is a pleasant and inviting place to live in.

REMOVED TO BUENA VISTA.—Mr. J. C. Kreutz who has resided in Lafayette for a considerable while, engaged in manufacturing Boots and Shoes, took his departure from amongst us, one day last week, bound for Buena Vista, where he contemplates locating permanently. We are sorry that Mr. and Mrs. Kreutz could not deem it compatible with their best interests to remain with us.

Mr. Kreutz will engage in the Boot and Shoe business at his new home, where we shall be pleased to learn of his abundant success.

A PETTY EXHIBITION OF PARTISAN MALEVOLENCE.—A certain Post Master in Yamhill County hit upon a somewhat novel plan to do the COURIER dirt. Soon after the publication of the paper was commenced, this man, being too ignorant to know his duty or too wilfully dishonest to do it, set himself about warning people not to subscribe for the COURIER—that it would "not run two months" and that all who took it at his office must pay postage in advance for the year. This radical ignoramus did not know that newspapers were not chargeable with postage in the County where published. He had the thieving dishonesty too, to claim postage for a year on a paper that he knew "would not run two months."

Despite the efforts of a few putty-headed penny souled pimps of intolerance and negro-worshipping fanatics to put it down, the COURIER is a permanent fixture of Yamhill County. Be it said to their credit, the more worthy, intelligent and influential of the Republicans are the last to join in a dogged persecution of any and every enterprise however much the interests of the community are likely to be promoted by it, simply for opinion's sake.

"BBQQQUETT!"—Our apology to the Editor of the *Advocate* for having once upon a time anglicised a little "Phrensch."

THE PROSPECT—KELLY PROBABLY ELECTED.—From the dailies received by yesterday afternoon's boat, we glean the fact that the contest is exceedingly close between Fay and Mallory, and that Kelly is pretty certainly elected. The Oregonian claims 90 majority for Woods, while the Herald claims 200 for Kelly. We are inclined to the opinion that Col. Kelly is elected, but think it very doubtful as to the remainder of the State ticket.

Woods runs behind his ticket in every county in the State save Benton. So much for cutting the flag.

Yamhill County boasts a larger percentage, Democratic gain, than any County in the State save and except Multnomah, and she elects "statuquo" Powell's brother to the Senate.

If 'Catalogue' Laughlin should happen to get his seat in the house, mighty Czar! at the talent.

MR. STEPHEN BEAN has removed with his family to the Cornwall place, three miles south of McMinnville, at which point he will continue the business of Blacksmithing.

A Bachelor and a young lady bought some tickets in partnership in a lottery at the recent Sanitary Fair at Milwaukee, agreeing to divide proceeds equitably. They drew a double bedstead, a baby-crib, and a lunch basket, and the question is how to divide them, or whether they shall not use them "jintly."

RELIGIOUS NOTICES.

ELDER S. C. ADAMS conducts religious services at the Church in Lafayette, on the first Sabbath of each month, at 11 o'clock A. M.

Rev. N. A. STARR preaches at McMinnville at 11 o'clock A. M., and in Lafayette 3 o'clock P. M., on the fourth Sabbath of each month.

In the Circuit Court of the State of Oregon, for the county of Yamhill.

Isophona Fleming, plff. vs. George W. Fleming, deft. Bill for Divorce.

IN THE NAME OF THE STATE OF OREGON, You are hereby summoned to be and appear in the Circuit Court of the State of Oregon for the county of Yamhill, and answer the complaint of said plaintiff in this cause filed against you, within ten days from the date of the service of this writ upon you, if served in this county, and within twenty days if served within any other county, and if you fail to answer, the plaintiff will apply to said court for the relief in said action demanded.

U. S. I. R. S. HURLBURT, 50c. Plffs. Atty. Published by order of R. P. Boiss, District Judge 3d Judicial District. Witness my hand, and the seal of said U. S. Court, affixed at Lafayette, in said County, this 8th day of June, A. D. 1866. June 12-5w S. C. ADAMS, Clerk.

To The Sick.

[COMMUNICATED.]

An Interesting Letter.

Very few persons, even among physicians, would have been willing upon any terms to have been in the condition of the writer of the following letter on the 14th of February last. I will anticipate somewhat his report of the facts by saying that on the 15th of August last, he made me a visit, "the very picture of good health."

Time, which tries and proves all things has sufficiently tested this case, and shown that neither relapses nor collapses having followed, the cure is perfect, and can be cited among the scores of similar cases

the result of my improved mode of treating disease without medicine. Aug. 27, 1865. G. M. Bourne, Water Cure Physician, No. 10, Masonic Temple, Post street.

Sacramento, April 30, 1865. Dr. G. M. BOURNE—Dear Sir:—It is with pleasure and satisfaction that I now let you know of my good health. Looking back upon what I have passed through, it seems as if I was lifted from the grave, and I think it my duty to acknowledge to you and the world the benefit I derived from water treatment as administered by you in your celebrated baths. It was in August, 1864, when disease developed itself with a severe cough. I then took medicines, getting worse, with chills, fevers, loss of strength, and was pronounced consumptive. This set me to thinking, and I finally determined to leave my business go to the Sandwich Islands, having been informed that I could not be cured here. I went to San Francisco, and while waiting for a ship, called upon Dr. Bourne, who stated that a trip to the Islands would probably result disastrously, was unnecessary, as I could be speedily cured at his establishment. I placed myself under his "treatment," and in one week was so much improved I thought I thought I could risk returning home and to my duty as Engineer on the Central Pacific Railroad. The Doctor objected, but I thought I knew better, and returned to duty. In about two weeks my cough returned, and I kept getting worse and contrary to Dr. Bourne's injunction never to take medicine again, committed that folly, and soon was so completely run down that I could scarcely walk; so, as a last resort, I concluded once more to try the water cure. I went to San Francisco—few of my friends expecting me ever to return. In fact, I thought my return doubtful. On arriving at Dr. B.'s establishment (Feb. 14 1865) I was not able to get into the bath without assistance but in a few days I began to recover myself again. I remained with him only six weeks, when I left, "a wiser and better man," without the aid of medicine. I have now been at work several weeks, and find that I am gaining every day, and at present bid fair to be stouter than ever before. Persons visiting the Doctor's establishment will find it just what it should be, both in Ladies' and Gentlemen's departments, and I cannot say too much in praise of the doctor's kind attentions to his patients.

This letter I write for the benefit of all the afflicted, to be used as the Doctor decides, and should it be the means of directing any to his care and treatment who (as they surely will) find relief, I will be paid for my trouble. JAMES CAMPBELL, Engineer Central Pacific R. R.

SAN FRANCISCO, August 22, 1865. Advised by the undersigned, Mr. Jas. Campbell, of the Central Pacific Railroad, (who was then in a most deplorable state of ill health) placed himself under the care of Dr. Bourne the Water Cure Physician. Some six months or more afterward he visited this City, when I accidentally met him at Dr. Bourne's establishment, and am happy to say, restored to good health, and in fine spirits. JOHN SULLIVAN.

Dr. Bourne treats all diseases of the throat, chest and lungs—which includes diptheria, bronchitis, incipient consumption, pleurisy, croup, &c.—with greatest success. Great relief is afforded in advanced stages of Consumption. Rheumatism, paralysis, neuralgia, fever and ague, dropsy, etc., etc., are also cured quickly, pleasantly and economically. No medicine whatever.

Confirmation Strong Of An Interesting Letter.

SACRAMENTO, November 23, 1865. DEAR DOCTOR:—I received your letter a few days since asking for my photograph which I will attend to as soon as convenient. At present I am very busy, on account of the stormy weather, being out at all times, both night and day, and am enjoying good health, apprehending no danger if properly careful, as every one should be. I have read my letter in the Call and other papers, and have been asked several times concerning it, and whether it is correct, and I say I can vouch for its contents, and more if required, as can a great many others who knew me at the time. I remain your friend. JAMES CAMPBELL. To Dr. Bourne, San Francisco.

Dr. Bourne takes the liberty to publish the above, as many persons had prophesied his relapse into his former condition, on returning to his duties, of the writer of "An interesting Letter," whose statements concerning the cure of a well defined case of Consumption have recently attracted so much attention to the Water Cure, as improved upon and practiced by Dr. Bourne. This additional testimony must prove satisfactory to all reasonable minds. It should be remembered that Dr. Bourne uses no medicine whatever, and his patients almost universally those who have failed to receive relief from the medical practitioners; yet they are cured with great rapidity, and in a pleasant and agreeable manner. No. 10 Masonic Temple, Post street entrance. no. 15 3m.

Dr. J. H. Josselyn.

IMPORTANT MEDICAL DISCOVERY

Electricity as a Curative Agent.

WHEN IT WAS PROMULGATED By the Directors of the ELECTROPATHIC INSTITUTE, that disease could be entirely eradicated from the system without the use of poisonous drugs, the thoughtless and those who do not look deeply into cause and effect scouted the assertion as chimerical, and wrote long articles replete with sophistry, claiming that only through the digestive system could the blood be purged of the poisons which constitute disease; a great cry went up from those interested in the continued supremacy of the old system of one poison to cure another. All of the empirics joined in the chorus, and in their ignorance laughed at the new system, circulating base stories of its ill-success, and quoting imaginary cases as proofs. Time has demonstrated their dishonesty. After five years of uninterrupted success the Electropathic system is the leading idea in medical jurisprudence, while by the old system, physicians were content to cure one in every five cases, there were those who were diving deep into the science of the curative art; among these were the Electropathists; finally, it was discovered that the failure in most of the cases of organic disease, was entirely due to the machine. Taking this view of the case, Dr. J. H. Josselyn, after years of experiment, has perfected an Electropathic Instrument, which will cure any disease which flesh is heir, always to be understood that the case is not far advanced as to show a destruction of the vital tissues. We do not claim that the use of medicines may not be more advantageous in some cases, but, that in connection with medicines, it will perform a cure much sooner than without, and also that diseases hitherto deemed incurable, can be cured by this system but the directors would take this opportunity to inform invalids that the Resident Physician is a regular graduate, and has had a large experience in the treatment of diseases, both with and without the aid of electricity, he has also discovered several "electric" vegetable remedies that will cure almost any nameable disease, which he will send to any part of the Pacific Coast upon receipt of a complete description of the disease with which the applicant may be afflicted, and will warrant a perfect cure in all cases, where the medicines are used according to directions, and more especially in cases of FEMALE TROUBLES, where great care and caution are necessary to a favorable result. From early morn until late at night, this instrument is employed, imparting health and strength to all who are so fortunate as to obtain its services. Diseases (which the old system) took months, or even years to cure, are now cured in a few days or weeks. The cost, too, is not so great as by the old system, besides the saving of time. Connected with this system is the renowned

Electro-Magnetic Baths.

than which there is no more powerful auxiliary in the world for the radical cure of disease. There is no institute in the State where the electropathic system is practiced, except at the

Electropathic Institute, 645 Washington Street.

This Institute was established to, if possible, prevent the unwary from falling into the dens of robbery, (yclept quack doctor's traps), and hereafter the scientific originators of this Institute will not be to blame if the afflicted are robbed of their money, and injured in constitution.

There is also another view of the affair. The rising generation should be reared with strong constitution, and the directors wish to arouse their guardians to a proper sense of their duties in their premises, if possible to prevent them from stuffing their young charges with deleterious drug, with a chance of entailing upon the tender constitution, just forming, a complication of evils, a thousand times worse than death.

It would be consuming space, to no purpose, to enumerate the disease, to which this system is applied, suffice it to say, that there is no disease within the catalogue of human ills but what can be cured at the Electropathic Institute. We have instructed the Resident Physician to warrant a perfect and permanent cure, or ask No Pay for services, when in his judgment it is within the bounds of cure.

CAUTION. Persons seeking the Electropathic Institute should be careful to remember the name and number.

ELECTROPATHIC INSTITUTE

645 Washington Street.

South side, between Kearny and Montgomery over the Restaurant,
