

FINANCE EXHIBIT.—The Exhibit of the finances &c., have already been published in Multnomah and other Counties of the State, for the half year ending July 1st. We are of opinion that the law contemplates such publication in every County—especially where there is a paper published.

It has heretofore been the practice of the Clerk of Yamhill County to have the County exhibits published in the Oregon Statesman. The columns of the COURIER are at his service for that purpose now.

The tax payers, we are sure, would be profited by such publication, as they would be enabled to see just what disposition is being made of their money. And particularly is it meted that such exposition should be made upon the retirement of the old County officers, and installation of the new ones, as in the present case.

Democratic Mass Meeting!

A meeting of the Democracy of Polk and adjoining Co's will be held at Dallas on Saturday, July 21, 1866. Turn out every body. The meeting will be addressed by Messrs. Bonham, Hayden and others. A grand time will be had.

An Interesting Letter.

Very few persons, even among physicians, would have been willing upon any terms to have been in the condition of the writer of the following letter on the 14th of February last. I will anticipate somewhat his report of the facts by saying that on the 15th of August last, he made me a visit, "the very picture of good health."

Time, which tries and proves all things has sufficiently tested this case, and shown that neither relapses nor collapses having followed, the cure is perfect, and can be cited among the scores of similar cases

the result of my improved mode of treating disease without medicine. Aug. 27, 1865. G. M. Bourne, Water Cure-Physician, No. 10, Masonic Temple, Post street.

Sacramento, April 30, 1865. Dr. G. M. Bourne—Dear Sir:—It is with pleasure and satisfaction that I now let you know of my good health. Looking back upon what I have passed through, it seems as if I was lifted from the grave, and I think it my duty to acknowledge to you and the world the benefit I derived from water treatment as administered by you for your celebrated baths. It was in August, 1864 when disease developed itself with a severe cough. I then took medicines, getting worse, with chills, fevers, loss of strength, and was pronounced consumptive. This set me to thinking, and I finally determined to leave my business go to the Sandwich Islands, having been informed that I could not be cured here. I went to San Francisco, and while waiting for a ship, called upon Dr. Bourne, who stated that a trip to the Islands would probably result disastrously, was unnecessary, as I could be speedily cured at his establishment. I placed myself under his treatment, and in one week was so much improved I thought I thought I could risk returning home and to my duty as Engineer on the Central Pacific Railroad. The Doctor objected, but I thought I knew better, and returned to duty. In about two weeks my cough returned, and I kept getting worse and contrary to Dr. Bourne's injunction never to take medicine again, committed that folly, and soon was so completely run down that I could scarcely walk; so, as a last resort, I concluded once more to try the water cure. I went to San Francisco—few of my friends expecting me ever to return.—In fact, I thought my return doubtful. On arriving at Dr. B.'s establishment (Feb. 14 1865) I was not able to get into the bath without assistance but in a few days I began to recover myself again. I remained with him only six weeks, when I left, "a wiser, and better man," without the aid of medicine. I have now been at work several weeks, and find that I am gaining every day, and at present bid fair to be stronger than ever before. Persons visiting the Doctor's establishment will find it just what it should be, both in Ladies' and Gentlemen's departments, and I cannot say too much in praise of the doctor's kind attentions to his patients.

This letter I write for the benefit of all the afflicted, to be used as the Doctor decides, and should it be the means of directing any to his care and treatment who (as they surely will) find relief, I will be paid for my trouble. JAMES CAMPBELL, Engineer Central Pacific R. R.

SAN FRANCISCO, August 22, 1865. Advised by the undersigned, Mr. Jas. Campbell, of the Central Pacific Railroad, (who was then in a most deplorable state of ill health) placed himself under the care of Dr. Bourne the Water Cure Doctor, some six months or more afterward he visited this City, when I accidentally met him at Dr. Bourne's establishment, and am happy to say, restored to good health, and in fine spirits.

JOHN SULLIVAN.

Dr. Bourne treats all diseases of the throat, chest and lungs—which includes diphtheria, bronchitis, incipient consumption, pleurisy, croup, &c.—with greatest success. Great relief is afforded in advanced stages of Consumption, Rheumatism, paralysis, neuralgia, fever and ague, dropsy, etc., etc., are also cured quickly, pleasantly and economically. No medicine whatever.

Confession Strong of

An Interesting Letter.

SACRAMENTO, November 23, 1865.

DEAR DOCTOR:—I received your letter a few days since asking for my photograph which I will attend to as soon as convenient. At present I am very busy, on account of the stormy weather, being out at all times, both night and day, and am enjoying good health, apprehending no danger if properly careful, as every one should be. I have read my letter in the Call and other papers, and have been asked several times concerning it, and whether it is correct, and I say I can vouch for its contents, and more if required, as can a great many others who knew me at the time. I remain your friend.

JAMES CAMPBELL.

To Dr. Bourne, San Francisco.

Dr. Bourne takes the liberty to publish the above, as many persons had probed his relapse into his former condition, on returning to his duties, of the writer of "An Interesting Letter," whose statements concerning the cure of a well defined case of Consumption have recently attracted so much attention to the Water Cure, as improved upon and practiced by Dr. Bourne. This additional testimony must prove satisfactory to all reasonable minds. It should be remembered, that Dr. Bourne uses no medicine whatever, and his patients almost universally those who have failed to receive relief from the medical practitioners; yet they are cured with great rapidity, and in a pleasant and agreeable manner. Dr. J. H. Josselyn. IMPORTANT MEDICAL DISCOVERY Electricity as a Curative Agent.

WHEN IT WAS PROMULGATED By the Directors of the ELECTROPATHIC INSTITUTE, that disease could be entirely eradicated from the system without the use of poisonous drugs, the thoughtless and those who do not look deeply into cause and effect scouted the assertion as chimerical, and wrote long articles replete with sophistry, claiming that only through the digestive system could the blood be purged of the poisons which constitute disease; a great cry went up from those interested in the continued supremacy of the old system of one poison to cure another. All of the empirics joined in the chorus, and in their ignorance laughed at the new system, circulating base stories of its ill success, and quoting imaginary cases as proofs. Time has demonstrated their dishonesty. After five years of uninterrupted success the Electropathic system is the leading idea in medical jurisprudence, while by the old system, physicians were content to cure one in every five cases, there were those who were diving deep into the science of the curative art; among these were the Electropathists; finally, it was discovered that the failure in most of the cases of organic disease, was entirely due to the machine. Taking this view of the case, Dr. J. H. Josselyn, after years of experiment, has possessed an Electropathic Instrument, which will cure any disease which flesh is heir, always to be understood that the case is not far advanced as to show a destruction of the vital tissues. We do not claim that the use of medicines may not be more advantageous in some cases, but that in connection with medicines, it will perform a cure much sooner than without, and also that diseases hitherto deemed incurable, can be cured by this system but the directors would take this opportunity to inform invalids that the Resident Physician is a regular graduate, and has had a large experience in the treatment of diseases, both with and without the aid of electricity. He has also discovered several "electric" vegetable remedies that will cure almost any nameable disease, which he will send to any part of the Pacific Coast upon receipt of a complete description of the disease with which the applicant may be afflicted, and I will warrant a perfect cure in all cases where the medicines are used according to directions, and more especially in cases of FEMALE TROUBLES, where great care and caution are necessary to a favorable result. From early morn until late at night, this instrument is employed, imparting health and strength to all who are so fortunate as to obtain its services. Diseases (which the old system) took months, or even years to cure, are now cured in a few days or weeks. The cost, too, is not so great as by the old system, besides the saving of time. Connected with this system is the renowned

Electro-Magnetic Baths.

than which there is no more powerful auxiliary in the world for the radical cure of disease. There is no substitute in the State where the electropathic system is practiced, except the

Electropathic Institute,

645 Washington Street.

This Institute was established to, if possible, prevent the unwary from falling into the den of robbery (ye old quack doctor's trap), and hereafter the scientific originators of this Institute will not be to blame if the afflicted are robbed of their money, and injured in constitution.

There is also another view of the affair. The rising generation should be reared with strong constitution, and the directors wish to arouse their guardians to a proper sense of their duties in their premises, if possible to prevent them from stuffing their young charges with deleterious drug with a chance of entailing upon the tender constitution, just forming, a complication of evils, a thousand times worse than death.

It would be consuming space, to no purpose, to enumerate the disease, to which this system is applied, suffice it to say, that there is no disease within the catalogue of human ills but what can be cured at the Electropathic Institute. We have instructed the Resident Physician to warrant a perfect and permanent cure, or ask No Pay for services, when in his judgment it is within the bounds of cure.

CAUTION

Persons seeking the Electropathic Institute should be careful to remember the name and number.
