

# THE COURIER

READ the new Portland advertisements in this issue, and look out for several more, which will appear in our next.

Messrs. J. Loryea, Furniture Dealer; Galland, Goodwin & Co., Dry Goods, Clothing, &c., and E. G. Randall, dealer in Music, will each be heard from next week.

HON. P. P. PRIM, the present incumbent, beat his competitor, B. F. Dowell, 300 votes in Jackson county alone. Dowell is editor of the Sentinel. He has now an opportunity to devote himself exclusively to the arduous task of making for the Democracy a hundred or so more votes by next election. His labors with the Sentinel are appreciated in that district.

GEN. DIX is being talked of by the Democrats in some parts of the State as their candidate for Governor of New York. Dean Richmond is also spoken of.

GEO. E. BADGER of North Carolina is dead. He was Secretary of the Treasury under General Harrison, and afterwards a U. S. Senator for six years. He was an old-fashioned conservative Whig, and an able, honest man.

COL. CHARLES S. LOVELL, lately in command of the Post of Fort Vancouver, is ordered to the command of the District of Arizona.

Assistant Paymaster J. J. Philbrick, of the United States navy, arrived in New York on the United States steam frigate Massachusetts on the 24th of April, since which time nothing has been heard of him at the Navy Department, and fears are entertained of his safety.

BENJAMIN FRANKLIN left a fund to the city of Boston, in trust, for the benefit of poor apprentices. Hon. Wm. Minot, who has been treasurer of this fund for fifty-five years, has just resigned. In his hands it has increased from about \$9,000 to a sum exceeding \$111,000.

MORE OF WOMAN.—In a late letter to the Stockton Herald, Lyon C. Doyle, says, of the woman of San Francisco: "There is and has been, an epidemic among the women of San Francisco to don the habiliments of men for the purpose of seeing the sights prohibited to their inspection while wearing the feminine garb. The first places a woman disguised in men's clothes visits are the cellars where 'pretty waiter girls' do their 'beer slinging.' They hear some rough jokes, see some lascivious actions, and familiarize themselves to many actions. Then the Belle Union is visited, and that tips out all their remaining modesty. Then the Chinese dens and the Anatomical Museum make them perfect with forbidden sights; so if they get drunk during some of their wanderings, it is not to be wondered at. If they follow up drinking when they resume their natural dress it is not to be wondered at. A saucy lad got a punch in the eye the other night, and a respectable though mischievous girl, had a black eye the next morning. A jealous husband returned unexpected, to his home one night, and caught a well dressed fellow emerging from his cottage. The husband knocked him down, broke his ribs and fractured his arm. His wife has been bolstered up in bed ever since with a fractured arm, broken ribs, and a bruised face. A brother went home a little tipsy the other night, and met 'a cove' in the hall of his father's house. He familiarly slapped the 'cove's' plug hat over his eyes, and had to purchase a new one for himself the next day. His sister was the 'cove.' These circumstances are facts. Girls should beware of any woman who suggests a 'lark' of this kind to them. Women destroy more women than men do."

OPERATIONS in the Santiam mines are about to be resumed for the season. The Statesman notices the departure, last Friday, of a party owning in the Morning Star, Aurora and New York ledges.

THE 125th Colored Regiment, Col. Duncan, passed through Topeka, Kansas, on the 10th inst., en route to Fort Union, New Mexico, accompanied by a train of 115 wagons.

mouth of the

**SANJACUIN AND SACRAMENTO  
RIVERS,**  
Which has been regularly laid out, surveyed  
and put upon record;

**Title Perfect.**  
BEING A Patent From the  
UNITED STATES,  
And Contains over 20,000

**Building Lots!**  
FIVE THOUSAND

**To be given away  
Or distributed free!**

To such  
as shall first apply for a lot, and a good  
deed given at once (unconditionally)  
leaving it at the option of the party whether  
to improve or not; but it is expected that  
those taking one of the GIFT LOTS will  
use their influence in directing persons  
seeking a home in California, to the  
New City and County. By doing that,  
they will get more to settle than if they  
were to improve themselves.

**NO CHARGE FOR THE DEED!**  
**MONEY LOANED** to such as BUILD  
Immediately, on the premises, at LOW  
rates of INTEREST.

A glance at the map of California is all  
that is necessary to satisfy any reflecting  
mind of the judicious selection of this magnificent  
site for a new city, which has never  
been subject to overflow from the flooding  
or rise of the bay or river in winter, as  
the warehouses and wharf were built at a  
time of the highest flood last winter. The  
vast region of fine country around it is  
fast filling up, and if the uninterrupted  
navigation from San Francisco to Sacramento  
increases as it has done for the last  
five years, there is no reason why NEW-  
PORT should not become a

**Great and Commercial  
CITY!**

It being a midway stopping place for the  
steamers daily from San Francisco to  
Sacramento. Already, at and around  
Newport, there is a large number of in-  
habitants. They have also a

**POST OFFICE, STORE, LARGE WAREHOUSE, AND  
MAGNIFICENT WHARF,**  
200 feet long by 100 feet wide!

Which cost the proprietors upwards of  
\$10,000. The Farming Country in Solano  
county cannot be surpassed. Fine soil,  
springs of pure water, &c. The climate  
is milder, both in summer and winter,  
than almost any other part of California.  
A city with such a situation, surrounded  
by so magnificent a country must have a  
**GREAT AND GLORIOUS DESTINY!**

A ferry is established between this port,  
Antioch and New York, making the distance  
only 35 miles by land to San Francisco,  
being a saving of over 100 miles to  
those who drive stock to that market.

Some persons not realizing the immense  
rise on property in new cities, may say,  
"How can we afford to give away so  
many lots, not knowing how many may  
be actual settlers?" Why, gentlemen, if  
by giving away five hundred lots we can  
induce one hundred to settle, then the  
rise in the value of our lots will more than  
pay for those given away, and those holding  
the remaining lots are the owners of a  
handsome property. Remember Newport  
is to be the terminus of the Pacific  
Railroad, and

The very lots you now receive, may, in  
less than three years, be worth  
Thousands of Dollars!

We would therefore say to those who  
desire to avail themselves of this liberal  
offer, to join the Association at once.

**EARN FOR SALE,**

Of five, ten, twenty or forty acres,  
in the immediate vicinity, at a low price.  
To those who will make improvements  
during the coming year.

Any person of respectability can become  
a member of the Association by remitting  
five dollars to the President or Secretary,  
upon receipt of which he will receive a deed  
of one of the best lots in the city—25 by  
100 feet—and a receipt of membership. Both  
deed and receipt will be sent free of expense.

One half of the amount received will  
go towards purchasing from the old company  
their magnificent wharf, warehouse,  
farm, dwelling houses and stores, and  
2000 acres of land—including the whole  
water front of the city, which extends two  
miles on the Bay. One-quarter of the  
amount received will be advanced to parties  
who will improve their lots. The other  
quarter, or balance, will be expended  
for expenses; making deeds, buying  
siamps, etc. As soon as the 5000 lots are  
disposed of, the Company will own a city  
over two miles square; two miles of which  
will be bounded on the Bay, where fifty  
wharves could be built, enabling the largest  
vessels to load, being at the head of  
navigation. This property will then be  
divided pro rata to each subscriber, giving  
to each a very handsome sum. As the  
number sold will increase the balance,  
it is presumed that each stockholder will  
receive from \$100 to \$1000 for each certificate  
issued, having now a large number of  
Subscribers.

ANY MECHANIC who will send us  
the names of five others besides his own,  
will receive his lot free.  
In sending money to us, register your  
letter through the post office, or by Wells,  
Fargo & Co.'s Express at our risk.  
For plan of the city, showing the location  
of blocks and lots, or bills, or any other  
information, please call on, or address  
"Newport Loan and Homestead Association."  
Office, S. W. corner of Kearney and  
Sacramento sts., San Francisco. P. O.  
Box, 86. je19

**To The Sick.**  
[COMMUNICATED.]  
An Interesting Letter.

Very few persons, even among physicians,  
would have been willing upon any terms  
to have been in the condition of the writer  
of the following letter on the 14th of February  
last. I will anticipate somewhat his report  
of the facts by saying that on the 15th of  
August last, he made me a visit, "the very  
picture of good health."  
Time, which tries and proves all things  
has sufficiently tested this case, and shown  
that neither relapses nor collapses having  
followed, the cure is perfect, and can be  
cited among the scores of similar cases

the result of my improved mode of treating  
disease without medicine.  
Aug. 27, 1865. G. M. Bourne,  
Water Cure Physician, No. 10, Masonic  
Temple, Post street.

Sacramento, April 30, 1865.

Dr. G. M. BOURNE—Dear Sir:—It is  
with pleasure and satisfaction that I now  
let you know of my good health. Looking  
back upon what I have passed through,  
it seems as if I was lifted from the grave,  
and I think it my duty to acknowledge to  
you and the world the benefit I derived  
from water treatment as administered by  
you in your celebrated baths. It was in  
August, 1864, when disease developed  
itself with a severe cough. I then took  
medicines, getting worse, with chills, fevers,  
loss of strength, and was pronounced  
consumptive. This set me to thinking,  
and I finally determined to leave my business  
go to the Sandwich Islands, having been  
informed that I could not be cured here.  
I went to San Francisco, and while waiting  
for a ship, called upon Dr. Bourne, who stated  
that a trip to the Islands would probably result  
disastrously, was unnecessary, as I could be  
speedily cured at his establishment. I placed  
myself under his treatment, and in one week  
was so much improved I thought I thought  
I could risk returning home and to my duty  
as Engineer on the Central Pacific Railroad.  
The Doctor objected, but I thought I knew  
better, and returned to duty. In about two  
weeks my cough returned, and I kept getting  
worse and contrary to Dr. Bourne's injunction  
never to take medicine again, committed  
that folly, and soon was so completely  
run down that I could scarcely walk; so, as  
a last resort, I concluded once more to  
try the water cure. I went to San Francisco—  
few of my friends expecting me ever to return.  
In fact, I thought my return doubtful.  
On arriving at Dr. B.'s establishment (Feb. 14  
1865) I was not able to get into the bath  
without assistance, but in a few days I began  
to recover myself again. I remained with him  
only six weeks, when I left "a wiser and better  
man" without the aid of medicine. I have  
now been at work several weeks, and find  
that I am gaining every day, and at present  
bid fair to be stouter than ever before.  
Persons visiting the Doctor's establishment  
will find it just what it should be, both in  
Ladies' and Gentlemen's departments, and  
I cannot say too much in praise of the doctor's  
kind attentions to his patients.

This letter I write for the benefit of all  
the afflicted, to be used as the Doctor decides,  
and should it be the means of directing any  
to his care and treatment who (as they surely  
will) find relief, I will be paid for my trouble.  
JAMES CAMPBELL, Engineer Central Pacific R. R.

SAN FRANCISCO, August 22, 1865.  
Advised by the undersigned, Mr. Jas. Campbell,  
of the Central Pacific Railroad, (who was then  
in a most deplorable state of health) placed  
himself under the care of Dr. Bourne the Water  
Cure Physician. Some six months or more  
afterward he visited this City, when I accidentally  
met him at Dr. Bourne's establishment, and  
am happy to say, restored to good health, and  
in fine spirits.  
JOHN SULLIVAN.

Dr. Bourne treats all diseases of the  
throat, chest and lungs—which includes  
diphtheria, bronchitis, incipient consumption,  
pleurisy, croup, &c.—with greatest success.  
Great relief is afforded in advanced stages  
of Consumption. Rheumatism, paralysis,  
neuralgia, fever and ague, dropsy, etc., etc.,  
are also cured quickly, pleasantly and  
economically. No medicine whatever.

**Confirmation Strong Of  
An Interesting Letter.**

SACRAMENTO, November 23, 1865.  
DEAR DOCTOR:—I received your letter  
a few days since asking for my photograph  
which I will attend to as soon as convenient.  
At present I am very busy, on account  
of the stormy weather, being out at all  
times, both night and day, and am enjoying  
good health, apprehending no danger  
if properly careful, as every one should  
be. I have read my letter in the Call  
and other papers, and have been asked  
several times concerning it, and whether  
it is correct, and I say I can vouch for its  
contents, and more if required, as can a  
great many others who knew me at the  
time. I remain your friend.  
JAMES CAMPBELL.  
To Dr. Bourne, San Francisco.

Dr. Bourne takes the liberty to publish  
the above, as many persons had prophe-  
sied his relapse into his former condition,  
on returning to his duties, of the writer of  
"An Interesting Letter," whose statements  
concerning the cure of a well defined  
case of Consumption have recently attracted  
so much attention to the Water Cure,  
as improved upon and practiced by  
Dr. Bourne. This additional testimony  
must prove satisfactory to all reasonable  
minds. It should be remembered that Dr.  
Bourne uses no medicine whatever, and  
his patients almost universally those who  
have failed to receive relief from the  
medical practitioners; yet they are cured  
with great rapidity, and in a pleasant  
and agreeable manner. No. 10 Masonic Temple,  
Post street entrance. no. 15 3m.

**Dr. J. H. Josselyn.**  
**IMPORTANT MEDICAL DISCOVERY**  
**Electricity as a Curative Agent.**

**WHEN IT WAS PROMULGATED**  
By the Directors of the ELECTRO-  
PATHIC INSTITUTE, that disease could be  
entirely eradicated from the system with-  
out the use of poisonous drugs, the thought-  
less and those who do not look deeply  
into cause and effect scouted the assertion  
as chimerical, and wrote long articles  
replete with sophistry, claiming that only  
through the digestive system could the  
blood be purged of the poisons which constitute  
disease; a great cry went up from those  
interested in the continued supremacy  
of the old system of one poison to cure  
another. All of the empirics joined in  
the chorus, and in their ignorance laughed  
at the new system, circulating base  
stories of its ill-success, and quoting imaginary  
cases as proofs. Time has demonstrated  
its uninterupted success the Electropathic  
system is the leading idea in medical juris-  
prudence, while by the old system, physicians  
were content to cure one in every five  
cases, there were those who were diving  
deep into the science of the curative  
art; among these were the Electropathists;  
finally, it was discovered that the failure in  
most of the cases of organic disease, was  
entirely due to the machine. Taking this  
view of the case, Dr. J. H. Josselyn, after  
years of experiment, has perfected an Elec-  
tropic Instrument, which will cure any  
disease which flesh is heir, always to be  
understood that the case is not far advanced  
as to show a destruction of the vital  
tissues. We do not claim that the use of  
medicines may not be more advantageous  
in some cases, but that in connection  
with medicines, it will perform a cure  
much sooner than without, and also that  
diseases hitherto deemed incurable, can  
be cured by this system but the directors  
would take this opportunity to inform  
invalids that the Resident Physician is a  
regular graduate, and has had a large  
experience in the treatment of diseases,  
both with and without the aid of electricity,  
he has also discovered several "electric" vegetable  
remedies that will cure almost any  
nameable disease, which he will send to  
any part of the Pacific Coast upon receipt  
of a complete description of the disease  
with which the applicant may be afflicted,  
and will warrant a perfect cure in all cases,  
where the medicines are used according  
to directions, and more especially in  
cases of FEMALE TROUBLES, where  
great care and caution are necessary to a  
favorable result. From early morn until  
late at night, this instrument is employed,  
imparting health and strength to all who  
are so fortunate as to obtain its services.  
Diseases (which the old system) took  
months, or even years to cure, are now  
cured in a few days or weeks. The cost,  
too, is not so great as by the old system,  
besides the saving of time. Connected  
with this system is the renowned

**Electro-Magnetic Baths.**  
than which there is no more powerful aux-  
iliary in the world for the radical cure of  
disease. There is no institute in the  
State where the electropathic system is  
practiced, except at the

**Electropathic Institute,**  
645 Washington Street.

This Institute was established to, if possible,  
prevent the untwary from falling into  
the dens of robbery, (yclept quack  
doctor's traps), and hereafter the scientific  
originators of this Institute will not be  
to blame if the afflicted are robbed of their  
money, and injured in constitution.

There is also another view of the affair.  
The rising generation should be reared  
with strong constitution, and the directors  
wish to arouse their guardians to a  
proper sense of their duties in their pre-  
mises, if possible to prevent them from  
stiffing their young charges with deleterious  
drugs, with a chance of entailing up on  
the tender constitution, just forming,  
a complication of evils, a thousand times  
worse than death.

It would be consuming space, to no  
purpose, to enumerate the disease, to  
which this system is applied, suffice  
it to say, that there is no disease  
within the catalogue of human ills but  
what can be cured at the Electropathic  
Institute. We have instructed the Resident  
Physician to warrant a perfect and  
permanent cure, or ask No Pay for services,  
when in his judgment it is within the  
bounds of cure.

**CAUTION.**  
Persons seeking the Electropathic In-  
stitute should be careful to remember the  
name and number.

**ELECTROPATHIC  
INSTITUTE**

645 Washington Street.  
South side, between Kearny and Mon-  
tagomery over the Restaurant.

J. H. JOSSELYN, M. D.  
Resident Physician.

on the sign. With these remarks we  
leave the interest of the Institute with the  
public asking only the same generous  
confidence thus far awarded to it. The  
record shows over twenty thousand con-  
sultations, and a very large amount of  
suffering relieved.

Persons wishing to consult the Resident  
Physician, by letter can do so with the  
utmost confidence. All letters must be  
addressed plainly J. H. JOSSELYN, M. D.  
Box 1945, San Francisco, Cal. All  
letters will be destroyed or returned, as  
desired by the writer. Office hours from  
6 A. M. to 4 P. M. no. 14 m.
